Chief Supt. Carlos reassigns 3 police provincial officials

CAMP RUPERTO KANGLEON, PALO, Leyte- At least three police provincial directors here in the region were reassigned from their posts as part of the police organization's policy to remain neutral as the country is set to hold elections this May 13.

Chief Supt. Dionardo Carlos, police regional director, said that the three affected officials have been in their posts of at least a year, a period which he said could have made them established 'familiarity' among the candidates running in the elections.

"Election period kasi. We rotate our field commanders, especially those in position of at least one year. We want to avoid familiarity with the incumbents who are running in the elections. This way, we cannot be accused of being partisan. This is also for the benefit of the organization," Carlos said on Wednesday.

Affected by the orders were S/Supt. Dante Novicio of Leyte who was reassigned to Samar province; S/Supt. Nicholas Torre III, Samar police director who was assigned as chief of the regional operations division; and S/Supt. Felix

Diloy of Eastern Samar who was replaced by S/Supt. Lito Bigoy.

The new police provincial director for Leyte is S/Supt. Rolando Bade whose previous post is now occupied by Torre.

Diloy, meantime, was temporarily assigned at the Regional Personnel Holding and Accounting Unit.

Of the three affected police provincial directors, the most controversial was Torre who engaged Calbayog City Mayor Ronald Aquino of verbal tussle, accusing him of favoring Samar Governor Sharee Ann Tan.

Questioned incident happened in 2009 Eastern Samar Rep. Evardone faces graft charges before the Ombudsman

TACLOBAN CITY- For an act that happened about 10 years ago, Eastern Samar Rep. Ben Evardone is now facing a graft complaint before the Office of the Ombudsman.

Evardone, who was governor at that time, was accused by Edilberto Grata, Jr., for violation of section 3(e) of Republic Act 3019, otherwise known as the Anti-Graft and Corrupt Practices Act as his questioned acts allegedly resulted to 'undue injury' to the provincial government of Eastern Samar.

Grata, who is a resident of Can-avid, also in Eastern Samar, in his complaint he filed before the anti-graft court on Jan.14, stated that Evardone committed graft involving P5.37 million by extending financial assistance to the Liga ng mga Barangay- Eastern Samar which was used for a Lakbay Aral involving barangay leaders of the province for a seminar on good governance in Baguio City on

February,2009.

He also said that during the seminar, Evardone, who was on his last term as governor at that time and had expressed his desire to run for congressman during the 2010 elections, also handed P1,000 each to the barangay leaders who attended the seminar.

The provincial government, under Evardone, also entered an agreement with SEAIR to transport the participants, Grata said on his complaint.

Grata said that part of the 'overall design of the seminar workshop was a commitment made by the governor and the participants.

"In this situation, each barangay chairperson would be made to express his/her commitment of support to then Governor Evardone who made known his intentions to run for Congress in 2010 elections," he said.

And by giving their support on his congressional

bid, Evardone then gave P1,000 each to them, Grata added.

But Evardone, who is now on his last term as congressman of the lone district of Eastern Samar and is seeking for the gubernatorial post in this year's elections, dismissed the complaint as nothing but 'purely politically motivated.'

"The fund in questions were aid to barangays transferred to the Liga ng mga Barangays through a memorandum of understanding. It was the liga that disbursed the funds, which were fully liquidated and supported by official receipts and airline tickets. So not a single centavo passed through me," Evardone, in a press statement, said.

"This happened a decade ago and the timing is suspect. Why only now? There is no doubt that the filing of the case is purely politically motivated," the congressman said.

To support the initial report forwarded to this office, Police Chief Inspector Antonio Montañón, OIC of Allen MPS averred that the suspect identified as Johnson Lascano y Salazar, 29 years old, married, driver and resident of Brgy. The City Treasurer's Office (CTO) of the Tacloban city government target of about P1.4 billion collection target for this year which is comparatively higher than last year's P1.2 billion. Photo shows business owners renewing their business licenses at the CTO. (CIO)

City Treasurer Office optimistic it will achieve collection target for 2019

TACLOBAN CITY – The City Treasurer's Office expressed optimism that they would be able to achieve their collection target of more than P1 billion pesos this year.

City Treasurer Zosima Cordaño made the statement during the last week of the ongoing business renewal and Real Property Tax (RPT) in this City.

In an interview over Radio Program "Sumat Tacloban," Cordaño disclosed that the city government targets to collect P1.4 billion for 2019; the majority of the targeted revenue will come from local sources such as real property and business taxes, and economic enterprise which includes the market, slaughterhouse, and terminal collections.

"The revenue target for this year is higher than last year's P1.2 billion, but we are nevertheless hope-

ful that we will be able to hit the target with the co-operation of our taxpayers," she said.

As part of the revenue generation initiatives of Mayor Cristina G. Romualdez, the Kanhuraw Business Center (KBC) came up with innovations that would give taxpayers more ease in paying their taxes such that assessment and payment of real property taxes can now be had in one location, while business renewal have been streamlined into three steps.

The online payment system of the local government dubbed Electronic Payment Portal (EPP) also went full blast this year allowing taxpayers to pay their taxes right at the comfort of their home or business establishment.

According to the city treasurer, local business operators will have until

January 20, 2019 to renew their business permits and licenses per City Revenue Ordinance 99-58 or be penalized with a 25 percent surcharge and a 2 percent interest per month.

Since the last day of business renewal falls on a Sunday, the KBC has extended its business hours until 7 pm, which started last January 14 to 18.

However, cash transactions will only be accepted until 6 pm. On Saturday, January 19, the KBC will be open to serve clients starting 8 am until 5 p.m.

On the other hand, real property taxpayers will have until January 31 to avail of the 20 percent maximum discount on real property taxes.

Meantime, the city government expects more than 8,000 regular business permits to be processed this year. – (HENRY JAMES G. ROCA/CIO)

In Southern Leyte Students get exposed on consumer rights, responsibilities

SAINT BERNARD, Southern Leyte- Fifty-eight students from Tambis National High School (TNHS) in this Pacific town attended a seminar on basic consumer rights and responsibilities recently.

The activity was spearheaded by the Department of Trade and Industry (DTI) provincial office.

"Republic Act 7394, otherwise known as the Consumer Act of the Philippines, states that the Department of Education, Culture, and Sports, now DepEd, shall develop and adopt a consumer education program that will be integrated into the existing curricula for both private and public schools," said Erwin Remojo, technical industry development specialist (TIDS).

Towards this aim, the DTI provides consumer

education to Grade 10, junior and senior high school students in their economics class, Remojo added.

Discussed during the seminar were the seven types of consumers, such as the wasteful, close-fisted, spendthrift, impulsive buyer, bargain addict, panic buyer, and intelligent consumer.

Remojo disclosed that it was the late U.S. President John Kennedy who first introduced the concept of consumer rights as a safeguard from harm by unscrupulous businessmen.

These include the right to safety, to choose, to be informed, and to be heard.

In 1985, the United Nations expanded these rights to include basic needs, right to redress, to consumer education, and to a healthy environment, Remojo reported.

Rina Ligaya Merquita, principal of TNHS heartily appreciated the efforts of DTI for holding the seminar which she described as eye-opener and informative not just for the students but also to the teachers who were present.

"This seminar is an on-going activity by the DTI, which is given to schools and other interested groups who would like to learn about their rights and responsibilities as consumers," Remojo said.

Boxer Manny's career teaches us a lesson

"I want to prove something, this being my first fight since I turned 40".

This is a statement boxer Manny Pacquiao revealed late-ly relative to his coming boxing bout against American Adrein Broner at the MGM Grand at Las Vegas, on Saturday (Sunday morning of Jan. 20, Manila time).

Manny Pacquiao is an elected senator of the Republic of the Philippines. We just wonder why the senator is out of the country these days when the Senate is in session: He is handsomely paid by our taxes to include allowances as a legislator. We believe that he gets paid as an elected senator even when absent in the session hall and

will earn thousands of dollars, win or lose in this boxing bout at Las Vegas.

His earnings as a boxer is his own income to include his personal achievements and fame a personal pride.

There has to be a law on this. Elected officials should work in the office he/she was elected to. Come election time voters should already be smart enough to vote only for candidates who will sincerely work for the office he has ran for.

Manny Pacquiao is, of course, a square peg in a round hole. He cannot participate intelligently in Senate deliberation for his lack of educational foundation. Let this Pacquiao public servant status be a good lesson when we vote in the midterm elections in May 2019.

We Salute Senator Ping Lacson

Senator Panfilo "Ping" Lacson is one of our lawmakers in the Upper Chamber who shows sincerity, dedication, unbent-strong will in his role as a legislator in the Senate of

the Republic.

He performed quite well as PNP Chief – instilling discipline among policemen. He made a difference then.

As a neophyte Senator

he did not avail of the pork barrel funds, controversial source of additional income to lawmaker. The pork barrel funds is supposed to be a special allocation for special projects of lawmakers intended for their respective districts and to Senators anywhere they want them spent. Truth is pork barrel have been "spent" in fake or ghost projects.

-oOo-

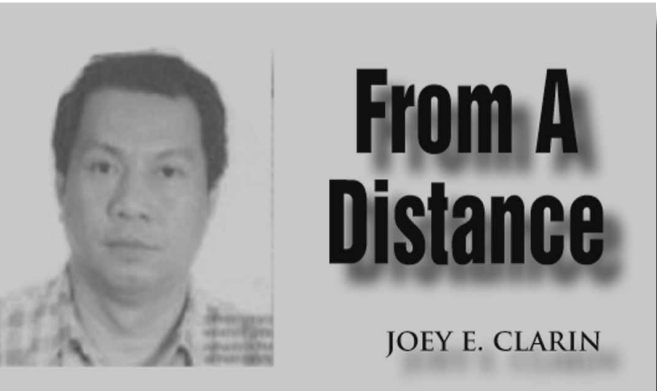

The pork barre funds have been an abuse of legislators for a long time already. In fact it was one identified as among the abuses of legislators that made President Ferdinand Marcos abolish it when he declared Martial Law in September 21, 1972 – to stop rebellion then and

to create a New Society.
-oOo-

A unitary form of a lawmaking body organized with the establishment under that rule – the Batasang Pambansa. It was a fourteen- year dictatorship that sadly catered in abuse as well: our freedoms shelved, media controlled and extra judicial killings also happening, so the Marcos regime was ousted by that world famous peaceful people power EDSA revolution in Feb. 25, 1986 that installed Corazon Aquino, wife of slain Senator Benigno Aquino, fierce critic of that regime.

The Chief Justice we never had

I am so impressed of the integrity of Supreme Court Justice Antonio Carpio. First, when then Chief Justice Lourdes Sereno was removed through a Quo Warranto ruling of the Supreme Court, he did not apply for the position of Chief Justice even if he is the most senior member of the SC reasoning out that he does not want to benefit from such erroneous ruling stressing that Sereno should be removed only by impeachment process.

Carpio has been by-

passed thrice for the top post in the Supreme Court – first in favor of Renato Corona and for the second time to Lourdes Sereno and now to Lucas Bersamin.

The main reason for his non appointment as Chief Justice of the SC is his stand on the West Philippine Sea. Carpio is among those at the forefront of efforts to make China respect the Philippines sovereign rights and maritime control of the West Philippine Sea.

Carpio has made clear that his bid to be named

Chief Justice shouldn't come at the expense of gagging him on his stand on the West Philippine Sea. He believes that the navies of the world including the United States could enforce the UN-Permanent Court of Arbitration ruling in the West Philippine Sea disputing Duterte's claim that no power in earth can enforce the arbitral rulings and that we cannot fight China.

Carpio said the Chief Justice position is a small price to pay for defending our maritime zones. If we do not defend our maritime area, we may lose it forever. He said "if we lose this huge maritime area in the West Philippine Sea, we lose it forever. This generation and future generations of Filipinos will never be able to recover this vast area with all its rich natural resources."

Carpio's stand on the West Philippine Sea reflects on his integrity, seldom seen nowadays from our national leaders. This is the stand that cost him the Chief Justice position of the Supreme Court.

Universal apostolate

LET us always keep in mind that mandate Christ gave to his apostles before he ascended into heaven. "Go and make disciples of all nations, baptizing them in the name of the Father and of the Son and of the Holy Spirit, and teaching them to obey everything I have commanded you." (Mt 28,19-20)

It's a mandate that is actually meant for all the disciples of Christ and believers of God. We have to have a universal sense of apostolate. As one saint would put it, of 100 souls we should be interested in 100.

We have to avoid falling into a parochial or tribal attitude toward our apostolic duty. While it's true that because of our personal

conditions, each one of us will have a particular niche in his apostolic activity, everyone should try to have a universal apostolic concern.

We have to be ready to get interested in everyone apostolically. We should be interested both in the rich and the poor, those in the mainstream of society as well as those in the peripheries.

We have to learn how to dance with the rich and crazy as well as to get wet and dirty with the poor and miserable. We should be able to do apostolate in any part of the world. We have to learn how to be all things to all men as St. Paul said. (cfr. 1 Cor 9-22)

And our interest in them should go beyond merely human and

worldly purposes and categories. We simply are not interested in them for some practical reasons alone. We should avoid getting entangled in the subordinate reasons for our apostolic interest in everyone.

The main reason for our apostolic interest in everyone should be that everyone gets back to God from whom all of us came and to whom we all belong. We have to be most interested in everyone achieving his spiritual and supernatural goal in life, in his holiness, in his becoming 'another Christ,' who is the pattern of our humanity and the redeemer of our damaged humanity.

For this, we need to be patient, persevering, creative and versatile. We have to learn how to "waste time" with everyone, especially those who may be very different from us in terms of temperament, social and economic status, etc.

We should not wait for some favorable circumstances before we do apostolate. To do apostolate should be like our heartbeat. We should feel its urge the way we feel the urge to breathe, eat and drink.

Cut and burn

Despite the many advances modern agricultural technology has made, many of our upland farmers in remote areas are still backward with their farming methods, depriving them of good produce, and impairing the soil they till into becoming more and more unfit for planting.

The farmers behind the kaingin method are good examples for this. They would cut the weeds, including the trees standing in the area, and then

burn everything to the ground later. This is a practice that remains rampant in rural areas due to the belief that the ashes contribute to the soil's enrichment and fertility.

The clearing may prove yet fertile during the first planting season. But the soil, given this cut-and-burn procedure, becomes barren in the long run as the cut grasses and all that could have been allowed to decay to enhance soil fertility, are being burned instead, depriving the soil of natural fertilizers.

In an agricultural country like ours, such farming practices should have been corrected long ago. Agricultural experts, backed by the Department of Agriculture, should intervene through information dissemination that may be followed by constant monitoring to confirm the farmers' implementation of what they learn.

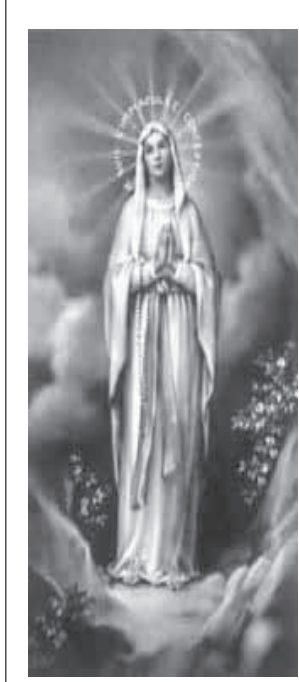

Authorities should ensure this knowing that some unlettered farmers are so stubborn enough they just

stick to conventional farming that they have learned from their forbears. They tend to reject modern methods that prove alien to them.

To reach these farmers, local radio stations may be tapped. All sorts of gimmicks may be employed to get their attention to a radio program that could help them become effective farmers through various methods. Moreover, their particular problems encountered in their respective areas must be addressed to ensure the relevance of discussions.

Lastly, such information drive must observe consistency, if not perpetuated on air so that farmers who operate on fallacies and ancient practices would become more productive and well off. One-time airing of such educational radio program will not suffice as majority of farmers may not be able to hear it. A repetition of the same may prove better.

This could be the most appropriate empowerment we could give to our lowly farmers now when everything seems to have been modernized. It would be ironic for farmers to remain ancient with their farming strategies when better techniques can make them more productive, hence assets that the country can count on.

Democracy was restored and both House of Congress – Senate and House of Representatives re-operated. Again pork barrel was restored.

Few years back from this day the Supreme Court declared at last, that pork barrel is illegal. But lawmakers have brilliant and creative minds. They simply employed other terms in the budget but still pork barrel in nature qnd practice.

This did not escape the searching mind of Senator Ping Lacson. In the 2019 national budget is worse on this issue. Millions of pesos have been inserted

right after it got passed by Congress. Budget Secretary Ben Diokno is identified as the architect of this deception. It was Ping Lacson who exposed it. This insertions were designed to provide funds of the Budget Secretary’s relatives in his district and in Sorsogon. This was deleted but will be transferred from DPWH to the Department of Health, according to the Senator.

Only Ping Lacson and former Senator Joker Arroyo who NEVER took advantage of this pork barrel, clearly designed for lawmakers to shamefully enrich themselves through kickbacks. GOD bless you Ping Lacson.

PSA starts survey on labor force and family income and expenditure

TACLOBAN CITY- The regional office of the Philippine Statistics Authority (PSA-8) has started the 2019 labor force survey and the 2018 family income and expenditure Survey (FIES) - Visit 2 on Monday (January 14).

A total of 10,663 systematically and randomly selected sample households across the region were identified as respondents.

The PSA has deployed 364 statistical researchers and team supervisors for these surveys to conduct the interviews among the selected respondents.

In a statement, the regional head of PSA, Wilma Perante, said that the labor force survey is a quarterly nationwide survey of households which aims to gather data on the demographic and socio-economic characteristics of the population, and to provide a quantitative framework for the preparation of plans and formulation of policies affecting the labor market.

She added that specifically the LFS serves as a tool in measuring the distribution of household population 15 years old and over by employment status- employed, unemployed or under employed.

It is also used to determine various employment characteristics such as industry, class of worker, nature of employment and basis of payment, Perante added.

Meanwhile, the 2018 FIES Visit-2, is the second of two rounds covering the second semester of the 2018 (July-December) as reference period.

It is a nationwide survey of households conducted every three years which aims to gather data on family income and expenditure to include among others, levels of consumption by item of expenditure as well as sources of income in cash and in kind. The result of FIES provide inputs in the estimation of poverty threshold and incidence.

It also determines the levels and disparities in income of Filipino families, as well as their spending patterns.

Perante assures that all information gathered will be held strictly confidential and would not be used as evidence in court for purposes of taxation, regulation of investigation as provided for in Republic Act 10625.

She said that data gathered from these surveys will be disseminated in statistical summaries without reference to any individual person or household.

First Gen, EDC only Phl companies in global Carbon Clean 200 list

Two Philippine companies, Lopez-led First Gen Corporation and Energy Development Corporation (EDC), have been included in the latest list of the world's top 200 biggest and greenest companies.

The prestigious list, called the Carbon Clean 200, ranks companies according to the size of their revenues from clean energy sources.

Based on the latest list, First Gen ranked 113rd with estimated clean energy revenues of US\$632 million in 2017; while EDC occupied the 139th slot with estimated clean energy revenues of US\$494.72 million.

The latest ranking (for the third quarter of 2018) marked the third time for EDC -- and the first time for First Gen -- to make it to the Carbon Clean 200.

First Gen is the Philippines' leading clean and renewable energy producer with 3,490 megawatts in installed capacity. Subsidiary EDC is one of the world's largest geothermal producers and the country's leading renewable energy company with an installed capacity of 1,471.8 MW. Its 711.4MW geothermal facility in Kananga and Ormoc City, Leyte has been providing clean, reliable baseload power to the province and to the rest of the Visayas region for over 36 years. It is has the largest wet steamfield in the world.

"Being the only Philippine companies on the list is a strong recognition of our commitment to not invest in coal and to make RE [renewable energy] more accessible to the Filipinos to help drive a low-carbon economy for the country," said First Gen and EDC Chairman and Chief Executive Officer Federico R. Lopez.

EDC also holds the distinction of being a carbon-negative company. This means that the amount of carbon dioxide (CO2) it absorbs is far more than the level of CO2 it produces. On an annual basis, EDC helps the country avoid 6.7 million tons of CO2 emissions through its pure RE operations and comprehensive watershed management program.

Launched jointly by non-profit organization As You Sow of the USA and market research group Corporate Knights of Canada, the Carbon Clean 200 list undergoes an update twice a year, based on total clean energy revenues that Bloomberg New Energy Finance (BNEF) rates.

To qualify for inclusion in the list, a company must have over \$1 billion in market capitalization and generate more than 10 percent of its total revenues from clean energy sources.

The Carbon Clean 200 list excludes all oil and gas companies and utilities that generate less than 50 percent of their power from renewable sources. Also excluded are the world's top 100 coal companies, measured in terms of reserves. Coal is considered a major source of CO2, one of the greenhouse gases being blamed in various studies for adverse climate change.

Carbon Clean 200 likewise disqualifies companies that profit from weapons manufacturing, tropical deforestation, the use of child and/or forced labor, and those engaged in negative climate lobbying.

Thirty-three countries were represented in the latest Carbon Clean 200. Fifty two companies were based in China, 34 from the US and 19 from Japan. **(PR)**

Gov. Petilla renews call for fishermen to go into pearly oyster production to help increase their income

TACLOBAN CITY- Leyte Governor Leopoldo Dominico 'Mic' Petilla renewed his call for fishermen to venture into pearl culture for poverty alleviation as the pearl oyster farming proved to be a highly feasible and profitable undertaking.

Gov. Petilla, in an interview with Leyte Samar Daily Express, said that the findings of their initial culture, research and studies which served at the same as the show window and training ground for fishermen, in coordination with the Bureau of Fisheries and Aquatic Resources regional office 8 (BFAR 8), based in this city, disclosed that pearl culture is a profitable undertaking.

Petilla added that pearl culture can help improve the income

Torre, however, denied the allegations saying he was only doing his functions as a police provincial director.

Not affected by the movements were the police provincial director of Biliran, S/Supt. Julius Coyme, Northern Samar, S/Supt. Reynaldo de la Cruz; and Southern Leyte, S/Supt. Nelson Eucogco.

The three police provincial directors are only at their present assignments of less than a year reason why they were not affected by the movement, C/Supt. Carlos said.

Carlos, however, said that the affected police officials should not considered their transfer as they were relieved.

"It's not they are being relieved. After the elections, the possibility of putting them back is still there," he said, adding that all were designated in acting capacities.

Meantime, Carlos said that he issued a directive to all police provincial officials to ensure that that conduct of the elections at their respective areas would be peaceful.

"They should follow the instructions of the leadership. Make sure that they will be nonpartisan and keep (the elections) peaceful," the regional police director said.

Former OFWs receive plantilla positions, teaching kits through NRCO-SPIMS Program

TACLOBAN CITY-The National Reintegration Center for OFWs (NRCO), an attached agency of the Department of Labor and Employment, through its “Sa Pinas, Ikaw ang Ma’am/Sir (SPIMS),”has completed the awarding of plantilla positions and teaching kits to 66 beneficiaries held on January 11, 2019 at the DOLE RO8 Training Center, this city.

The regional officials of DOLE and OWWA graced the awarding ceremony.

In attendance were DOLE RO8 Director Yahya A. Centi, DOLE OIC-Assistant Director Atty. Cecilio I. Baleña, OIC of the Technical Support Services Division (TSSD) Engr. Emmanuel Y. de la Cruz and Chief Administrative Officer, Cristina T. Longjas.

Mary Catherine O. Pastor, OIC-regional director of OWWA and Catherine O. Doblón, NRCO Regional Coordinator for Eastern Visayas, were also present during the activity.

Aside from the teaching positions, each beneficiary received a P20,000 worth of teaching kit composed of one laptop and one printer.

Director Centi delivered an inspirational message and congratulated all the former OFWs who are now professional teachers.

Gov. Petilla...

Petilla explained that his office is extending assistance to the fishermen who will venture into oyster pearl production, as part of the poverty alleviation program of the provincial government.

The governor added that the fishermen have already harvested their cultured products from the wing blister oyster pearl production.

The initial harvests were conducted in Barangay Pinarigusan of San Miguel and other towns which included the other seven fisherfolk organizations from the towns of Capoocan, Carigara, Barugo, and

He shared how he can relate to all their stories of hard work and sacrifices being a former OFW himself many years back in Saudi Arabia.

“My warmest congratulations to all of you for choosing to become teachers and heed the call of the government to return to our country. Now that you are all teachers, I hope that your commitment will not waver”, said Director Centi.

Director Centi likewise advised the beneficiaries to take care of the equipment.

He said, “I hope you will be good stewards of these teaching kits so that it will serve its purpose of assisting you to become more efficient and effective teachers.”

The venue was filled with emotions when the SPIMS beneficiaries were given the chance to say their messages.

Tears of joy and gratitude were shed as Rosalyn E. Boco, former household service worker in Kuwait, shared her struggles before

successfully getting into the position she is at right now.

“When I learned about this SPIMS program, I am just so happy and hoped for the positive outcome. Now that I am already a teacher, I can’t help but shed tears because finally I can assure myself that my parents are proud of me. Thank you NRCO and DOLE for being patient in facilitating our requests”, said Boco.

SPIMS is an OFW reintegration convergence project of DOLE, DepEd, and other government agencies such as PRC, CHED, and TESDA among others which provides opportunities for OFW LET passers to return, find employment and practice their profession as teachers.

The program aims to gain back the Filipino workers overseas, particularly the OFW LET Passers and reverse out migration by enhancing their skills and providing them with the option to stay in the Philippines to work as teachers. **(PR)**

Experts from BFAR 8 concurred that pearl oyster farming is highly feasible and profitable not only in Leyte but also in other provinces in the region.

BFAR 8 has been studying the feasibility of pearl culture in Eastern Visayas since in 1980s.

In fact, BFAR 8 has

PSA says EV’s inflation rate for December posted at 4.4%

TACLOBAN CITY - Eastern Visayas closed 2018 with a 4.4 percent inflation rate, a report from a report from the Philippine Statistics Authority – Regional Statistical Service Office 8 (PSA – RSSO 8) said here.

Wilma Perante, PSA-RSSO regional director, said that the inflation rate was 0.8 percentage point lower compared with the 5.2 percent inflation rate a month ago, but 1.1 percentage points higher than the recorded 3.3 percent the same period last year.

“The regional inflation rate was 0.7 percentage point lower than the 5.1 percent national average in December 2018,” Perante said.

Perante reported that all provinces registered lower inflation rates in December 2018 compared with their figures in the previous month.

Samar posted the highest decrease at 1.8 percent-

age points, from 7.4 percent in November 2018 to 5.6 percent in December 2018.

The rest of the provinces registered decreases ranging from 0.2 to 1.6 percentage points.

Eastern Samar recorded the highest inflation rate at 7.6 percent, while Biliran posted the lowest at 1.7 percent, Perante said.

Perante claims that among the commodity groups, transport registered the highest decrease of 3.7 percentage points. It was posted at 3.0 percent in December 2018 from 6.7 percent in November 2018.

This can be attributed to the huge decrease in the index of operation of personal transport equipment.

She added that the heavily weighted food and non-alcoholic beverages eased down to 6.0 percent in December 2018 from its previous month’s rate of 7.4 percent, a decrease of 1.4

percentage points. This can be traced to slower price increases of majority of the food items.

“Rice index registered the highest decrease at 3.2 percentage points, from 8.4 percent in November 2018 to 5.2 percent in December 2018. Fish index continued to have a double-digit inflation rate at 10.2 percent, despite shedding off 2.0 percentage points from its figure a month ago. It also posted the highest among all food items.

Inflation rate for alcoholic beverages and tobacco also went down by 0.2 percentage point but still recorded double digit at 20.4 percent, the highest among all commodities, she said.

Meanwhile, health index increased to 3.7 percent during the reference month, 1.3 percentage points higher compared with the 2.4 percent in

DAR Sec.Castriciones distributes farm equipment to 18 ARBOs in the region

TACLOBAN CITY – The Department of Agrarian Reform in Eastern Visayas distributed 18 heavy-duty dump trucks to 18 agrarian reform beneficiary organizations (ARBOs) worth P81-million.

The distribution was led by DAR Secretary John Castriciones, Undersecretary Atty. Emily Padilla and Leyte Governor Leopoldo Dominico Petilla on Thursday (Jan.17).

Six units are given to six ARBOs in the province of Leyte, four in Eastern Samar, four in Northern Samar, two in Samar, and one in Biliran.

Sec. Castriciones said that the dump trucks are important to the beneficiaries to make it easier and cheaper for farmers to deliver their product to the market.

“This is like an incentive to well-performing ARBOs. But eventually the agency will also provide assistance to small ARBOs but this will depend on what the organization needs,” Castriciones said.

Among the recipients of the dump truck is Maalsada Fisco, an ARBO from Alangalang, Leyte.

Reynaldo Peja, president of the organization said that the dump truck is helpful for their members who are mostly rice farmers in delivering their harvest to traders.

“This dump truck can help us in transporting our palay to traders who will buy it in higher price,” Peja said.

Peja shares that their town has many rice traders but most of them buy palay at a lower price that makes it hard for them to earn enough from their crops.

The building, which was formerly owned by Home Guaranty Corporation, was rented before by the agency to serve as office for Operations Office, PDB office and dormitory.

The building was badly damage by super typhoon ‘Yolanda’ and was bought by DAR forP375, 000 in December 2014.

DAR also entered into a memorandum of usufruct with the provincial government for the use of the land where the building is situated for 25 years and renewable for another 25 years.

20,000 board feet confiscated in anti-illegal logging operation in Northern Samar

Illegally cut lumbers worth P700, 000 were seized by members of the 43rd Infantry Battalion and CENRO-Catarman in Barangay Happy Valley, San Isidro, and Northern Samar on January 10. **(43rd IB Photo)**

LOPE DE VEGA, Northern Samar-- 43rd Infantry (We Search) Battalion, 8th Infantry Division, Philippine Army, together with Philippine National Police (PNP) and CENRO(Community Environment and Natural Resources Office)-Catarman, Northern Samar, conducted joint law enforcement operation on anti-illegal logging campaign under Republic Act 7161, which resulted to successful apprehension of 20,000 board feet of dipterocarp, with an estimated value price of P700,000 at Brgy Happy Valley, San Isidro, Northern Samar on 10 January 2019 at 9 am.

According to Forester Paquito P. Dabuet, OIC, CENRO Catarman, the report came from the concerned citizen regarding the rampant of illegal logging at Brgy Happy Valley.

Forester Dabuet coordinated immediately to the headquarters of the 43rd Infantry Battalion to confirm the report and eventually apprehended the said illegally cut lumber at the said

area.

As we experienced in the end of the year of 2018 the province of Northern Samar was devastated by tropical depression “Usman” and one of the reasons behind of the tremendous flash floods and landslides that happened, which isolated some of the municipalities and barangays, is the deforestation of our mountain ranges due to illegal logging.

According to Major Jay C. Pascua, (INF) PA, officer-in-charge of the 43IB, the said successful anti-illegal logging operation will serve as warning to illegal loggers in Northern Samar.

“We are sincere with our tasked to support the anti-illegal Logging campaign of the government in order to preserve our mother nature, and save the people from danger that may cause of it,” he said.

On the other hand, the confiscated lumber is now in the custody of the CENRO Catarman for safekeeping and investigation prior filling case pursuant to DAO-97-32 on anti-illegal campaign. **(PR)**

Samar clash stalls Red’s attacks in Region 8

TACLOBAN CITY- The recent encounter between government troops and New People’s Army (NPA) rebels in San Jorge, Samar has derailed the planned attacks of the group in Eastern Visayas, the Philippine Army reported on Monday (Jan.14).

Brig. Gen. Ramil Bitong, commander of the Philippine Army 803rd Infantry Brigade based in Northern Samar, said a pursuit operation was launched against heavily-armed rebel fighters they engaged in a gun battle Saturday morning.

“The encounter in San Jorge is a significant accomplishment against the Communist-NPA Terrorists (CNTs). As of this report, our troops are pursuing the main body of the fleeing CNTs, comprised of the Eastern Visayas Regional Party Committee (EVRPC) leadership,” Bitong said in a statement issued to reporters.

Bitong said rebels have been planning to launch tactical offensives in Leyte and Samar provinces, prompting the brigade to step up their combat operations in northern part of Samar Island, considered as NPA’s stronghold in the region.

“This is another desperate attempt of the EVRPC to stay relevant by sowing fear and discontent among the residents of the region,” he added.

The gun battle in the remote village of Bay-ang in San Jorge town resulted in a slight injury of nine soldiers due to shrapnel from an explosion.

Soldiers found bloodstains in the enemy’s position but the number of wounded NPAs is still undetermined, according to the military.

The Philippine Army lauded residents of San Jorge and Motiong towns for providing reliable information on the abuses of communist rebels.

Bitong appealed to the remaining NPAs and their supporters to stop their activities and join the government’s development efforts.

November 2018. This can be attributed to the increase in the index for hospital services.

Perante further reported that the Purchasing Power of Peso (PPP) of the region was recorded at P0.81 in December 2018, slightly stronger than the P0.80 PPP a month ago.

This PPP implies that goods and services worth P100 in December 2018 only costs P81 in 2012.

As raised by Mayor Ronald Aquino C/Supt. Carlos doused off speculations removal of current police force of Calbayog City

CAMP RUPERTO KANGLEON, PALO, Leyte – Chief Supt. Dionardo Carlos, police regional director, dismissed the fears of Calbayog City Mayor Ronald Aquino that the entire city police force would be removed and transferred to other assignments.

Aquino has raised his alarm after the city's police director, Supt. Alberto Garcia, was removed and replaced by Supt. Joie Pacito Yape, Jr. "I received an information that one-third of Calbayog police force are to be relieved," the city mayor said in his message during the turnover ceremony held on Monday (Jan.14).

"My only suggestion is for the police from

Calbayog be retain. As the local chief executive, localize police force is favorable for the city because they know the situation of the city unlike policemen who came from other areas who still need to make adjustments," Aquino added.

Aquino recalled that the entire police force of the city was relieved during his first term as city mayor due the series of killings.

All 81 policemen were transferred to the Samar Police Provincial Office based in Catbalogan City.

The city mayor suggested that instead of removing the police force, its better to augment its forces.

But this fear of Aquino was dismissed by Chief Supt. Carlos who said that

he does not see, at least at this time, to remove the members of the Calbayog city Police Office.

"We will see what will happen in the next six months if it will warrant for the removal of the entire police. But I don't see any reason why we will relieve the Calbayog police," the police regional director said.

"We hope that they will keep the city peaceful and remain non-partisan. We will monitor to know if we have ground to take those kind of actions," Carlos added.

Calbayog City has often been listed as among the concerned areas in the region during election period due to occurrence of killing incidents.

Mayor Aquino said that as the city's chief executive, he is also concern on the peace and order of Calbayog for it to attract investors.

"Being the local chief executive of Calbayog, one of my goals is to make this city peaceful because it is synonymous to development. You cannot attain peace if your place is not peaceful," he said.

"We are very successful in inviting investors and we don't want to do anything bad that will drive investors away from our beloved city," Mayor Aquino added.

DOLE helps small businesses thrive in Eastern Samar town

BORONGAN CITY-- Small businesses in the 5th class town of Gen. MacArthur, Eastern Samar, continues to thrive with the assistance of the Department of Labor and Employment (DOLE).

Late last year, some 33 entrepreneurs, mostly women, were given additional goods to enhance their small business ranging from variety stores, feeds and agri products, eateries and barbecue stalls.

Public Employment Service Officer (PESO) Salvador Anabaab of Gen MacArthur said after the operators of the small businesses submitted proposals to enhance their capital, he then drafted a mother proposal he submitted to the DOLE and got the needed additional goods.

Anabaab stressed that DOLE does not release cash, so that what the small entrepreneurs got were stocks needed in their stores and commodities like tomato sauce and items like gas stoves, and kitchenware for those in the food business.

In the simple distribution ceremony, Mayor Flora Ty reminded the beneficiaries to be serious in doing business.

"Kinahanglan upayon niyo an pagpadalagan hini nga gutiay nga puhunan para makabulig kamo pag-sustiner hit mga panginahanglan hit iyo mga pamilya labi na nga waray niyo mga permanente nga mga pakabuhi," (It is important that you manage your stores well, to help your families especially that you have no

permanent jobs,) Ty reminded them.

"Dako gud ini nga bulig labi na kon uugopan ngan seseryosohon niyo it pag-negosyo," (This can help you a lot, if you will be serious in your business), the mayor added.

"The small business establishments were not start-ups, they have already proven somehow that they can ably manage their business," said Anabaab.

"These small businesses can help the community by providing their basic needs while it also helps the entrepreneur by providing income, the government recognizes this, thus the government assistance," said Fe Estrella, DOLE Eastern Samar chief. (NBQ/PIA 8-E. Samar)
