### Region's COVID-19 cases now at 1,464

# DOH confirms two new deaths due to virus

LIZBETH ANN A. ABELLA/RONALD O. REYES

**TACLOBAN CITY-** As the coronavirus disease 2019(COVID-19) cases continue to balloon in the region, the Department of Health(DOH) confirms of two new deaths due to the dreaded virus.

The two COVID-19 deaths of the region involved a 74-year old woman from Dulag town and an 80-year old man from Ormoc City.

With this latest deaths, the region has now six confirmed COVID-19 fatalities.

Dr. Exuperia Sabalberino, DOH assistant regional director, said that the 80-year old man, a locally stranded individual, died on August 7.

His swab result came out after his death.

Meantime, the 74-year old woman died on August

11, the day her swab result was released.

Both were suffering from pre-existing medical conditions and were buried immediately, Sabalberino said during a virtual press conference on Wednesday (August 12).

The DOH in the region has earlier confirmed COVID-19 deaths from the towns of Tarangan and Calbayog City, both in Samar province; Kawayan, Biliran province; and Kananga, Leyte province.

Among infected of the COVID-19 cases were five see DOH /page 22 ...

**ANTI-COVID MEASURES.** Apparently alarmed over the increasing cases of coronavirus disease 2019 (COVID-19) in Tacloban City, Mayor Alfred Romualdez (center) met with barangay and other city officials to inform them to implement stricter measures to help contain spread of the virus. These include stricter implementation of curfew on minors and checkpoints.

## Dead dolphin found in Biliran waters

**TACLOBAN CITY-** A male spinner dolphin was found dead along the waters of Barangay Masagawsaw, Kawayan town in Biliran province on Tuesday (August 11).

The whale, measuring 1.98 meters, was said to have been found by Janito Rosario, a fisherman in the village at around 7:35 am, the regional office of the Bureau of Fisheries and Aquatic Resources (BFAR), based this city, said.

BFAR said that based on the report of their field office in Biliran province, the spinner whale was found entangle at the fish net owned by Rosario.

see Dead/page 21 ...

## Mayor Romualdez issues order to help contain Tacloban rising COVID-19 cases

**TACLOBAN CITY-** With the rising of local cases of coronavirus disease 2019( COVID-19 ) here in the city, Mayor Alfred Romualdez re-

newed his earlier directive to strictly enforce curfew in city including the strict implementation of checkpoints.

Mayor Romualdez met with barangay officials this week where he also asked them to cooperate on this see Mayor /page 16 ...

### As online teaching starts this school year

## Students using Chinese or Korean characters as FB names ask to use real names

TACLOBAN CITY- Some students enrolled in this year's school year may have to be compelled to change their Facebook account names, particularly those using Chinese or Korean characters.

For this year's school term, students, especially in college and secondary levels, will be resorting to online method of teaching.

The change of method of teaching for this school year, which will formally opened on August 24, was part of the campaign of the national government to address the growing number of coronavirus disease 2019(COVID-19) cases in the country.

For teacher Jocelyn Tualla Balagusa, who handles Grade 12 students at the Leyte National High School (LNHS), based this city, she would be requiring her students who are using Chinese or Korean characters as their FB names or accounts to use their real and complete names beginning first day of classes.

She said that considering that all her students will be required to go online, it would be difficult for her to 'locate' them if they are using these characters.

"We teachers will be creating our group chats or FB page. How can we add or locate them (students) if they are using these Chinese characters," Tualla Balagusa said.

She said that last school year, out of the 45 students she had, only five of them were using their real names.

LNHS is the biggest secondary school in Eastern Visayas biggest with more than 8,000 enrollment.

"So what I did was to call them through their mobile phones," Tualla Balagusa, who is handling nine sections in Grade 12 teaching HUMSS (humanities and social sciences), said.

And calling her stu-

dents instead of 'messaging' them on their Facebook accounts entail additional expense on her part as she need more 'load,' Tualla Balagusa said.

Lemuel Dave, a Grade 11 student at LNHS, said that it is okay for him to change his FB account using his name.

But the problem, he said, it would take 60 days for him to do that.

"I would love to but still I have to wait until 60 days to change it again," the 16-year old student said.

He has been using his account with Chinese characters for more than eight months now.

The student explained that under the guidelines of Facebook, one can change or replaced his or her account only after the lapse of 60 days or two months.

Heaven Kyle Abieratas, a Grade 9 student, said that he resorted to using Chinese characters as he was 'bored' when he created his Facebook account.

"That's ok. I will just create another FB account using my real name," the 14-year old student of San Jose National High School, said, adding that he would still continue to use his FB account with the Chinese character.

It's not clear yet why using Chinese or Korean characters became a fad of sort among young FB users.

But Queen Sofia, 14, said that she noticed that almost all of her friends and classmates switched into using Chinese or Korean characters as their FB account names last year.

"We would like to avoid our accounts being hacked or attacked by trolls that is why I and my friends decided to use these characters as our FB accounts," the Grade 9 student of LNHS, said.

She too, favor to use their real names for this

see Student /page 17 ...

## Tacloban city govt appoints personnel as part of its intensified COVID -19 contract tracing

TACLOBAN CITY-In hopes of speeding up the contact tracing and surveillance process of suspected coronavirus disease 2019 (COVID-19) and other infectious diseases carriers at the community level, the city government of Tacloban convened the 40 designated Persons of Authority (POA) in an orientation on Wednesday, August 12 at the City Engineer's Office (CEO) Gym.

The POAs, who are all local government employees and currently living in the northern part of the City, will lead the Volunteer Surveillance Officers (VSO), composed of Barangay Health Nutrition Scholars, Barangay Service Point Officers, and other volunteers at the community who have signed up to help the government address this health crisis.

Meantime, Acting City Health Officer Dr. Gloria Fabrigas has appealed to the employees to be more involved in the contact tracing, stressing that it is not

About 40 designated as persons of authority (POA) attended an orientation on Wednesday(August 12) at the City Engineer's Office (CEO) Gym whose main task is to help in the contact tracing and surveillance of individuals infected by the coronavirus disease. (TACLOBAN CITY INFORMATION OFFICE)

solely the responsibility of the government but everyone in the community to help curb the spread of the virus.

"We mobilize them in order to engage and empower the community, especially in the North, wherein there

are more than 16,000 families living in the resettlement areas," she explained.

Fabrigas stressed that the POAs, in coordination with the VSOs, are tasked to trace those who have been in close contact with the COVID-19 suspected and

confirmed patients.

To date, Tacloban City has 13 active cases and is among the 16 areas in the region which already has a local transmission of COVID-19. (TACLOBAN CITY INFORMATION OFFICE)

## Pacanan leaves Leyte's 2nd district engineering office; named as assistant director for Region V

CARIGARA, Leyte - The Department of Public Works and Highways - Leyte Second District Engineering based this town will soon have its new district engineer.

This after Engr. Gerald Pacanan was relieved from his post and was assigned to Region V as assistant regional director effective August 3 by Sec. Mark Villar.

Pacanan was appointed as district engineer of

Leyte's second engineering January last year.

Sec.Villar has yet to announce who will replace Pacanan as district engineer of Leyte's second district engineering office.

Personnel of district office held a simple send-off party to Pacanan early this week.

Pacanan, in his speech, called on the employees of the 2nd DEO to work with the new district engineer

with the same determination and enthusiasm in order to accomplish more.

He added that working at the 2nd DEO is an experience and opportunity he will never forget especially the support, kindness, and respect the employees had accorded him.

"It was an honor and privilege to serve you the best that I can. Thank you for all your efforts in helping me accomplished many projects in this office. All of you are an integral part of who I become," he said.

He then gave his sincer-

est thanks to the support of Rep. Karen Javier and to her husband, former mayor Sandy Javier, Assistant District Engineer, Francisco Robin, Jr. and to the different section chiefs for the job well done and effective management in handling the people working behind the success of Leyte 2nd district engineering office.

"If you need me, you can always count me in. Thank you. I would love to work with all of you again, soon. May God bless us all," Pacanan said.

(LIZBETH ANN A.ABELLA)

## Farmer stabs drinking buddies in a Leyte town

TACLOBAN CITY-A 44-year-old farmer was arrested after he allegedly stabbed his two drinking companions in Burauen, Leyte Monday (August 10).

Police identified the suspect as Edgar Avila, separated, and resident Barangay Limburan of the said town.

The victims, Rogelio Paza and Baltasar Alber, were rushed to Burauen District Hospital for medical treatment after the stabbing incident at 4:14 pm at

Barangay Libas.

Initial investigation disclosed that the victims and the suspect had a drinking spree during the fiesta celebration of the said barangay when the latter, without apparent reason, allegedly drew a short bladed weapon tucked on his waist and stabbed the victims.

The suspect was brought to Burauen Municipal Police Station for proper disposition.

## Gov. Tan lauds frontliners during his Samar Day speech

**SALUTE.** Samar Governor Michael Reynolds Tan extended his appreciation to frontliners who continue to report for their works despite of the risks being expose to the coronavirus disease 2019(COVID-19).

(Photo Courtesy Michael Balan)

TACLOBAN CITY – Samar Governor Reynolds Michael Tan expressed his appreciation to the frontliners who continue to work despite risking their own lives against the coronavirus disease 2019(COVID-19).

Tan made known of his gratitude to the frontliners during his speech marking the 179th Samar Day celebration last August 11.

Unlike in past celebrations, this year's provincial founding anniversary was

toned down amid the threat of the COVID-19 pandemic.

In his message, Gov. Tan urged Samarons to be thankful for the hard work that all health workers are doing to keep them safe from the spread of the virus.

“Allow me to take this opportunity to sincerely thank all of our frontliners for their back-breaking hard work and commitment to contain and eliminate the virus whenever it appears in our shores,” he said.

“Today as we celebrate Samar Day, let us also celebrate the heroism of our frontliners. Thank you for your sacrifices that benefit of people in Samar,” the governor added.

As of August 13, Samar province has 324 confirmed COVID-19 cases of which 202 were recovered, 120 are still active cases and two deaths, one each from Taranagan and Calbayog City.

Aside from thanking the *see Gov. Tan /page 21 ...*

## With 41 cases, Basey village now a hot spot of COVID-19 pandemic

TACLOBAN CITY – An upland interior village in Basey town, Samar province, has now become a hot spot area for coronavirus disease 2019(COVID-19).

Barangay Villa Aurora, more than 10 kms away from the town center, 41 COVID-19 cases, more than half of the 70 cases of Basey.

The village first case involved a 77-year old man who is suffering from a chronic ailment and confined at the Eastern Visayas Regional Medical Center(EVRMC, based this city.

On August 8, Mayor Luz Ponferrada placed the entire town of more than 1, 200 people, in a lockdown that is to end on August 21. This bars the villagers to go out Villa Aurora.

The move is to ensure that the virus would be contain. The villagers, who depend on agriculture as their livelihood, are being provided with foods by the local government unit.

The DOH said that most of the new infected people of the village were friends, relatives or family members of the 77-year

old man, to include his daughter and wife.

Until now, the authorities have yet to determine where the man got the virus as he was known to have no travel history.

The DOH has identified Basey, due to the rising number of COVID-19 cases in Villa Aurora, as one of the areas in the region where there is a localized cases of the dread virus.

“Since the affected barangay has been on lockdown for days, and the nearby barangays have been restricted in their movements, we are hopeful that we will get through this crisis soon,” Mayor Ponferrada said.

Aside from Villa Aurora, also placed under lockdown were its neighboring villages of Cancaiyas and Balante.

Of the 41 COVID-19 patients of the village, 18 are already isolated at the Municipal Ligtas COVID-19 Center (MLCC), while three are confined at the EVRMC.

Dr. Ludina Insigne, DOH8 medical surveillance officer, who visited the village to gather swab samples from the identified close contacts of the early con-

firmed patients disclosed that during their visit, they noticed that some residents were not following the health protocols.

“We were able to talk to village officials and reiterated to follow the lockdown imposed by the municipality because we have observed that some residents were still living their respective homes and even the village,” she said.

“We also reiterate to them the importance of following the protocol as well as for the community to cooperate to stop spreading the virus,” she added.

In the lockdown imposed by the municipality, minors, senior citizens and pregnant women including those with high risk of infection are prohibited from leaving their respective homes.

Residents are also advised to continue observing and following health protocols such as wearing of face masks, physical distancing and proper handwashing, and social gathering while the village is under lockdown is prohibited.

## As city marks its 20th founding anniversary

### Maasin mayor appeals unity amid COVID-19 threat

TACLOBAN CITY – Mayor Nacional Mercado of Maasin City has called for unity against coronavirus disease (COVID-19) as the city marked its 20th cityhood anniversary on Monday (August 10).

Following this year's theme “Panaghiusa panahon sa pandemya,” Mercado appealed for everyone's support and prayer for the city to surpass the challenges posed by the dreaded virus.

Maasin City has 20 confirmed COVID-19 cases.

“Due to the present situation on COVID-19 in our province and city, once again we are asking for all your understanding and cooperation to strictly follow basic and mandatory health protocols for us to be able to stop the chain of transmission. We cannot win if we cannot work

**Mayor Nacional Mercado**

together in fighting against this virus,” the mayor said.

Meanwhile, Mercado thanked the different groups and individuals who continue to extend donations to the city's COVID-19 response.

The mayor lauded Floi Dolauta of Rotaract Maasin City Chapter for their move to distribute alcohol, vitamins, and pulse oximeter to the three health units in the city.

“In times like this, no amount is too big or small.

Every donation counts,” Mercado said in a statement.

He also thanked Maasin Community Multi-Purpose Cooperative (MCCI) board members led by the Chairman of the Board Ar-

nulfo Abiñon and its manager Alberto Gaviola for their “Feed a Returnee and Frontliner Program” from August 5 to 11.

With over 85,000 population in its 70 barangays, *see Maasin/page 22 ...*

## NMP welcomes Congress move not to remove school from DOLE

TACLOBAN CITY – The National Maritime Polytechnic (NMP) based here, will remain under the Department of Labor and Employment(DOLE) instead being attached to the Philippine Merchant Marine Academy(PMMA)-Visayas Extension Campus.

This after Cagayan de Oro Rep.Rufus Rodriguez withdrew his authored House Bill No. 6367 which calls for the conversion of the NMP as extension school of PMMA.

“After they have given

the position paper, I see the light that the PMMA should not anymore convert NMP to be part of them. I see their vision of being able to also open other satellite schools that they will manage. So I am now withdrawing practically my bill because in due deference and in respect to NMP who has given their position paper objecting to my bill. So, I therefore reiterate my motion to table this, meaning that it will not be discussed anymore, it's a dead bill”, Rep. Rodriguez disclosed

on August 7.

NMP Executive Director Joel Maglunsod welcome the decision of the Cagayan de Oro solon as he stressed his opposition to any move to detach NMP from its current mother unit, the DOLE.

“We have no objection to the vision of Congress of expanding PMMA to the Visayas and Mindanao. However, we would like to reinforce our stand that NMP as a learning institution that provides world-class education and train-

ing to Filipinos, which purpose is aligned with the mandate of DOLE to promote gainful opportunities and develop human resources, consistent with its mandate as stipulated in Presidential Decree No. 1369”, Maglunsod said.

He added that NMP is also planning to establish a satellite offices in Cebu and Mindanao to provide an alternative maritime training center that provides accessible, affordable yet quality maritime trainings. (RESTITUTO A. CAYUBIT)

## PhilHealth revamp a must

**T**he Philippine Health Insurance Corporation, a government entity was established to provide assistance to Filipinos who will undergo medical treatment – specially the less privileged. Government employees are deducted from their salaries a certain amount to run PHILHEALTH.

Medical treatment especially hospitalization is very expensive. PHILHEALTH has billions in their coffers that is so attractive to top executives so they organized themselves as a Mafia and manipulated its operations to satisfy their heartless, greedy money hungry top officials.

One of the strategies they employ is the pur-

chase of highly overpriced equipment for use in hospitals, and one of them is the purchase of information technology equipment that cost P2.3 billion. There could be other expenses via corruption which certainly will be exposed in the on-going Senate hearings.

The President should not wait for the results of the hearings.

PHILHEALTH President and Chief Executive Officer Ricardo Morales (Retired General and a Philippine Military Alumnus) a trusted and close appointee of President Duterte, should be among those to be dismissed to prove to our people he indeed is true to his promise to clean government of graft and corruption.

**Observer**

ALVIN GZ. ARPON

lic transports should not allow passengers to ride their vehicles without face masks and face shields.

-oOo-

This corona virus disease continues to hatefully exist and has already felled thousands of lives not only in our country but in other parts of the world. This pandemic hits everyone to include large and powerful nations like the United States, Russia, England etc., to include rich and powerful people in any society. It is indeed a common threat to human beings.

What is worse is no one

knows how this killer virus will disappear for good. The threat of corona virus hangs on our heads and can kill anyone and anytime. It has the power to do so. Government authorities have time and again reminds us to follow health rules: stay clean.

-oOo-

With the present situation there is only ONE approach we can do. **IT IS TO PRAY FERVENTLY.** God gifted us this life and we have to live following the tenets of spiritual behavior to obey God's laws. Amen!

## Obey and Pray!!

Beginning today August 15 the Dept. of Transportation suggests that all of us who will go out and ride public transports

should wear, aside from face masks but also face shields. Obey because this is for our own protection and safety. Drivers of pub-

## Things To Mind

DOMS PAGLIWAN

### Toothless watchdogs

The gross corruption wreaking havoc on Phil-health is just one of the many examples of rottenness taking place in almost all government agencies, from top to bottom, inside out, from left to right, to and fro, here, there, and everywhere.

Sad to admit but that's the reality in this backward country of ours. It is run like hell, the hell of corruption, by Filipino leaders, just as former President Manuel L. Quezon had desired. Corruption in government is just so rooted it cannot anymore be plucked off no matter how sincere and determined anti-corruption leaders like the incumbent president project themselves to be.

Supposedly, graft and corruption in government ought to be demolished by government watchdogs such as the Civil Service Commission (CSC). Agencies like this should run after the dishonest, corrupt figures in various agencies, slap them with administrative cases, and penalize the same with appropriate penalties such as suspensions or dismissal from service, etc.

But amid the age-old presence of these watchdogs in society, why is it that many if not all government agencies are still ravaged with corruption in various levels of operations and transactions? There must be something wrong. And the only implication of this is that these watchdogs are not really doing

their jobs exactly! Or perhaps, they are just selective of personalities to run after. And obviously, these are the figures that they can easily catch, intimidate, and penalize. These are the powerless, without connections, without influence in society, without influential backers, without money, without names.

Those that are opposite of the above they dare not touch. What's the proof? Well, the proof is the very fact that these watchdogs do not run after these powerful, influential, moneyed people. They just limit their vindictive pursuits to tiny figures, magnifying their offenses even if these are small, and slapping them with exaggerated penalties. These alone are the people they dare to catch. But to the gigantic figures oozing with power and influence, they remain quiet and blind, as though ignorant of the former's irregularities.

Why, they could be silenced with huge sums of money, with scary connections, etc. No wonder why, despite the massive corruption consuming in various agencies, the offenders remain untouched. Should cases come their way, they

## Foulshot

AL ELLEMA

### Business fortune?

*First of a series*

Items for sale are products of creation or innovation in response to human needs. It is why people who possess great minds and imagination invent things that may be needed in man's daily activities. The process invention or product creation beginning from needs analysis, conceptualization, design, fabrication, manufacturing for mass production is a long tedious human work. It may require long hours until the creation or invention is perfected to suit the need. The producer may need feedback from users in order to improve the product and attain customer or consumer satisfaction.

The prospect of people

liking the product is another story that the producer has to deal with. Here it were marketing strategies must be conceptualized, planned and implemented for the product to reach the target consumers or customers. In most products, the producer employs models and endorsers that could persuade the people to buy the product. The cost of advertising is added to the price of the item, placing the entire cost on the consumer or customer. In most instances, the product is taken at whatever the price is set by the seller to the end-user.

Enormous marketing cost is spent on celebrities endorsing the product. Apart from the expensive fees of celebrities as

models and endorsers, the producer has to sustain advertisements that has to catch public attention on various media platforms. The product must be in the consciousness of the consumers or customers for it to be picked regularly. Such is the difficulty in producing something for sale in business with the aim of earning good profit. A poorly designed item that does not respond to the need of customers or consumers may end in the dustbin with all capital cost not even hitting the breakeven point.

But there are business people who seem lucky by thriving on linkages and connections for assurance that a product or item is taken by the target consumers or customers. Without assessing the needs to be addressed by a particular product or item. The ploy is to utilize coercive power by authorities as letting the normal need of consumers or customers will not suffice to rake sales and tremendous profits. The strategy departs from the normal where the product is tested on the target market for customer or

## Commentary

FR. ROY CIMAGALA

### Knowing and loving Christ

WITH Christ, it is not enough to know him. We also have to love him. With Christ, to know him truly is to love him also. In fact, we cannot say we really know him unless we love him too.

With him, these two spiritual operations of ours merge into a unity, although they have different directions. In knowing, the object known is in the knower. It has an inward movement. The knower possesses the known object.

In loving, the lover is in the beloved. It has an outward movement. It is

the beloved that possesses the lover. The lover gets identified with the beloved. The lover becomes what he loves.

In knowing, the knower abstracts things from his object of interest and keeps them to himself. In loving, the lover gives himself to the beloved. In a sense, the lover loses himself in the beloved.

Of course, there are many things that we know but which we do not have to love, or even that we should not love. We can know a lot of evils, but we should never love them. If anything at all, our knowl-

edge of them is just for the sake of prudence.

But whatever good we know, we should also love, otherwise we would fall into some anomaly of inconsistency. In whatever is good, we should not be contented with knowing it. We should love it. Let's remember what St. Paul said in his first letter to the Corinthians in this regard:

"Knowledge puffs up, but love builds up. If anyone imagines that he knows something, he does not yet know as he ought to know. But if anyone loves God, he is known by God." (8,1-2)

And we can add that if one is known by God, he somehow already knows everything that he ought to know since God, who possesses him because he loves God, knows everything. In other words, he shares in the knowledge of God.

Since Christ is for us the highest good we can have, we should both know and love him to the max. We should

## High-Powered Objective

(S & T Enhanced Nations Have Edge)

DR. PACIENTE CORDERO, JR.

### 90 + 30 + 15 Days Equal C-19 Penalty

Never in my wildest of dreams have I dreamed of being incarcerated for a 'crime' I was not a party to the commission of! I refer to the landing of the unwelcomed Nouvelle Corona Virus (I aptly refer to as C-19), in the Philippine shores. I have tested involuntary imprisonment at home in Quezon City. Per my count, the moving number of prison days from March to August 15 are broken as follows: Enhanced Community Quarantine (ECQ) = 90 days, General Community Quarantine (GCQ) = 30 days, and Modified Enhanced Community Quarantine (MECQ) = 15 days! Per Inter-Agency Task Force (IATF) Protocol, only one (1) member of the family is entitled to a Quar-

antine Pass (QP), in our case, my wife has it. Good for her that she can drive our SUV to do marketing and buy medicine.

In my case, I felt the

discomfort of 125 days of incarceration - often referred to as "unproductive" - because I was miles away from my academic commitment with the Eastern Visayas State University - Burauen Campus, after flying to Manila March 2nd, purposely to attend the Annual General Membership Meeting of the National Research Council of the Philippines, DOST, on March 4th at the PICC. It is mandatory for me and previous Executive Directors, to be present in the yearly activity. The other occasions I got permission to leave the house and

Pray the Holy Rosary daily for world peace and conversion of sinners (The family that prays together stays together)

### Prayer for the Nation and for Those who Serve in Public Office

God, our Father, you guide everything in wisdom and love. Accept the prayers we offer for our nation, by the wisdom of our leaders and integrity of our citizens, may harmony and justice be secured and may there be lasting prosperity and peace.

Almighty and eternal God, You know the longings of our hearts and You protect our rights in your goodness, watch over those in authority, so that people everywhere may enjoy freedom, security and peace.

We ask this through our Lord Jesus Christ, your Son, who lives and reigns with you and the Holy Spirit, one God, forever and ever, Amen. (Courtesy of Daughters of St. Paul)

## Manlilisid Central School during COVID-19 pandemic

BY: BELINDA D. EMPUESTO, D.M.

Manlilisid Central School, Javier II District, Javier Leyte is a newly-open Central School in Javier last November 2017, it is accessible by all means of transportation, it is hinter land school with total land area of 10,345 square meters. It is a mono grade school and has a population of 255 pupils handled by ten competent and dedicated teachers, each of them attended mono grade classes and a dedicated School Head. It has 11 classrooms; one classroom is newly repaired intended for dental and health clinic and two classrooms serves as School Head's office and District Head's office. All of these, the teachers, School Head, the building, the land and the pupils make their way as parts of the plan.

In terms of socio-economic status, majority of the learners belong to families whose means of parents livelihood depend mostly on coconut and rice farming. With the increase of price commodities in the market at present, most of the families could hardly afford to send their children to school especially when the price of copra and rice goes down or deflated and also the loose of abaca plants on their farm. There are times that some of the elementary school children are absent in school, they

prefer to help their parents do the house hold chores, help their parents in the farm during harvest time and some do labor to help their parents earn to supply their daily consumption in life. As a result, some of the children report to classes irregularly. With this condition, low academic performance is observed at the end of the school year.

With the collaboration and continuous support of the school PTA and LGU to implement the DepEd programs and projects, the school is able to achieve a very satisfactory result in line with the School Based Management. Through the active leadership of the PTA President, problems of the school are being discussed and addressed then solutions are identified to address the underlying needs of the pupils to improve performance and learning outcomes of the school. On the other hand, the LGU immediately acts on all requests of the School Head for school improvement and priorities are given emphasis. This active involvement of the PTA and other stakeholders manifest a strong partnership with the school to attain our Vision, Mission and Core Values of the DepEd.

# House panel approves proposed Samar Island Medical Center

TACLOBAN CITY- The proposed 300-bed capacity tertiary Samar Island Medical Center (SIMC) in Eastern Visayas is closer to becoming a reality with the approval of House Bill (HB) 1153 at the House committee level through a virtual hearing on August 12, 2020.

"The coronavirus disease (COVID-19) pandemic has highlighted the importance of an effective and comprehensive healthcare system. Government must improve our system and continue working towards accessible healthcare for all," said Tingog party-list Representative Yedda Marie Romualdez, the chairperson of the House Committee on the Welfare of Children.

In a statement, Romualdez said the proposed tertiary hospital will address the urgent medical needs of Samarons, especially now with the threat of COVID-19.

"The island of Samar is the third largest island in the country and is also home to three provinces--Northern Samar, (Western) Samar, and Eastern Samar- and to a population of more than 2 million residents. However, there is not a single tertiary government hospital on the island," said Romualdez, who sponsored the bill along with her husband House Majority Leader and Leyte Representative Ferdinand Martin Romualdez.

"Patients and their families have to travel four to five hours from

that of composing amateurish poems. To date, I have composed 9 poems and 2 Sidays – all posted in my FaceBook Account, later in this column Modesty aside, both endeavors, all with C-19 undertones, have been receiving heart-warming comments from readers. Some of these amateurish efforts I wish to share, starting from this article – my first since the advent of the Covid period.

ern Visayas has two retained hospitals under the DOH-- the Eastern Visayas Regional Medical Center (EVRMC) in Tacloban City and the Schistosomiasis Research Hospital in Palo, Leyte.

There are also 51 state-owned and 27 privately-owned hospitals in the region while the rest of the government

hospitals are provincial and district hospitals and infirmaries owned and managed by the local government units according to her.

The proposed tertiary hospital will be located in Calbayog City as the city government donated a lot where the facility will be constructed.

**MUNICIPALITY OF BIRI**  
SANGGUNIANG BAYAN

EXCERPT FROM THE MINUTES OF THE REGULAR SESSION OF THE SANGGUNIANG BAYAN OF BIRI, NORTHERN SAMAR HELD ON THE 20TH DAY OF JULY 2020 AT THE SB SESSION HALL, BIRI MUNICIPAL BUILDING, BIRI, NORTHERN SAMAR

**RESOLUTION NO. 44**  
Series of 2020

**WHEREAS**, waste disposal continues to be one of the most pressing concerns of the Municipality of Biri, posing a serious threat on the sanitation, health and safety its constituents, and against the ecological balance;

**WHEREAS**, Section 16 of RA 7160 provides that “every local government unit shall XXX, within respective territorial jurisdiction, XXX and preserve the comfort and convenience of their inhabitants”;

**WHEREAS**, Section 17 (b) (2) thereof states that every Municipality shall provide “solid waste disposal system or environment management system and services of facilities related to general hygiene and sanitation”;

**WHEREAS**, under the pertinent provisions of Section 477 thereof, the Sangguniang Bayan is mandated to approve legislative measures to carry out such purpose, to wit: (5) (xiii) Provide for efficient and effective system of solid waste and garbage and disposal and prohibit littering and the placing or throwing of garbage, refuse and fifth and wastes; (4) (xii) Regulate the disposal of clinical and other waste from hospitals, clinics, and other similar establishments; and, (4) (ii) Require that the building and the premises thereof and any land within the Municipality be kept and maintained in sanitary condition; imposed penalties for violation thereof xxx.

**WHEREAS**, on Jan. 26, 2001 Republic Act No. 9003, AN ACT PROVIDING FOR THE ECOLOGICAL SOLID WASTE MANAGEMENT PROGRAM, CREATING NECESSARY INSTITUTIONAL MECHANISM AND INCENTIVES, DECLARING CERTAIN ACTS PROHIBITED AND PROVIDING PENALTIES, APPROPRIATING FUNDS THEREOF, AND OTHER PURPOSES, also known as the Ecological Solid Waste Management Act of 2000, was approved into law;

**NOW THEREFORE** -

**ORDINANCE NO. 07**  
Series of 2020

**“AN ORDINANCE STRENGTHENING THE ECOLOGICAL SOLID WASTE MANAGEMENT OF BIRI, NORTHERN SAMAR, ADOPTING R.A. 9003 AND PROVIDING PENALTIES THEREOF”**

Sponsor : MANUEL B. BERNALDEZ, SR.

**BE IT ENACTED** by the Sangguniang Bayan in the session duly assembled that:

**Section 1. Title.** “An ordinance strengthening the ecological solid waste management of Biri, Northern Samar, adopting RA 9003, providing penalties thereof.

**Section 2. Coverage.** This ordinance shall apply to all individuals, residential houses; establishments such as restaurants, eateries, cenderias, department stores, sari-sari stores, stalls, shops, public markets, mini-market and talipapas, slaughterhouse, hotels, recreational centers, discos, KTVs, video houses, beach institutions like hospitals, funeral parlors, schools, churches, public and private industrial establishments like factories, plants and other establishments of any kind; Transportation facilities such as terminals, buses, jeepneys, megataxis, tricycles, and pedicabs; parks, public open spaces and thoroughfares; and agricultural areas.

**Section 3. Definition of Terms.** The following terms shall be understood as they are defined:

**Agriculture wastes** - refer to wastes generated from planting or harvesting of crops, trimming of pruning of plants and wastes or run-off materials from farms or field.

**Biodegradable** - refers to any material that can be reduced into finer particles or decomposed by microbiological organism or enzymes (synonyms with compostable).

**Biogas digester** - means the “poso Negro” Taiwan type of above-ground portable Valderia model. Biogas is a mixture of methane, carbon dioxide, traces of inert gases produced by the fermentation of animal manure or organic waste in the airtight digester chamber.

**Bulky waste** - refer to wastes materials, which cannot be appropriately placed in separate containers because of either its bulky size, shape or other physical attributes. These include large worn-out or broken household, commercial, and industrial item such as furniture, lamps, bookcases, filing cabinets, and other similar items.

**Buy-back-center** - refers to a recycling center that purchase or otherwise accepts recyclable materials from the public for the purpose of recycling such materials.

**Compost** - is a decayed organic materials for use as soil conditioner or fertilizer.

**Composting** - is a biological degradation under controlled conditions; the process of making biodegradable such as food waste, garden waste, animal waste, human waste, into composted by mixing them with soil, water, biological additives/activators (optional) and air.

**Consumer electronics** - refers to special wastes that include worn-out broken, and other discarded items such as radios, stereos, and TV sets.

**Disposal** - refers to the discharge, deposit, dumping, spilling, leaking or placing of any solid waste into or in any land.

**Disposal site** - refers to a site where solid waste is finally discharge and deposited.

**Domestic waste** - is the refuse from households, as distinguished, as from industrial waste, agricultural waste, etc. which may be classified as biodegradable (compostable) or non-biodegradable (non-compostable).

**Ecological waste management** - refers to the systematic administration of activities which provide for segregation at source, segregation at source transport, storage transfer, processing, treatment and disposal of solid waste and all other waste management activities, which do not harm the environment;

**Environmental acceptable** - refers to the quality of being reusable, biodegradable or compostable, recyclable and not toxic or hazardous to the environment.

**Enzymes** - a protein produced by cells, with the substances to initiate or accelerate chemical in plants or animal matter, acting like an organic catalysts.

**Factory returnable** - are non-biodegradable s, non-compostable such as tin cans and metals; bottles and glasses, including broken pieces, and plastics. Styrofoam, rubber, dry paper, dry cardboard, dry cloth, fibers, leather, feathers, hard shells, hard bones, etc.; which are segregated in separate containers or placed in one sack (cans, bottles, containers already rinsed) and are sold or given away collectors.

**Feed materials** - are food wastes, peeling, veggie trims, fish entrails, fowl innards, spoiled fruits, leftover, egg shell, rice, fish, meat, washings, etc.; that should be collected and kept in covered containers as hog, chicken, ducks, pet or fish feeds;

**Fermentable** - refers to fruits peelings, spoiled or over ripe fruits, juice, e.g. buko juice, etc. are made into vinegar, wine or “nata de pina”, etc.

**Fertilizers materials** - are compostable or biodegradable such as garden waste, (leaves, twigs, weeds), animal waste (manure, carcasses), human waste (feces, urine, blood) all excreta, soiled wipes, pads, diaper without the plastic portion, etc.; are made into compost for organic gardening.

**Filling materials** - refers to those that can be compacted, and mixed with rice chaff and “binders” for appropriate construction project;

Fine crafts - are non-biodegradables which can be used as material for handicrafts, cottage industries, art work, toys and other livelihood projects such as paper mache, paper basketry, tin craft, plastic twines or rope braids, feather crafts, wooden crafts, Styrofoam melted in amount of gasoline solvent provides cheap glue or “binder” for many of the project;

**Food materials** - include certain kind of seeds, pulps, peeling, that is made into pickles, “sweet: or candies, or snacks;

**Functional facilities or equipment** - are equipment of facilities devised or created from discards, throwaways, junk, scraps, e.g. chairs, table, doormats, play equipment from rubber tires, roofing milk cans, flower pots, “planters” from plastic bags, sacks, containers, etc.;

**Generation** - refers to the act of process of producing solid waste.

**Green charcoal** - is another form of fuel or grass charcoal, manufactured from compostable, organic, cellulosic materials with the used of enzymes to breakdown the ligning or binding materials, after which it is molded and, or dried, then used in charcoal-fed stoves;

**Hazardous waste** - are special types of wastes containing chemical, biological, and radiological, elements which are harmful to human health;

**Incineration** - is the controlled process of which combustible waste are burned and changed into gases and residues that contain little or no combustible materials;

**Landfill leachate** - is the downward seeping of water through the landfill carrying with it the dissolve water-soluble contents of the waste which may be collected by the underground drainage or water systems;

**Material recovery facility (MRF)** - include a solid waste transfer station or sorting station, drop-off center, a composting facility, and recycling facility;

**Open dump** - refers to the disposal wherein the solid wastes are indiscriminately thrown or disposed of without due planning and consideration of environmental and health standards;

**Receptacles** - refer to individual containers used for the source separation and collection of recyclable materials;

**Recyclable materials** - refers to any waste material retrieved from the waste stream and free from contamination that can still be converted into suitable beneficial use of for other purposes, including, but not limited to newspaper, ferrous scrap metal, non-ferrous scrap metal, used oil, corrugated cardboard, aluminum, glass, office paper, tin cans, and other materials as may be determined by the commission;

**Recycling** - means the reuse, retrieval, re-commission of element matter for any and all purposes necessary to healthful and productive living; the process by which waste materials or transformed into new products such the manner that the original products may lose the identity;

**Recycling of domestic waste** - refers to the full utilization of domestic waste into factory returnable (around 50-60%), feeds (about 20%), fertilizer (about 30%), fuels, fine crafts, fermentable, etc. with the little left or filling materials. (Proportion varies with the kind of community, the more affluent, and the more factory-returnable). This include both man devised and nature designed recycling.

**Resource recovery** - refers to the collection, extraction or recovery of recyclable material from the waste stream for the purpose of recycling, generating energy or producing a product suitable for beneficial use; provided, that such resource recovery facilities exclude incineration;

**Reuse** - refers to the process of recovering materials intended for the same or different purpose without the alternation of physical and chemical characteristics;

**Sanitary landfill** - refers to waste disposal site designed, constructed, operated and maintained in a manner that exerts engineering control over significant potential environmental impacts arising from the development and operation of the facility;

**Segregation at source** - refers to the solid waste management practice of separating, at the point of origin, different materials found in the solid waste in order to promote recycling and the re-use of resource and to reduce the volume of waste for the collection and disposal;

**Solid waste** - include anything thrown away, such as garbage, rubbish, rash, litter, junk, and refuse from any source (homes, businesses, farms, industries, or institutions); discarded material with insufficient liquid contents to flow. Example are those non-liquid, wastes resulting domestic, commercial, agricultural and industrial activities which can be divided into several component, under three broad classifications:

1. **Compostable.** Compostable waste shall be categorized into category A and category B

\* Food (Cooking) waste or kitchen waste: Peelings, leftovers, vegetable trims, fish, fowl, meat and animal entrails, innards, cleanings, soft shells, seeds, etc.

\* Animal wastes: manure, urine, carcasses, etc.

**Category B:**

\* Agricultural (garden) waste: Leaves, flowers, twigs, branches, stems, roots, trimmings, weeds, seeds, inedible fruits, etc.

2. **Reusable/recyclable:**

\* Metals: tin cans, aluminum, iron, lead, copper, silver, etc.

\* Glasses: polyethylene (bags), polypropylene (straws, jute sacks, container), polyurethane (foam, mattresses), polystyrenes (Styrofoam), polyvinyl (tubes, pipes, linoleum). Polyacetate (fibers, cloth, rayon), etc.

\* Papers: dry papers, cardboard, etc.

\* Dry processed fibers: cloth, twine, etc.

3. **Residual Waste:**

\* Soiled pads, diapers, sanitary napkins, etc.

\* Hard shells, bones, and rocks.

4. **Special waste:**

\* Paints, thinners, households batteries, lead-acid, spray canister, oil canister, tires.

\* Medical supplies and other hospital and industrial wastes.

\* Other hazardous wastes, including chemical, biological, and radioactive substances.

**Solid waste management** - is the purposeful and systematic, control or reduction of the generation, storage, collection, transport, separation, processing, recycling, recovery and the final disposal of solid wastes;

**Sorting at source** - or source separation is the segregation or separation of wastes at the point of generation or at the very place where they are produced, into biodegradable and non-biodegradable.

**Source reduction** - refers to the reduction of solid waste before it enters the solid waste stream by methods such as product design, material substitution, material re-use and packaging restriction;

**Special waste** - refers to household hazardous waste such as paints, thinners, household batteries, lead-acid, spray canisters and the like. These include waste from residential and commercial sources that are usually that comprise of bulky wastes, consumer electronics, white goods, yard waste that are usually handled separately other residential and commercial waste;

**Storage** - Refers to the interim containment of the solid waste after generation and prior to collection for ultimate recovery or disposal;

**Transfer station** - refers to those facilities utilizes to receive solid waste, temporarily store, separate, convert, or otherwise process the material in the solid wastes, or to transfer the solid waste directly from smaller to larger vehicles for transport. This does not include any of the following:

a. A facility whose principal function is to receive, store, separate, convert or transfer or otherwise process manue in accordance with the national minimum standards.

b. The premises of a duly licensed solid waste handling operation that receives, store, transfer or otherwise processes wastes as an activity incidental to the conduct of a refuse collection and disposal business.

**Waste diversion** - refers to the activity which reduces or eliminates the amount of solid waste sent to disposal facilities.

Zero waste resource management system - is an ecological method of handling waste that do not degrade the environment nor pollute air, water and oil, and facilities.

**Section 4. Declaration of Policies and Objectives.** Consistent with the framework of promoting sustainable environment as enshrined under Republic Act No. 9003, otherwise known as the Ecological Solid Waste Management Plan, the Municipality of Biri hereby adopts the following policies:

(a) Maximum resource utilization, conversion and recovery;

(b) Environmental protection and health; and,

(c) Sustainable development

Section 5. Guiding Principles. The implementation of this Ordinance shall be guided by the following basic principles in integrated solid waste management, which are:

(a) Precautionary principle - emphasizes on the prevention and avoidance as far as a possible form the very start, or should not occur or develop in the first place.

(b) Principal of participation and cooperation-emphasizes that environmental protection is matter for which not only the LGU is responsible and the latter cannot achieve environmental protection by merely imposing it as an obligation on industry and the society. The approach is based on maximum division of labor, cooperation and consensus.

(c) Polluter pay principal - Emphasizes that cost for environmental remediation and compensatory measures must be borne by the party or parties responsible for causing the damage.

**Section 6. Objectives.** The ordinance is enacted the following objectives:

1. To supplement the provision of the existing municipal ordinances relative to waste reduction, generation, transportation, treatment and disposal, in a manner that would promote an orderly and sanitary system for the same, and formulate systematic and comprehensive program that adopts best environmental methods and practices in solid waste management.

2. To reduce the volume of solid waste generated and increase possible resource recovery by: (a) maximizing the utility of goods and consumption of products that generate least volume and toxicity of trash; (b) allocating fair inputs in the production of goods, foods and services; (c) establishment of facilities for the recovery, recycling and/or re-use of resources feeds, fuel, materials, energy, etc.; and, (d) promoting indigenous and eco-friendly products and packaging materials to reduce dependence and generation of problematic materials like single-use plastic bags and containers.

3. To ensure a wholesome environment through conservation of valuable resources and the necessary control and mitigation of the impacts of unsanitary handling of solid waste by: (a) minimizing the pollution arising from harmful gases, smoke, particulates and heat produced by incineration and needles burning; (b) cessation of open garbage dump which serve as breeding places “greenhouse gases” and contribute global warming and thinning of ozone layer, generates “leachate” that pollutes soil and water resources, and promote unhealthy scavenging activities; and, (c) eradicating of unsightly, uncovered, unsegregated and overflowing waste containers in street, public places, and open spaces.

4. To promote and protect the public health, safety, peace and convenience and general welfare of the inhabitants of the municipality.

5. Institutionalize public participation, in the development and implementation of the municipality’s integrated, comprehensive and ecological solid waste management program.

Section 7. Municipal Ecological Solid Waste Management Board. Pursuant to Executive Order No. \_\_\_\_\_ Series of 2020, issued \_\_\_\_\_, 2020, the Municipal Ecological Solid Waste Board of Biri is hereby reconstituted as follows,

Chairman: ANTONIO B. DELOS REYES, JR., Municipal Mayor  
Vice chairman: MANUEL B. BERNALDEZ, SB Chair on Committee on Environment Protection

Members: Executive Consultant on Solid Waste Management  
Municipal Administrator  
Liga ng Barangay President  
SK Federation President  
Municipal Engineer  
Municipal Planning and Development Coordinator  
Market Administrator/Designate  
Municipal Agriculturist  
Municipal Environment and Natural Resources Officer/ Designate  
Municipal Local Gov’t Operations officers  
Municipal Treasurer  
Sanitary Inspector  
PNP-BIRI Representative  
CENRO Representative  
Representative from Junkshop Operations Association  
Representative from Business Sector

**Section 8. Duties and Responsibilities.** The board shall have the following duties and responsibilities:

1. Develop a municipal solid waste management plan that ensure a long-term management of solid waste, as well as integrate the various solid waste management plans and strategies of the barangays in the area of jurisdiction.

2. Adopt measure to promote and ensure the viability and effective implementation of solid waste management program in its component barangay;

3. Monitor and evaluate the implementation of the municipal solid waste management plan through its various political subdivisions and in cooperation with the private sector and NGOs;

4. Adopt specific revenue-generating measures to promote the viability of its solid waste management plan;

5. Convene regular and special meetings for the purpose of planning and coordinating the implementation of the solid waste management plan of the respective component barangays;

6. Oversee the implementation of solid waste management plan;

7. Review every (2) years or as the need arises the municipal solid waste management plan for the purposes of ensuring its sustainability, viability.

8. Effectiveness and relevance in relation to local and international development in the field of solid waste management;

9. Develop the specific mechanics and guidelines for the implementation of the MSWM plan;

10. Recommend to appropriate local government authorities specific measures of proposals for franchise or build operate transfer agreement with the duly recognized institutions, pursuant to R.A. 6957, provide either exclusive or non-exclusive authority for collection, transfer, storage, processing, recycling, or disposal of municipal solid waste;

11. Recommend measures and safeguards against pollution and for the preservation of the natural ecosystem;

12. Coordinate the efforts of its components barangays in the implementation of solid waste management plan;

13. Allow for the clustering of barangays for the solution of common waste management plan; and,

14. Provide the necessary logistical and operational support to its component barangay’s in consonance with the subsection (f) of section 17 of the local government code of 1991.

Section 9. Municipal Solid Waste Management Technical Working Group - The board shall be assisted by the technical working group which shall be composed of the following:

Chairperson : SB Chair on Committee on Environmental Protection

Vice Chair : Executive Consultant on Solid Waste Management

Municipal Environment and Natural Resources Officers/Designate

Municipal Administrator

Municipal Planning and Development Coordinator

Community Environment and Natural Resources Officer

Two (2) Members of MSWM Secretariat

The Technical Working Group (TWG) shall extend technical and administrative assistance which help the board in reaching substantive decisions, in the formulation of ecological solid waste management plans and programs and its dissemination to appropriate departments offices; facilitate the conduct of its regular and special meetings, including the preparation of communications and notice; and, extend other related assistance as may required by the board through its chairman.

**Section 10. Municipal Environment and Natural Resources Office (MENRO).** There shall be created a municipal environment and natural resources office (MENRO) and hereby tasked to “provide sustainable, efficient solid waste management program. It shall directly oversee the operation and management of the municipality’s ecological solid waste management services.

The MENRO shall be managed by a Municipal Environment and Natural Resources Officer whose powers and duties shall be as provided under section 484 of R.A. 7160 and as provided by the ordinance.

It shall be organized into (5) five sections or units, to wit:

1. Collection and Transport Section;

2. Administrative Recording Section;

3. MRF Operation and maintenance Unit; and;

4. Engineering Pump Site Maintenance Unit; and;

5. IEC/Research, Monitoring and Evaluation Unit.

**Section 11. Municipal Ecology Center.** There shall be established a municipal ecology center that shall provide consulting, information, training and networking services, as may be determined by the local Chief Executive, for the implementation of the provisions of this chapter.

It shall be perform the following function coordination with the concerned government and non-government agencies and institutions:

1. Facilities training and education in integrated ecological solid waste management;

2. Establish and manage a solid waste management information database;

3. Establish marketing network for recyclables and reusable materials;

4. Provide or facilitate expert assistance in the operation of solid waste management facilities;

5. Conduct periodic monitoring and evaluation of the implementation of the ecological solid waste management plan; and

6. Conduct research and development on solid waste minimization and reduction.

**Section 12. Information and Educaiton Advocacy Core Group.** These shall be organized an information and education advocacy core group under the municipal environment and natural resources office shall directly undertake all activities related to information dissemination and education of the services area, including the following:

(a) The conduct of intensive barangay-based information and education activities to ensure the residents and business establishments are made on the various components of the ecological solid waste management program such as, reduction of the generation of waste, and establishment of advocacy mechanism involving people’s organization and other ordinance No. 2011-/01-/01/ Existing non-government organizations to convey better understanding of the social

Cost and build consensus among residents on the implementation of the pay-as you throw scheme.

(b) Holding of the radio program primers and similar awareness mechanism on ecological solid waste management.

(c) Establishment outdoor signboards, stickers, posted, and newsletters, flyers, brochures, leaflets distributed to raise people’s awareness on the program.

**Section 13. Communication and Feedback Mechanism.** The municipal Environment and Natural Resources Office (MENRO) shall establish a communication center with the network and the hotlines for fast effective monitoring.

It shall establish a continuing feedback mechanism with its services, clientele, especially on the aspect of waste collection.

**Section 14. Role of the Barangays and the Municipal Government in Solid**

**Waste Management.** Pursuant to the provisions of the Local Government Code of 1991, the LGU's shall be primarily responsible of this chapter within their respective jurisdictions.

a) The Barangay. Each barangay, through the barangay ecological solid waste management committee, shall closely monitor, supervise, and intervene in the reduction, segregation, storage, collection disposal of solid waste at their level, and submit monthly report to the municipal ecological waste management board, through the MENRO. A Pre-forma report from thereof shall be readily prepared by the office. It shall facilitate and support the establishment of material recovery facilities-cum-buy back centers and composting facilities in every barangay cluster of barangay.

b) The municipal government. The Municipal government shall, among others, be responsible for the residual and special wastes, including that transport thereof of the controlled dumpsite/sanitary landfill or TDS (treatment, storage, and disposal) facilities duly authorized by the EMD-DENR. The municipal government shall also extent logistic, technical and operational assistance to the barangays in the management of ecological solid waste management. For this purpose, the Liga ng mga Barangay shall, within forty-five (45) days from affectively of the ordinance. Conduct assessment to determine those barangays that need said assistance.

**Section 15. Budget Appropriate for Ecological Solid Waste Management Program.** (a) there shall be regularly appropriated in the annual fund of budget of the municipality an item for the ecological solid waste management program, the amount thereof shall be sufficient to cover the cost of the implementation of the program's various component, considering all other sources of funds for the purpose.

**Section 16. Trust Fund for Ecological Solid Waste Management.** (a) There shall be established a trust fund to be known as the ecological solid waste management fund to which accrue funds coming from the municipal government, national government, and the local and foreign sources, such as Page garbage, service charges/fees and fine arising from the enforcement of this Ordinance including but not limited to:

1. Acquisition of products, facilities, technologies, and processes to enhance proper management and disposal of waste;
2. Giving of awards and incentives;
3. Conduct of research, education and information dissemination; and
4. Communication and monitoring activities.

**Section 17. Barangay Ecological Solid Waste Management Committee.** There shall be created in every barangay a barangay solid waste management committee composed of the following:

Chairman:	Punong Barangay
Members:	One (1) Barangay Kagawad (Chair, Committee on Environment)
	SK Chairman
	Presidents of Purok, zone or homeowners association
	Representative of Public/Private school (if any)
	One (1) representative of parents and teachers associations
	One (1) representative of religious association
	One (1) representative from environmental NGO/PO
	President of market, mini-market or talipapas vendors association (if there is any)
	One (1) Representative from junkshop owner's association

The Barangay Ecological Solid Waste Management Committee shall have the following functions and responsibilities:

1. Adopt or formulate ecological waste management program consistent with that of the municipality;
2. Facilities and monitor the implementation of the provisions of this ordinance at their level;
3. Establish or facilities the establishment of material recovery facility cum-Buy-Back center that has composting facility in their jurisdiction;
4. Allocate funds for ecological solid waste management program and look for source thereof;
5. Organize and train the ecological waste management teams who will conduct the actual monitoring, coordination, and enforcement of the ecological waste management ordinance.
6. Submit regular status report on the implementation of this ordinance to the municipal ecological solid waste management board through MENRO.

#### A. Waste Reduction at Source

**Section 18. Waste Reduction at Source.** Households, institutional, industrial, commercial and agricultural establishments and all other sectors shall, as a matter of priority, avoid, prevent and minimize waste to reduce the generation thereof at source and minimize the cost of operation of the solid waste management system.

**Section 19. Avoidance and Prevention of Waste.** Pursuant to provisions of R.A. 9003, the manufacture, purchase, distribution or use of materials that create excessive amount or toxicity of trash shall be prohibited.

**Section 20. Minimization of Waste.** The municipality shall, upon recommendation by the municipal ecology center and upon approval by the solid waste management board, identify and the recommend the use of materials and products that can be reused with processing, and encourage adherence to activities or lifestyles that generate less waste.

**Section 21. Disposal through Environment Solid Waste Management.** Where generation of waste cannot be avoided, they must be recovered in an environmentally sound waste management facility in accordance with ecologically sustainable development principles.

**Section 22. In- House Waste Reduction Plan.** A mandatory In- House Waste Reduction Plan shall be required for every commercial and industrial establishment prior to issuance or renewal of business permit.

**Section 23. Organization of Small - Scale Industries for Using of Indigenous Materials.** The municipal government shall promote and extend assistance, financial and otherwise, in the organization of small-scale industries that shall design, promote and proliferate the use of indigenous materials.

**Section 24. Provision for Incentive Program.** An incentives program shall be formulated by the municipal environment and natural resources office (MENRO) in coordination with the technical working group and approved by the board that will provide recognition and award for individuals, households, commercial and industrial establishments, private organizations, barangays and other entities which made or undertaken innovations or manifested notable compliance with the provisions of R.A.9003 and this Ordinance.

#### Waste Segregation and Storage

**Section 25. Waste Segregation at Source.** (a) Pursuant to the "No Segregation, No Collection" policy of the Municipality of Biri (as directed in the Letter/ Instruction of the Municipal Mayor to the 8 barangays dated July 19, 2010, memorandum to the department heads dated July 28, 2010, and memoranda to garbage truck drivers and collectors, business operators and barangay chairmen dated September 3, 2010, individuals, households, commercial, institutional and agricultural establishments as well as transport facilities, shall be required to individually sort or classify their wastes in accordance with the prescribed classifications. Wastes shall not segregated shall not be collected.

(b) The following shall be the minimum requirements for segregation and storage of solid waste pending collection:

1. There shall be separated container/plastic bags for each type of waste from all sources. For bulky waste, it will suffice that the same be collected and placed in separate container/plastic bags designated by in the areas;
2. The solid waste container depending on its use shall be properly marked or identified for on-site collection of compostable, recyclable or special wastes or any other classification as may be determined by the MSWMB.
3. For premises containing six (6) or more residential units, such as residential compounds, boarding houses, apartels, dormitories and such other establishments, the MSWMB shall promulgate rules and regulations requiring the owner or person in charge of such premises to:

(a) provide for the residents a designated area and containers in which to accumulate source separated recyclable materials to be collected by the MRF operator, the barangay, or the municipal government; and

(b) Notify all workers, employees, and entitles working in the premises of the requirements of this ordinance and the regulations promulgated pursuant thereto.

**Section 26. Classification of Collection Waste.** The segregation of collectable wastes shall be as they are hereunder classified:

1. Compostable. Compostable wastes shall be categorized in to category A and B.

#### Category A:

- Food (cooking) wastes or kitchen wastes: Peelings, leftovers, vegetables, trims, fish, fowl, meat and the animal entrails, innards, cleaning, crofts, shells, seeds, etc.
- Animal wastes: manure, urine, carcasses, etc.

#### Category B:

- Agricultural (garden) wastes: Leaves, flowers, twigs, branches, stems, roots, trimmings, weeds, seeds, in-

edible fruits, etc.

2. Reusable/recyclable
- Metals: tin cans, aluminum, iron, lead, copper, silver, etc.
- Glasses: bottles, cullet, (broken glass), Sheets (shards), minor, bulbs, etc.
- Plastics: Polyethylene (bags), polypropylene (straws, jute sacks, container), Polyurethane (foam, mattresses), polystyrene(Styrofoam),polyvinyl (tubes, pipes, linoleum). Polyacetate (fibers, cloth, rayon), etc.
- Rubber (natural and synthetic): tires, goods, etc.
- Dry processed fibers: Cloth, twine, etc.
3. Residual Waste.
- Solid pads, diapers, sanitary napkins, etc.
- Hard shells: Bones and rocks.
4. Special Wastes
- Paints, thinners, households batteries, lead- acid batteries, spray canisters, oil canister, tires.
- Medical supplies and other hospital and industrialist wastes.
- Other hazardous wastes, including chemicals, biological and radioactive substances.

**Section 27. Waste Storage Container.** Households and business establishments shall have storage containers provided for every waste classification/category mentioned above. The municipality of Biri shall, upon recommendation by the board, either require households and business establishments to buy the said containers form designated source or individually made or secured.

**Section 28. Waste Segregation and Storage.** The storage waste in residential, commercial, industrial, and institutional establishments, transport facilities, public places and agricultural areas shall be as follows;

(a) Waste storage in residential areas:

1. Residents all ensure that the generated solid wastes shall be properly separated in (3) enclosed containers for recoverable, leftovers, compostable and others. The leftovers or kitchen refuse shall either be directly given to animals as feeds or stored temporarily for composting or biogas production;
2. Residents shall choose proper containers such as cans, sacks, bags, bin, etc. that will facilitate sanitary efficient handling, storage, collection, transport or disposal at least cost. Food waste shall be placed in covered cans and pails. Garden waste in sacks, can, bags or boxes;
3. Public thoroughfares and grounds in front or in vicinity of residential houses shall be kept clean and tidy by the owners or lessees of the houses or building at all times; and
4. Trees, shrubs and other vegetation in front or in vicinity of residences shall be regularly cared for and maintained to minimize generated wastes, yard wastes and unpleasant sights.

(b) Waste storage in commercial Areas, including markets or agoras, shall be done as follow:

1. Segregation of waste from commercial areas (shopping malls, restaurants, commercial complexes, recreational centers, etc.) shall be mandatory;
2. Markets or agoras shall adopt a segregation scheme that will facilitate the segregation of recyclables, foods or vegetable waste, non-recyclables, etc.;
3. Storage containers for segregation commercial waste shall be communal or individual with cover;
4. The enclosed communal receptacle preferably on wheel shall be located along the collection route where the generated waste shall be brought and stored by the stall lessees;
5. The lobby and fronting sidewalks or immediate grounds of commercial establishments shall be maintained clean and presentable by the owners, operators, or lessees of the establishments, e.g., shops, stall, stores, restaurants, eateries, carenderias, barbershops, beauty parlors, recreational and entertainments facilities like theaters, billiard halls, folk halls, folk houses, beer gardens, discos, cocktail, lounges, dancing halls, cabarets, bistros, etc.;
6. The fronting sidewalks immediate areas of stalls and open spaces of markets shall be kept clean and orderly by the lessees of said stalls or spaces at all times.

(c) Waste storage in institutional or industrial areas shall likewise be done, as follows:

1. Segregation of biodegradable or compostable and biodegradable or non-compostable wastes shall be performed to avoid foul odors and proliferation of files;
2. The head of any institutional or industrial firm shall ensure the proper hygienic storage of generated in segregation of waste in receptacles or containers which shall be situated along collection routes;
3. Hazardous waste shall be stored safely in good, durable duly covered receptacles or containers which shall be located in a secure and distant site, prior to final collection and disposal;
4. The head of any institutional or industrial firm or establishment shall ensure the cleanliness and orderliness of its facilities, yards, and its fronting sidewalks and street.

(d) Waste storage in transport facilities shall be done as follows;

1. The managers, operators or drivers of transport terminals, buses, jeepneys, megataxis, tricycle and pedicabs shall provide separated receptacles for biodegradable and non-biodegradable wastes;
2. The receptacles shall be with cover and so located inside the facility do that it accessible to all passengers; and,
3. For buses, jeepneys, megataxis, tricycles, pedicabs contents of waste receptacle shall be emptied and sorted a transfer station located along collection routes.

(e) Waste storage in parks, public open spaces and thoroughfares shall be done as follows:

1. Theft-proof receptacle for biodegradable and non-biodegradable waste shall be provided in strategic locations in parks, public open spaces, and along thoroughfares by the Municipal Government;
2. Section 29 hereof, for its anti-littering provisions, shall be strictly observed and enforced; and,
- (f) Homogenous agricultural wastes, i.e., rice straw, corn cobs, ribs, animal manure, etc. shall be properly stockpiled or stored.

**Section 29. Littering and scavenging.** No person shall litter, scatter or scavenge solid waste in the streets, highways, sidewalks, vacant lots and other areas, e.g., parks, playgrounds, rivers, etc. solid waste shall include, among others, cigar or cigarettes butts, boxes, package, candy and bread wrappers, match sticks, disposable diapers food packages, etc.

#### c. Collection of Waste

**Section 30. Solid waste collection.** To efficiently undertaken the collection of solid wastes, the Municipal Government shall, as recommend in its ten-years Ecological Solid Waste Management Plan, provide for the following:

- (a) Purchase additional collection equipments;
- (b) Provide appropriate training for collection crew on the proper procedure of waste collection; and,

(c) Come up with programs, through the Municipal Environment and Natural Resources Office, that would install a high sense of cooperation among constituents, that is, employ personnel and give them equitable salaries those for the drivers, garbage collectors, auto mechanic;

**Section 31. Method of Collection.** In the collection of solid wastes, the Municipality shall adopt or prescribe a combination of block and curb side collection methods.

**Section 32. Schedule of Waste Collection.** (a) there shall be a regular schedule for the collection waste for every classification or category, and no person shall bring such waste outside his/ her household or establishments except on the day designated for the collection.

(b) Storage containers or bags shall be brought out in front of the gates of the residential houses and business establishments thirty (30) minutes before the collection schedule.

(d) Households outside the Poblacion shall deposit their wastes along the main streets accessible to municipal garbage trucks in thirty (30) minutes before the collection schedule. For those unable to avail of the garbage collection services, they shall dispose of property and

- (e) efficiently their wastes through individual backyard burying or handling.
- (f) No scavenging or unauthorized collection in designated containers or areas shall be allowed.

**Section 33. Municipal Collection Plan.** A Municipal Collection Plan shall be formulated and posted in conspicuous areas by the Municipal Environment and Natural Resources Office specifying therein the collection routes, schedules and responsibilities, taking into consideration the collection capacity of the Material Recovery Facilities Cum Buy- Back Center and Composting Center operating in the barangays.

**Section 34. Collection and Transportation.** The collection and transportation of waste shall be as follows:

(a) For residential areas:

1. Residents shall ensure the recyclable, compostable (except households that practice backyard composting) and residual waste brought out in front of their gate or door and along the collection routes of the collection vehicles or cart, during the collection period.
2. The concerned residents shall report to the Municipal Environment and Natural Resources Office any uncollected solid waste within the vicinity of the residences;
3. Garbage not segregated and placed in approve containers shall not be collected and shall be treated as disposed of in violation of section 29 hereof, or anti-litter-

ing provision, and the person liable shall be penalized accordingly;

(b) For commercial areas:

1. The owner, operator or lessor any enterprise shall be responsible for the timely positioning of stored solid waste during the schedule of collection. Likewise, he/she shall assist, whenever necessary, in the sanitary means of loading waste for collection purposes; and,

2. The person concerned shall inform the Municipal Environment and Natural Resources Office of any uncollected solid waste and related matters.

(c) For institutional or industrial areas:

1. The head of any institutional or industrial establishment shall assist in the orderly and sanitary way of collecting and transporting solid waste;

2. The collection and transportation of industrial solid waste, if necessary, shall be duly coordinated with the government agencies concerned with such type or type of waste; and,

3. School, both public and private, shall adopt appropriate resource recovery and recycling strategies.

4. Hazardous wastes shall be collected and transported in accordance with applicable laws, guidelines, rules and regulations of the Environmental Management Bureau (EMB-DENR), Department of Health (DOH), and the Philippines Nuclear Research Institute (PENRI).

(d) Solid wastes from transport terminals, transfer stations, parks, public open species and thoroughfares shall be brought on the Material Recovery Facility and Composting Center of the Barangay that has jurisdiction over the area by MRF's collection crew, or the Municipal Government in case of the former's incapacity.

#### d. Waste Treatment by composting

Section 35. Waste treatment by composting. Organic materials, such as leaves, grass, food, scraps, and other similar wastes shall be treated using the method of decomposition by organism or controlled composting.

**Section 36. Composting Facility.** For the treatment and disposal of compostable wastes, there shall be establish one (1) operational composting facility per barangay's, and one (1) composting facility for the Biri Public Market.

**Section 37. Management and Collection of compostable waste.** (a) a composting facility shall, as much as possible, be a component under an existing Material Recovery Faculty Cum Buy-Back Center. Where it is not practicable, it shall be managed and operated by the barangay or cluster of barangay and / or by a duly organized people's organization (PO) who shall undergo a comprehensive organization and management training prior to operation. The collection and composting of compostable wastes shall be undertaken by the organization in their respective barangay or barangay's of operation using their own collection equipment's and composting facility.

(b) The compost products intended to be commercially shall confirm with the standards for organic fertilizers prescribed by the Department of Agriculture.

(c) No person shall commence operation, including site preparation and construction of a new solid waste management facility or the expansion of an existing facility until said person obtains an Environment Compliance Certificate (ECC) from the DENR pursuant to P.D. 1586 and other permits and clearance from concerned agencies.

**Section 38. Market Linkages and Buy-Back Centers or Composts.** The management and operators of composting facilities and the LGU through the Municipal Ecology Center shall establish market linkage and buy-back Center for Composts.

**Section 39. Composting for Residential and Household Wastes.** (a) composting of food and kitchen refuse and garden wastes, shall be required for residential units and individual households that have backyard areas sufficient for composting.

(b) Residents may also practice the F's scheme ( feed, fermentable, food, and fuel ), using food and kitchen refuse as fodder or feeds for animals and composting those portions that are not suitable as fodder.

Fuel materials may also be made out of the following household wastes;

1. Firewood materials- consists of twigs, branches, leaves, husks, shell, cobs, chaff, saw dust, wood shavings, soiled papers, stalks, etc. and,
2. Flammable gas- produced by anaerobic decomposition of all biomass or biodegradable materials in biogas digester.

**Section 40. Composition in Commercial, Industrial, Institutional Establishments and Agricultural Areas.** (a) Market and food wastes from the catarman public market and nearby food establishments shall be composted in the facility in the provided for the area;

(b) Food and kitchen refuse, tree trimmings and garden wastes from other commercial, industrial and constitutional establishments shall be composted in composting facilities of the barangay or cluster of barangay's where they belong. Provided, that establishments which have sufficient area for composting shall be encouraged to do so with rebates on their garbage service charge. Provided further, that such fact shall be indicated in their approved in-House Waste Reduction Plan.

Food waste from commercial centers, e.g. food center, restaurants, canteens, etc. may also collected as fodder or animal feeds and shall not be disposed to sewers.

(c) Homogenous agricultural wastes i.e., rice straw, corn cabs and leaves, shall be disposed of by composting. Animal manure shall be composted, converted or used for the production of biogas.

#### e. Waste Recycling and Reuse

Section 41. Waste Recycling and Reuse. Materials that have useful physical and chemical properties shall be covered from the solid waste stream and remanufactured into new products.

**Section 42. Establishment and Management of Material Recovery Facility-cum-Buy Back Centers.** (a) A materials recovery facility-cum-buy back center shall be established in every barangay or cluster of barangays by LGU in partnership with business operators. The center may be established in a barangay-owned or leased land or any suitable open space to be determined by the barangay through its Sanggunian.

(b) The center shall have the following components:

1. Receiving Section
2. Processing Section
3. Display and marketing Section
4. Storage section for toxic and hazardous wastes
5. Discarded materials section
6. Composting area
7. Office

(c) The Center shall be managed and operated by the LGU or with the business sector as a partner. In case of the latter, a corresponding memorandum of undertaking shall be forged into by and between the LGU and the business operator.

Section 43. Collection and Processing of Recyclable Materials. The collection and processing of compostable and recyclable materials in the barangays shall be undertaken by the Material Recovery Facility cum Buy- Back Centers. For this, every center shall have a barangay collection system for solid waste composed of collection or transport vehicles and three(3) collection crew ( a driver and 2 collection aides), and/or it may establish a network of handcart/pushcart operators mainly from within the barangay or clustered barangays.

**Section 44. Establishment of Market Linkages.** The Business Operator and the LGU shall establish market linkage for recyclable materials.

**Section 45. Regulation of Buying Price of Recyclables.** The Sangguniang Barangay shall regulate the buying price recyclable materials through an ordinance which shall be updated from time to time.

#### f. Disposal of Waste

**Section 46. Establishment of Controlled Dumpsite or Sanitary Landfill for the Municipality.** (a) Pursuant to the Ten-Year Ecological Solid Waste Management Plan, there shall be established one (1) Controlled Dumpsite or Sanitary Landfill to be used for the proper disposal of the residual waste collected in the municipality of Biri. The facility may be established in a 5.7 hectares property of the LGU located of Sitio Embedangan, Barangay Kauswagan, 3.0 kilometers away from Poblacion, and with has an estimated life of 20-25 years.

(b) its landfill site development plan shall be carefully formulated and its sanitary landfill operation plan shall be developed using both area and trench method of landfilling, which shall include: site layout, trench design, lining, cover material litter control, leachate and gas collection and treatment system, drainage, fire protection landfill

(c) it shall establish a source of covering material, provided with adequate access road and shall comply with the standard specification for setting up and operation of sanitary landfill.

(d) The landfill shall be provided with properly trained officers and workers as well as the required equipment's for the operation of the landfill shall be provided, such as track dozer, scraper, steel-wheeled compactor equipment with landfill blade.

(e) The Municipal Environment and Natural Resources Office shall conduct a periodic monitoring and evaluation of operation of the controlled dumpsite/sanitary landfill.

**Section 47. Disposal of Solid Waste.** (a) Disposal of solid wastes in residential, commercial and institutional areas shall be done as follow:

1. Incineration and open burning of solid wastes shall be prohibited. Residuals of solid wastes after recovery, recycling and composting shall be disposed of by sanitary landfilling or other ecological sound methods;

2. Hospital wastes, especially infectious wastes, shall be disposed of in accordance with the provision of DOH administrative Order No.29 s. 2003. In relation to Section 20 of Republic Act 8749, also known as the Clean Air Act and its implementing Rules and Regulation (IRR) and other applicable laws and issuances.

3. Open dumping, scattering or scavenging of solid waste along sidewalks, streets, alleys, riverbanks, or in other public places or private properties shall be strictly prohibited.

(b) Agricultural wastes, e.g., rice straws, corn cobs, etc. shall not be burned but shall be stockpiled in a proper location and composted. Animal manure can also be composted or used for biogas production.

Section 48. Disposal of Special Waste. Special wastes, such as paints, thinners, batteries, spray, canisters, tires, medical supplies, industrial wastes, and other hazardous wastes (chemical, biological, and radioactive substances ), shall be stored, collected and disposed of separated through an environmentally sound non- burning technology, in accordance with section 19 and 28 and R.A. 9003 in the light of the appropriate provision of R.A. 6969, otherwise known as the TOX-IC Substances and Hazardous and Nuclear Waste Control act, DENR DAO 92-29 " Hazardous Waste Management" Procedural Manual, and other applicable laws, rules, regulations and guidelines of the Environmental Management Bureau of the Department of Environmental and Natural Resources ( DENR- EMB ), Department of Health (DOH), Phil. National Research Ins. (PINRI), and The Municipal Health Office (MHO).

**g. Collection Charges**  
**Section 49. Garbage Service Charge.** (a) Article 27, Ordinance NO. 2005/19-18 of the Revised Revenue Code of Municipality of Biri, Northern Samar shall be imposed, as follows:

TYPES OF ESTABLISHMENT	RATE/QTR
<b>I-Commercial/Industrial Establishments</b>	
a. Market Site Spaces:	
1. Per Business Permit ( Biri Public Market)	500.00/annum
2. Per Business Permit (Biri Market Tienda)	300.00/annum
3. Commercial complex	300.00/qtr
	1,000.00/annum
b. Outside Market Site:	
1. Restaurants and fast food Chains with an aggregate area of:	
1000 sq.m. or more	1,000.00/annum
500 or more but less than 1000 sq.m.	750.00/annum
200 or more but less than 500 sq.m.	500.00/annum
100 or more but less than 200 sq.m.	350.00/annum
50 or more but less than 100 sq.m.	250.00/annum
25 or more but less than 50 sq.m.	200.00/annum
Less than 25 sq.m.	100.00/annum
2. Eatery carenteria	100.00/annum
3. Department store	2,500.00/annum
4. Grocery store	1,000.00/annum
5. Sari-sari store	200.00/annum
6. Mini- market or talipapas	250.00/annum
7. Baratiyo	500.00/ qtr.
c. Peddlers, Ambulant Vendors (except delivery vans or trucks)	20.00/qtr.
d. Private warehouse or bodega	250.00/annum
e. Electrical power companies	
1. Main office and/or each power plant	2,500.00/annum
2. Every branch office hereof	800.00/annum
f. Gasoline service/ filling stations	
1. Having an area of 1,500 sq.m. or more	1,000.00/annum
2. Having an area of more than 1,500 but less than 1,500 sq.m.	800.00/annum
3. Having an area of 1000 sq.m. or less	400.00/annum
4. Curb pumps and filling stations	200.00/annum
g. Liquefied petroleum dealer	150.00/annum
h. Amusement:	
1. Amusement center with coin-operated machines, appliances, amusement rides and shooting galleries slide show booths and other similar establishments with contrivances for the amusement of costumers, per contrivance.	500.00/annum
2. Billiard and/or pool halls, per table	300.00/annum
3. Bowling establishments	2,500.00/annum
4. Circuses, carnivals and the like	1,500.00/annum
5. Cockpits	1,000.00/annum
6. Membership club, association or organizations:	500.00/annum
a. Serving foods, drinks, and lodging facilities	
b. Serving foods and drinks w/out lodging facilities	
7. Night/day clubs, discos, and other similar establishments:	1,000.00/annum
a. Night club	600.00/annum
b. Day club	500.00/annum
c. Cocktail lounge, bar, beer garden,	1,000.00/annum
d. Cabaret/Dance Halls	
8. Hotels, Motels, Apartel, Pension Inns, Drive Inns, Boarding House, Lodging Houses, Dormitories, Dwellings and other spaces for lease or rent:	35.00/annum
	50.00/annum
A. Hotels:	100.00/annum
a. Five star, per room	
(1) Single bed	30.00/annum
(2) Double bed	40.00/annum
(3) Suite	60.00/annum
b. Four star, per room:	
(1) Single bed	30.00/annum
(2) Double bed	40.00/annum
(3) Suite	50.00/annum
c. Three star, per room:	
(1) Single bed	30.00/annum
(2) Double bed	40.00/annum
(3) Suite	50.00/annum
B. Motels and Drive Inn, per room	30.00/annum
C. Hotels, Apartels, Pension Inns:	
a. With air-conditioner, per room	25.00/annum
(1) Single bed	30.00/annum
(2) Double bed	40.00/annum
b. Without air-conditioner, per room	30.00/annum
(1) Single bed	300.00/annum
(2) Double bed	600.00/annum
D. Boarding houses, lodging houses, dormitories, bed spaces ( bed capacity) per bed	1,000.00/annum
E. Condominiums	2,500.00/annum
a. 1 to 10 units	1,500.00/annum
b. 11 to 20 units	200.00/annum
c. 21 to 50 units	300.00/annum
d. 51 to more units	300.00/annum
9. Resorts and other similar establishments	2,000.00/annum
10. Sauna bath, massage clinics, per cubicle	1,000.00/annum
11. Skating rinks	500.00/annum
12. Theaters or cinema houses with seating capacity of:	
a) More than 20,000 persons	2,000.00/annum

## Performing teachers eyed for commendable awards

BY: ANTONIETTA C. ELISEO, PhD.

Teachers have an influencing role in the life of every student. They are like beacons of light guiding us in the formative years of our life. Teachers mold us in the process and shape our future. What we learn from our teachers remain with us, throughout our life.

However, very often, we fail to show our appreciation and gratitude for their altruistic devotion. Teachers do need encouragement and support to feel that their efforts are being recognized.

As such, Mahaplag II District adopted an innovation that promotes encouragement to the teaching staffs in the district, the "District Pasidungog 2020". This novelty ignites and motivates them to thrive more and show-off their best efforts on their respective job descriptions and responsibilities.

"Pasidungog" is the culmination of all hard works and a year of study. It is the perfect moment that a certain teacher can say, "I've done it". It is also a milestone of a teacher's life and a time to gather and celebrate success. It is one of the most significant date in employee's academic calendar as it is the time celebrating their academic achievements that may reminds everyone that

each day is not the end but a new beginning to a new horizon of everyone's career.

Moreover, Pasidungog invites and encourages everyone to make a difference to the students, co-employees, parents, community, and our country.

As the nation currently combats against the pandemic brought about by the COVID-19, it is ideal to uplift our spirits through recognizing significant roles of our teachers.

Hence, Pasidungog was adopted and implemented in Mahaplag II District on August 3, 2020. Safety protocol as mandated by the local task force was done religiously. The momentous event is open to all school administrators and teachers with an influencing and convincing performance regardless of the positions and ranks. It is just a kind of "Performing teachers eyed by the District Supervisor for a Commendable Awards.

It was the second time in the district that employees who exerted outstanding and excellent performance on their different fields were given an appraisal and recognition. The activity mesmerized everyone, as great efforts are well compensate. This kind of positive appraisal strengthens

checkpoints.

Travelers who will enter the city as well as residents stranded in other places and wanted to go home must register in the city's website at [www.baliktacloban.tacloban.gov.ph](http://www.baliktacloban.tacloban.gov.ph). (LIZBETH ANN A.ABELLA)

# DPWH to construct 25 quarantine facilities in Eastern Samar

TACLOBAN CITY- The Department of Public Works and Highways – Eastern Samar District Engineering Office (DPWH-ESDEO) is currently working on a proposal for the construction of 25 quarantine facilities for the whole province of Eastern Samar.

This was disclosed by DPWH-ESDEO District Engineer Manolo Rojas who said that the technical personnel have already

conducted the site validation and preparation of program of works to identify the total cost of the project while the completion of plans still on-going.

"Our office is in the middle of making proposals to build 'We Heal As One' Centers to all the municipalities of Eastern Samar. It will be advantageous for the LGUs to have such facilities during this time of pandemic," he said.

Rojas said that included

in that proposed 25 quarantine facilities are the three additional quarantine facilities for Borongan City that will be constructed in the barangays of Sta. Fe, Maybacong and Tamoso.

He added that ESDEO requested for this additional quarantine facilities for the COVID-19 patients for them to have a comfortable place to stay during their quarantine period.

"We are having high hopes that this project will be funded because quarantine facilities are identified these times as priority projects by the government in fighting the spread of COVID-19," Rojas stressed.

Eastern Samar Rep. Maria Fe Abunda has expressed his total support on this initiative of the district, Rojas said.

## Philippine education under pandemic: A teacher's perception

BY: NORA C. MENGULLO

Our country is one of the countries in Southeast Asia that felt the effects of the COVID-19 pandemic which shook the stability of each country in terms of economy and education. It has given adverse effect especially in

the motivation, dedication, and devotion of the employees under Mahaplag II District towards their respective duties and responsibilities amidst all challenges.

Indeed, teachers need to be well-motivated especially nowadays, that life is at stake in the call of duty. It is timely to boost unsung heroes as they continue to give their best shot in serving humanity as today becomes a history someday. Together, we educate people to be more optimistic and learn to see one's greatness as we heal as one.

(Note: The author is the district head of Mahaplag II, Mahaplag, Leyte)

the education system which is one of the foundations in building a strong and progressive country.

Is our education system ready in facing this pandemic? Do we have enough funds and learning materials to provide our learners? How can the Filipino learners access education? These are the questions that in our mind as we are facing the COVID-19 pandemic in our country.

To respond the alarming effect of COVID-19, President Rodrigo Roa Duterte signed into law the Republic Act 11469 the Bayanihan to Heal as one Act also known as the "Bayanihan Act" that was enacted on March 2020 granting the President additional authority to combat the COVID-19 pandemic in the Philippines.

This law gives additional subsidy to the different agencies of the government which includes the Department of Education (DepEd)

in support for the continuity of education for school year 2020-2021.

Moreover, these gave the additional authority of the department of education to plan on how education can be delivered to the Filipino learners without risking their life and the teachers too. This is in consonance of the presidents' mandate that no face-to-face until there is a vaccine for COVID-19.

How can the Filipino learners access education in this pandemic even in remote areas? The DepEd has introduced different learning modalities that can be used in this school year. Hence, the modality of teaching from conventional "face-to-face" learning to blended learning which is the combination of online distance learning and in person delivery of learn-

ing materials to the homes of the learners.

As we all know, this year is a challenging year to the Department of Education. This is not yet the real battle but still on August 24, 2020. The real scenario of what will be the outcome. As educators, we must learn to adapt and embrace these changes for the common good of everybody. The new normal wherein face-to-face interaction is highly prohibited. Let it be in our heart to be of service to our learners without compromising our health too. Lastly, let us always take pride to our profession because we are truly the Modern Heroes.

(Note: The author is the teacher-in-charge of Tacuranga Elementary School, Palo, Leyte)

## Knowing...

...from Page 5

not just know him and not love him, nor should we just love him without knowing him—or at least, trying to know him the best way that we can, since being God, Christ has aspects that are a mystery to us, that is, beyond our capacity to know him fully.

It's when we love him with all our heart as we are commanded to do (cfr. Mt 22,37) that whatever inadequacy we have with respect to our knowledge of him, is taken care of. If our heart is united we the heart of God, that is, when we are in love with God, we in a mysterious way share in the omniscience of God.

That is why we can say that those simple people with great love and piety for God has greater knowledge of God than those erudite theologians and philosophers whose love and piety for God

is not as great as those of the simple people, in spite of the fact that they may have studied the faith a lot more.

This does not mean that loving God with the heart more than the head is a matter of indulging in emotionalism and things like that. If one truly loves God with his whole heart, he also will do everything in his human capacity to study his faith well and to conform his life to that faith.

Loving God never compromises our rational nature that has both the intuitive and discursive capabilities. Loving God uses these capabilities to the hilt but also acknowledges the limitations of these human powers. Loving God, more than anything else, involves the role of grace that God himself unstintingly gives us but to which we have to correspond properly with our acts of piety.

## Out of the 1,000 units put up by LGUs DOH says only more than 200 COVID-19 facilities pass their standards

TACLOBAN CITY- Out of the 1,000 temporary treatment monitoring facility intended for returning individuals and suspects of COVID-19, only over 200 of them have been certified by the Department of Health (DOH).

This was disclosed by Dr. Exuperia Sabalberino, the assistant regional director of the DOH, who said that many of these facilities are not within the required standard set by their office.

“Under DOH standard, we have requirements and we impose this for the isolation facility,” she said.

Standard DOH isolation facility needs to have a handwashing area, own comfort room in every unit and must use division materials that can prevent virus from spreading to other patients or to quarantine and isolation personnel.

Sabalberino also disclosed that some isolation facilities uses cloth as division for every unit which is not acceptable because virus can pass through to other areas.

“This standard is imposed for the safety of patients and the health personnel,” she stressed.

DOH certified isolation facility may be accredited by the Philippine Health

Insurance Corp. (Phil-Health) wherein they can receive P22,449 per quarantined person for the services they rendered.

Isolation facilities that did not meet the required standard can still be used by the local government units but only for quarantine purposes.

Sabalberino said that Eastern Visayas has the most number of Phil-Health accredited TTME.

“This means that we can accommodate more locally stranded individuals (LSIs). This also helps us in controlling the transmission of the virus,” she explained.

(ROEL T. AMAZONA)

Leyte Governor Leopoldo Dominico “Mic” L. Petilla accepted a plaque of appreciation from Supt. Joelito Sabandal, provincial director of the Bureau of Fire Protection, as an expression of their profound gratitude of the governor’s invaluable support to their office. Petilla granted a 11,407 square meters lot in Barangay Candahug, Palo Leyte to be utilized as the BFP regional office 8. The simple rite was held at the new Governor’s Office at the Government Center, Candahug, Palo, Leyte. (Gina P. Gerez)

## Quality education in a barrio school

(An inspirational journey of Pange Elementary School)

BY: PAUL E. MIRALLES

Pange Elementary School is a barrio school located at Barangay Pange Jaro, Leyte, estimated about 8 kms away from the town proper. Because of an outstanding implementation of DepEd programs and projects in this school, it is known for its good governance. The school also received multiple awards and recognitions.

From having only one classroom building, the school now have four buildings with eight functional classrooms. Because of the visible development of the school, it inspired other schools particularly in Jaro, Leyte.

It may be hard for a barrio multi-grade school to excel and provide quality education to our school children, but this school had made it.

Pange Elementary School had reached SBM Level III during the validation period of SBM year 2018 in the Division Level. Because of this achievement, nearby schools visited the school for benchmarking particularly Batug ES where I am currently teaching.

The school also became a regional qualifier for two consecutive years in the Search for Gawad Kalasag because of its strong commitment to provide the learners with safe and complete learning environment.

To promote love for reading among school

children, the school have a school library where children have the chance to freely borrow books and other reading materials.

Cindy C. Polic, a kindergarten teacher and a school librarian designate of this school said that it was once a dream of the school to have a school library and because of the resourcefulness and untiring effort of the school head it did came true. The school had been a nominee for the Most Functional Library for two consecutive years. The school also have a toy library.

According to Liza M. Guda, School Head of Pange Elementary School, the success in the implementation of programs and projects of this school is because of the hard work and innovation of the school staff and other stakeholders.

Jonavel O. Requiez, Ruby S. Lora, Niña Christine K. Luzon and Arlene C. Liporda unanimously said that the possible development of the school is because of the good leadership of the School Head who had been an Outstanding Leader all throughout the years.

Pange Elementary School is an inspiration because it gives us motivation to provide great innovation to serve our children as future of the nation.

(Note: The author is the teacher III of Batug Elementary School, Jaro III District, Jaro, Leyte)

school year though she admitted that she would not close down her original FB account.

For Ariel, who declined not to give his complete name but is using Chinese characters as his FB name, he has no choice but to change his

name’s account.

“It’s ok if our teachers will ask me to use my real name in my FB account. I am using these Chinese characters just for fun. I just translated my name using the Google,” the 13-year old who will be entering Grade 9 this school year, said when asked why he is using the Chinese characters as his FB account.

## Remote learning begins on August 24 for Guintigi-an Elementary School

BY: VIOLETA VILLAFRANCA

‘Education cannot wait,’ thus asserted by Secretary Leonora Briones during a conference.

Therefore, the Department of Education is preparing for the opening of classes on August 24, 2020 amid the coronavirus disease 2019(COVID-19) pandemic.

For its part, the Guintigi-an Elementary School of Babatngon, Leyte has started preparing for the opening of classes for this school year.

The school has come up with contingency measures in accordance with the protocols set by the Department of Education and the World Health Organization and ensure that the learning of students will continue despite of the pandemic.

School Learning Continuity Plan had been drafted which will be the road map and a major response and commitment in protecting the health, safety and well-being not only for learners but for teachers, and personnel as well.

Parents communicated their intent to enroll their children through enrollment platforms prepared by the

school.

Remote enrollment had been conducted. Parents contacted the previous advisers through contact numbers published by the school and encoded survey information using LIS or Learning Survey Information.

The school also accepted learners’ enrollment and survey form (LESF) via drop boxes.

Barangays assistance during the enrollment process was a big help to the school.

The school is ready to implement distance learning approaches (Printed Module Learning Delivery) by using modular learning modality. Hence, printed modules are the most preferred mode of distance learning among parents and students. It is the safest possible way to ensure continuity of the learners.

We may not be able to get the best instruction at least children can continue their education and prepare them for tomorrow’s challenges.

(Note: The author is the teacher-in-charge/school head of Guintigi-an Elementary School in Babatngon, Leyte)

## JNHS teachers join the drop box enrolment

BY: JANETTE I. ABUEDO

The teachers of Javier National High School (JNHS) headed by Mrs. Bernardita L. De Paz, the school principal, joined the implementation of the Drop Box Enrolment program last June 22, 2020 in Javier, Leyte.

As stated in the official statement of the Department of Education last June 15, 2020, the conduct of the remote enrolment will continue by opening a drop box/kiosk for picking up and dropping off the Learner Enrolment Survey Form (LESF).

With the preparations done, Last June 22, 2020 (Monday), the teachers of JNHS went to the Barangays

of Javier I District to distribute the drop boxes and the LESF in the respective Barangay Hall. The Barangay chairman of each Barangay accepted and received the drop boxes and they were informed of the process of the Drop Box Enrolment.

The Drop Box Enrolment is pursued to reach out the learners without internet access and gadgets; also, through this the enrolment percentage will be increased.

**Ordinance No. 14**  
Series of 2020

Sponsor - **HON. MARCELINO A. MORA**  
Chairman, Committee on Environment Protection

*Be it ordained by the Sangguniang Bayan of San Jose, Northern Samar in session assembled that:*

**AN ORDINANCE REGULATING THE USE OF PLASTIC CELLOPHANE AND SANDO BAGS AS PACKAGING MATERIALS AND UTILIZATION OF POLYSTYRENE COMMONLY KNOWN AS STYROFOAM FOR FOOD AND BEVERAGES CONTAINERS IN THE MUNICIPALITY OF SAN JOSE, NORTHERN SAMAR AND PRESCRIBING PENALTIES THEREOF**

**WHEREAS**, Section 16, Article II of the 1987 Philippine Constitution provides that: *the State shall advance the right of the people to a balanced and healthful ecology in accord with the rhythm and harmony of nature;*

**WHEREAS**, Section 3 (i) of R.A. 7160 provides that Local Government Units shall share with the national government the responsibility in the management and maintenance of ecological balance within their territorial jurisdiction;

**WHEREAS**, Section 447 (1)(vi) of R.A. 7160 empowers the Sangguniang Bayan to protect the environment and impose appropriate penalties for acts within endanger the environment which results in pollution, acceleration or eutrophication of rivers and lakes or of ecological imbalance;

**WHEREAS**, plastic cellophane and sando bags and expandable polystyrene (EPS) foams being non-biodegradable materials clog our canals, creeks, rivers and other water ways causing floods during rainy season and causing harm to these waterways and the surrounding communities;

**WHEREAS**, plastic cellophane and sando bags and expandable polystyrene (EPS) foams are widely used for packaging of foods and beverages. However, the use of plastics and polystyrene are rampantly used as packaging materials in the Municipality of San Jose, Northern Samar and elsewhere;

**WHEREAS**, despite serious efforts of the Municipality in implementing Republic Act No. 9003 otherwise known as the Ecological Solid Waste Management Act of 2000 to segregate biodegradable, recyclable and reusable waste materials, plastics, polystyrene and other similar materials remain in the municipal waste stream and eventually remain as the common residual waste fraction;

**WHEREAS**, the Municipality of San Jose, Northern Samar in its desire to regulate the "single use" of plastic cellophane and sando bags and eventual prohibition of the use, sale and provision of polystyrene as food and beverages containers, encourages the utilization of alternative packaging materials such as woven bags (bayong), cloth/paper bags and other similar organic packaging materials (e.g. banana leaves, taro leaves, etc.) and likewise advocates the "No Plastic Day" and "Bring Your Own Bag (BYOB)" programs of the Municipal Government;

**WHEREAS**, it is in the best interest of the health, safety and welfare of hte people of San Jose, Northern Samar to minimize the use of plastic cellophane and sando bags and the eventual prohibition of the use, sale and provision of polystyrene as packaging materials for food and beverages.

**NOW, THEREFORE**, after thorough deliberations and discussions and upon motion of **HON. HARLAN A. TOMENIO, SR.** with secondment of **HON. ELECTORADO P. SOMORAY, JR.** and **HON. MA. GUNDELINA V. BALASOLLA**, this Sangguniang Bayan in session assembled hereby ordains that-

**SECTION 1. Title** - This Ordinance shall be known and cited as an **"An Ordinance Regulating the Use of Plastic Cellophane and Sando Bags as Packaging Materials and Utilization of Polystyrene commonly known as Styrofoam for Food and Beverages Containers in the Municipality of San Jose, Northern Samar"**.

**SECTION 2. Definition of Terms** - For purposes of this Ordinance, the following terms are defined as follows:

a.) **Alternative packaging materials** - refer to recyclable, reusable and/or biodegradable packaging materials that are used in containing, carrying, holding and/or transporting goods or products, as an alterna-

tive to plastic bag.

b.) **Bring Your Own Bag (BYOB) Program** - refers to the program adopted by business establishments, whereby customers are enjoined to bring a reusable bag, paper bag, cloth bag or any other alternative packaging material for purposes of containing, carrying, holding and transporting goods or products bought.

c.) **Cloth bag** - refers to reusable packaging material made of cloth used in the packaging of flour, wheat and other similar goods.

d.) **Container** - refers to a type of material utilized for purposes of holding, enclosing, packaging and/or restraining edible food and beverages for human consumption.

e.) **Expanded polystyrene (EPS) foam** - is thermoplastic petrochemical material which utilizes a styrene monomer and is processed by fusion of polymer spheres. It is a type of polystyrene product commonly used as containers for food and beverages.

f.) **Packaging** - shall refer to the packaging, packing and wrapping of products for purpose of carrying the same in a convenient manner.

g.) **Plastic bag** - refers to a type of bag made of thin, flexible, plastics film that is designed to be provided or utilized at the point of sale for containing, carrying, holding and transporting goods.

h.) **Plastic wastes** - refer to any plastic packaging material thrown as wastes.

i.) **Plastic cellophane** - is transparent, thin film plastic sheet made of regenerated cellulose having low permeability to air, oil, greases, bacteria and water makes it useful for food packaging.

j.) **Reusable bag** - refers to a washable canvass bag or native bag "bayong" or any shopping bag used for carrying and transporting goods, which bags are made of organic or non-organic materials that can be used for several times.

k.) **Sando bags** - refer to a type of plastic packaging with handles for the purpose of carrying, holding and/or transporting goods and other produce. This term shall likewise be defined as one similar to the term plastic bag.

l.) **Single-use** - disposable or used for only one time.

m.) **Styrofoam** - is a trademark of a product made up of light resilient foam of polystyrene. For purposes of this Ordinance the term "Styrofoam" shall refer to the Expanded Polystyrene (EPS) Foam used as containers for food and beverages.

n.) **Woven bags** - refers to biodegradable packaging material made of woven native materials e.g. pandan or buri leaves and other similar materials.

**SECTION 3. Regulation on the Use, Sale or Provision of Plastic Bags** - The following regulations shall be imposed as follows:

a.) Business establishments, fast-food outlets, market vendors, food kiosks, sari-sari stores, ambulant vendors, and the like are prohibited from using plastic cellophanes and sando bags as packaging materials for customers.

b.) Stores and other retail establishments are mandated to use any alternative legally compliant packaging material for customers, such as but not limited to the materials mentioned in Section 4 hereof, in lieu of single-use plastic cellophanes and sando bags.

**SECTION 4. Alternative Packaging Materials** - The use of recyclable, reusable and/or biodegradable alternative packaging materials should be encouraged and promoted, such as reusable woven bags (bayong), cloth bags, rattan baskets, shopping bags made from recycled waste paper and other bags made out of biodegradable materials (e.g. banana leaves, taro leaves, water lily, corn stalk, etc.) shall be utilized as alternative packaging materials. All business establishments are encouraged to adopt the "Bring Your Own Bag" Program.

**SECTION 5. Incentives for Using Reusable Bags** - To promote the use of reusable bags, stores are hereby encouraged to implement the BYOB Program and to formulate appropriate incentives to consumers, which may include:

**Green Lane** - Stores/stalls may provide special counters or express lanes to be called as Green Lane to cater customers who bring their own bags or use of reusable bags.

**SECTION 6. Prohibition on the Use, Sale or Provision of Styrofoam** - Business establishments, restaurants, fastfood outlets, food kiosks, catering services and the like shall not utilize, sell or provide styrofoams or expanded polystyrene foam as containers for food and beverages.

**SECTION 7. Alternative Containers for Food and Beverage** - The use of reusable and/or paper-based containers for food and/or beverage and other alternative containers are encouraged and promoted.

**SECTION 8. Technical Working Group** - For the purpose of this Ordinance, a Technical Working Group shall be established with the following composition:

- Chairman - Municipal Mayor
- Vice-Chairman- Municipal Vice Mayor
- Members - Chairman, Committee on Environmental Protection
- Chairman, Committee on Solid Waste
- Chairman, Committee on Market and Slaughterhouse
- Chairman, Committee on Trade, Commerce and Industry
- Secretary to the Sangguniang Bayan
- Municipal Administrator
- Municipal Environment and Natural Resources Officer

**SECTION 9. Functions of Technical Working Group** - The Technical Working Group shall have the following functions:

- a.) The formulation of the Implementing Rules and Regulations as well as the Guidelines in the proper implementation of this Ordinance;
- b.) Identify the activities and programs to be conducted during the moratorium period;
- c.) Identify the environmental advocacies, programs and projects to be funded by the Local Government;
- d.) Recommend measures for the proper implementation of this Ordinance.

**SECTION 10. Monitoring of Ordinance** - The Municipal Environment and Natural Resources Office (MENRO) in coordination with San Jose Municipal Police Station shall monitor the effective implementation of this Ordinance and shall likewise prepare a periodic report on the progress of the implementation of this Ordinance and shall furnish the Sangguniang Bayan

a copy of the same.

**SECTION 11. Information, Education and Communication Campaign** - Upon approval of this Ordinance, the Municipality through the Municipal Environment and Natural Resources Office (MENRO) in coordination with the Technical Working Group, shall conduct massive information, education and communication campaigns and shall include the promotion of alternative biodegradable packaging materials. The information and education campaign shall include the production and distribution of materials related and consistent with the provisions of this Ordinance.

**SECTION 12. Implementing Rules and Regulations** - Within thirty (30) days from the approval of this Ordinance, the necessary rules and regulations shall be issued by the Technical Working Group for the proper and effective implementation of this Ordinance.

**SECTION 13. Penalty** - The penalty for violation of this Ordinance shall be as follows:

- For Business Establishments:
- First offense - Fine of Php 500.00
  - Second offense - Fine of Php 1,000.00
  - Third offense - Fine of Php 2,500.00 and permanent cancellation of license to operate
- For Individuals:
- First offense - Fine of Php 300.00
  - Second offense - Fine of Php 500.00
  - Third offense - Fine of Php1,000.00

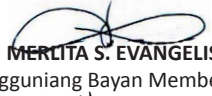

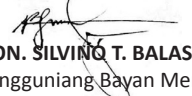

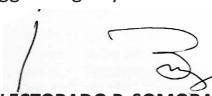

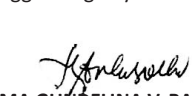

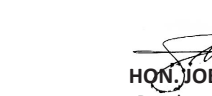

**SECTION 14. Moratorium and Implementation** - All business establishments, sari-sari stores, ambulant vendors, market vendors, food kiosks and the like engaged in the use and/or selling of plastic bags and styrofoam as packaging materials for food and beverages shall be given six (6) months from the date of effectivity of this Ordinance to dispose of their remaining inventory and for consumers to adjust and conform.

**SECTION 15. Separability Clause** - If, for any reason or reasons, any part or provisions of this Ordinance shall be held to be unconstitutional or invalid, other part or provisions hereof which are not affected thereby shall continue to be in full force and effect.

**SECTION 16. Repealing Clause** - Ordinances, rules and/or regulations or parts thereof, which are inconsistent or in conflict with the provisions of this Ordinance are hereby repealed and/or modified accordingly.

**SECTION 17. Effectivity Clause** - This Ordinance shall take effect after posting in a public and conspicuous place in all sixteen (16) barangays of San Jose, Northern Samar.

**APPROVED** by the Sangguniang Bayan in session assembled this 3rd day of August, 2020 at San Jose, Northern Samar.

## NPA member arrested in Biliran; involved in a mass purging in 1980s

PALO, Leyte – An alleged member of the New People's Army (NPA) was arrested by police operatives in Biliran province.

PRO-8 Regional Information Officer Police Lieutenant Colonel Ma. Bella Runtuaya told reporters that personnel from Police Provincial Office, based in Naval town together with the operatives from Naval and Libagon Municipal Police Stations, Southern Leyte MASPSTA and Regional Intelligence Unit 8 successfully arrested Luzviminda Orillo on August 12, 2020 in Sitio Bigaa, San Pablo, Naval.

Runtuaya said that Orillo a.k.a. Remy, 54 years old is a resident of Sitio Bigaa, Barangay San Pablo, Naval.

She was said to be a member of the rebel group operating in Leyte and Southern Leyte provinces who was involved in NPA Operation Code Name "Operation Venereal Disease" that massacred around 67 people sometime in the year 1985 and buried in a mass grave

at Mt Sapang Dako, Brgy. Kaulisihan, Inopacan, Leyte that was discovered on August 26, 2006 by the Philippine Army.

Runtuaya said that according to the initial report, the arrest was organized after a case build-up on the whereabouts of the above cited wanted person. Thus, on the said time and date joint operatives immediately plotted an operation.

Runtuaya said that Orillo was arrested by virtue of warrant of arrest for 15 counts for murder issued by Judge. Thelma Bunyi-Medina, presiding judge of National Capital Judicial Region, RTC, Branch 32, Manila.

She added that the Orillo was brought to Naval Police Station for documentation and proper disposition. "Our Police Force is in all-out campaign against terrorism and campaign to End Local Communist Armed Conflict despite this pandemic and we will make sure to bring them before the court of law," Runtuaya said.

## Canbalisara Elementary School receives four classrooms from Rep. Yedda Romualdez of Tingog party-list

BY: ARLENE C. INCISO

TANAUAN, Leyte- Canbalisara Elementary School of Tanauan III District fortunately received two buildings with four classrooms from the initiative of Leyte Rep. Yedda K. Romualdez of Tingog party-list November 29, 2019.

These classroom are now occupied by the Kindergar-

occupy and make use of the buildings.

It was celebrated with a program. The pupils prepared a dance number that the audience found entertaining. Also, Rep. Romualdez gave her heartfelt thanks to the people of Canbalisara for welcoming them. She expressed her willingness to

ten, Grade I to VI pupils of the said school. The faculty and staff of the school were very grateful to have this, much like a pre-Christmas gift.

The classrooms were well-ventilated. There are two wall fans per classroom and comfort rooms. These are conducive for learning. These would really help to the teachers and pupils.

During the turnover, the Canbalisara Elementary School faculty and staff, pupils with their parents and guardians and settlers witnessed Rep. Romualdez with her company gave the blessing for the school to

help further in the community as it is part of her advocacy. The celebration ended with plenty of smiles and excitement.

Canbalisara Elementary School though located in a far flung area has been helping the children of the community for decades. It was well-deserved for the school to have these classrooms to cater and mold more pupils to be refined young men and women of the nation.

## DPWH Region 8 to replace concrete barrier/fence in Abaca Elementary School

BY: ANDREW P. GERILLA

Republic Act No. 917, an act to provide for an effective highway administration, modify apportionment of roads and highways funds and give aid to the provinces, chartered cities and municipalities in the construction of roads and highways and for other purposes, is the basis of the replacement of the concrete barrier/ fence made in Abaca Elementary School.

It can be recalled that because of the road widening project of the government, Abaca ES's concrete fencing was hardly hit. There was a demolition done on the front side of the school fence.

As regards the opening of classes and for the safety of everyone inside the school, Mr. Andrew P. Gerilla, a Teacher III of Abaca ES and at the same time, the School Disaster Risk Reduction Management Coordinator (SDRRMC) was tasked to visit the Department of Public Works and Highways Office at Palo, Leyte, to coordinate with the Project

Engineer tasked on to do the project.

An agreement was made among the contractor, school, DPWH RD and project engineer for the replacement of the concrete barrier/ fence was made.

A bidding was made and the said project will soon be started.

Roberto S. Cecilia Jr., a contractor under Rex E. Morales/Jucons Construction and Supply (JV), got the project.

All expenses incurred in the building of the concrete barrier/fence was shouldered by the DPWH. Two engineers took charge of the project, Engr. Van Daryl R. Marcos Project in-charge engineer and Engr. Reynard N. Nepomuceno, DPWH engineer.

The teaching staff of Abaca ES is looking forward for the project to be materialized for everyone's security.

## Bulod Elementary School under the New Normal

BY: JIBBY BOY L. PALIMA

Amidst of coronavirus crisis "Education must continue" according to DepEd Secretary Leonor Briones.

Bulod Elementary School strongly support the calling of DepEd for the opening of classes on August 24, 2020.

The School Planning Team of Bulod Elementary School crafted the School Emergency Roadmap/Learning Continuity Plan to ensure that the learners are provided learning resources aligned to Curriculum Standards, to capacitate teachers to manage and deliver non face-to-face modes of learning, ensure classrooms were safe and conducive for learning and encouraged stakeholders support for the delivery of basic education services under the New Normal condition.

During the school roadmap/learning continuity plan presentation to stakeholders, the officials of Barangay Bulod, headed by Hon. Rodel Ajeto, Hon. Marvin Baculbas, committee on education, GPTA officers headed by Ms. Agnes Ajeto, pledged their

support for the opening of classes on August 24, 2020.

Teachers and School Head attended webinars from the national, regional and division offices as part to enhance their knowledge in the New Normal.

They worked in the unpacking of most essential learning competencies (MELC), making of budget of lessons, and making of learning activity sheets/worksheets to be delivered to the learners on the opening of classes that comes on August 24, 2020.

They also conducted meetings/parents orientation as to their duties and responsibilities in the Distance Learning Modality following IATF protocols. Schools purchased school supplies needed for the reproduction of learning materials. School head build partnership with other stakeholders to support the school's programs and projects. Bulod ES worked as One, Heal as One.

## Linkaging....., the school's emergency roadmap

BY: MATILDE C. DUNGZAL

Amidst COVID-19 pandemic, education must continue so that nobody should be left behind through the different platforms wherein learning can be available with the collaboration among dif-

ferent sectors in our community and stakeholders as well. the school may met: in the reproduction of modules and Learning Activity Sheets, the barangay allocated an amount of P15,000 taken from the BCP budget and promise also that they

Last July 29, 2020, a consultative meeting was held at San Jose Central School Dulag North District, Dulag Leyte facilitated by the school head Mrs. Matilde C. Dungzal, which were attended by the LGU of San Jose Dulag, Leyte represented by Hon. Baldomero Lucero, the barangay committee chairman on education, the GPTA officers headed by Orlando Lucino, the 4Ps and MCCT parent leaders and the teachers to present the School's Emergency Roadmap or the Learning Continuity Plan which will navigate the school as to where and how it will operate.

After the presentation, an open forum followed with the following resolution of the risk and challenges that

will collect an amount to be donated to the school while the GPTA move that they will initiate for a solicitation campaign from the stakeholders and the 4Ps and MCCT parent leaders promise that they will donate reams of bond paper once their subsidy allowance arrive; in the distribution and retrieval of modules and activity sheets, parent leaders and the GPTA promise that they will help in facilitating collection from the designated areas in the barangay with the coordination from the teachers; other concerns from the parents were also addressed.

## Toothless...

...from Page 5

easily disappear like bubbles with no convictions prospering, hence the perpetual, wanton siphoning of the people's taxes in government by high-ranking plunderers.

Back to the government watchdogs. Who are their usual casualties? Well, again, just the powerless, penniless, and nameless in-

dividuals whose minor offenses could be bloated and exaggerated beyond technical limitations. But as regards the powerful figures in high places, they prove inutile, powerless, and toothless. That's the justice system that government watchdogs seem to exercise, nothing more, otherwise, corruption in this country particularly in government agencies should have been halted long ago.

## AFFIDAVIT OF OWNERSHIP AND SELF-ADJUDICATION

NOTICE is hereby given that ELENA L. RAMULTE executed an Affidavit of Ownership and Self-Adjudication over a parcel of land situated at Brgy. Lapu-Lapu, District 2, Dagami, Leyte designated as Lot No. 597, Survey No. 503-D containing an area of 4,064 square meters, more or less. Per Doc No. 485, Page No. 99, Book No. II, Series of 2019. Notary Public Atty. Virginia A. Brazil. LSDE: Aug 1, 8 & 15, 2020

## DOH...

...from Page 1

caretakers.

They came from the towns of Lawaan, Eastern Samar; Villareal in Samar province; and Tanauan in Leyte province.

All patients are now confined at the Eastern Visayas Regional Medical Center (EVRMC), this city.

John Paul Roca, information officer of the DOH, said that considering that these new patients were exposed to the virus while attending their loved ones at the EVRMC, there is no way that they could spread the virus.

"It's not alarming because they never went out of the hospital. They have high risk of exposure since they were direct contacts of the confirmed cases. They were there because their patients need assistance," he said.

The patients, Roca said, have pre-existing medical conditions reason why they need to have somebody close to them while they were in confinement.

Also infected were a doctor from Palo town, Leyte and a nurse in Catarman, Northern Samar. Both got the infection from COVID-19 patients.

In Catarman, its rural health unit was shut down on Friday for disinfection.

This week, the COVID-19 cases of the region rose by more than 130. As of Friday, the region has now total cases of 1,464.

And obviously alarmed on the rising COVID-19 cases of the region, the DOH has called on the public and different government agencies to closely cooperate to help slow-

down the progress of the dreaded virus in the region.

Dr. Exuperia Sabalberino, the assistant regional director of the DOH, said that there are now several areas in the region which have 'local cases' which means the affected individuals were infected of the virus from an individual within their areas or villages.

Among these areas is in Basey, Samar, particularly in Barangay Villa Aurora where it has now 41 cases of which eight were children.

The town has a total 70 COVID-19 cases.

The Basey municipal government has imposed lockdown last August 8 in Villa Aurora which has more than 1,000 residents and provided food packs to them as a way to contain further spread of the virus. The lockdown is to end on August 22.

Aside from Basey, the DOH has also identified the following areas in Eastern Visayas which have local cases of COVID-19: Palo, Carigara, Tanauan, Barugo, Matag-ob, and the cities of Ormoc and Tacloban, all in Leyte; Almeria in Biliran; and Lawaan and Giporlos, both in Eastern Samar.

"We are calling for the cooperation of the different government agencies and the public. During this time of pandemic, we all need to act as one. We need a whole-of-government, whole-of-system approach," Sabalberino said.

(And) with the increasing trend of COVID-19 cases in the region, the DOH and our government will be implementing stricter enforcement of localized lockdowns and CODE," she added.

CODE, which stands for coordinated operations

## Resource Center on Peace and Resilience opens in Eastern Visayas

The Department of the Interior and Local Government (DILG) in Region 8 opened its Local Governance Regional Resource Center (LGRRC) on August 12, 2020 with a special highlight on Peace and Resilience and related issues.

Regional Director Karl Caesar R. Rimando acknowledged the contributions of the different field offices and regional office divisions in populating the resource center.

He added that with the establishment of the DILG LGRRC located at the Peace and Resilience Center inside the DILG Regional Office compound, students and other researchers can get data on resiliency and related concerns, as well as on peace and development studies.

He vowed to make the LGRRC visible and fully

to defeat COVID-19, is a patient and community-focused approach wherein the DOH assists the local government units through community engagement activities to effectively address further spread of the virus.

functional so that it will be useful for everyone. He ended by exhorting greater cooperation, stressing his mantra, "Together, Everyone Achieves More".

DILG Undersecretary Marivel C. Sacendoncillo, the guest speaker and a former Regional Director of DILG 8, said she probably was the happiest person in the gathering. She traced back to 2005 when the Local Government Academy of which she was then Executive Director, conceptualized on how to expand the reach of the LGA through LGUs.

She said LGRRC is *see Resource /page 24 ..*

## Maasin...

...from Page 3

Maasin became a component city of Southern Leyte on August 10, 2000 by virtue of Republic Act 8796.

Under the leadership of Mercado, the fourth-class city successfully passed in the prestigious 2019 Good Financial Housekeeping from the Department of Interior and Local Government (DILG).

(RONALD O. REYES)

## Steering the New Normal

BY: LORELIE A. SAAVEDRA

Stress. Worried. Confused. Afraid.

I was completely submerged into negativity in this time of pandemic. The world, in its moment of a halt, gave way to random emotions... made me think of Armageddon.

I have four vulnerable members in the family. My husband who has just passed a miraculous brain operation due to hematoma and my three young children, were the ones I was concerned with. The closure of everyday activities made me stressed. I was afraid to go out for I might bring the virus to my family.

What if my husband suffer brain post trauma again? No vehicles around. No immediate help. What if one of my kids would catch cough or colds? No sufficient supply of medicine.

I tried to fight back confusion and worry. I thought then that the safest place is home and the strongest weapon is prayer.

I, together with my family, turned the situation into something positive and navigating our small community, our home, with love and support.

We have had enough of the pandemic updates, so we switched the channel to making moments of being

together. The new normal made us dine together, do artworks together, and most of all facing the altar together every day.

Though immensely involve in this great health challenge, I thought of steering the new normal with wheels of hope that one day, this too, shall pass.

(Note: The author is the head teacher I of Cogon Elementary School, Alangalang I District, Alangalang, Leyte)

## School in the New Normal

BY: CLARITA D. FARON

The school is the main institution for educating children. In fact, it is an avenue for learning and a place where children discover who they are, what they can do, and what they might be in the future.

However, in this time of pandemic spawned by coronavirus disease 2019(COVID-19), the role of the school in the community seems to alter and the vision of continuing education is confronted with numerous challenges.

The opening of classes in the new normal is an intricate endeavor for us school

## Generating earnings through sustainable projects (GESP)

BY: FRESELL A. TIU

It is not a strange to the knowledge of many that this coronavirus disease 2019(COVID-19) pandemic has impacted so many lives, both to the haves and the have-nots. If one is not able to cope and adapt to the new normal, more deprivation is sure to be felt in the coming days. Everyone is confronted with the challenge to survive and learn to make use of everything one has to move forward.

And one of the mostly affected of this crisis is our learners which we believed is the hope of our nation in terms of the teaching-learning process. We should inculcate to their young minds the value and right attitude of proper waste disposal.

And to be able to realize this one, we teachers should have the habit of 5R's so that young learners will do what they see in us.

Since we are facing pandemic crisis today, education and learners are greatly affected, I have come up with a project that could help the parents as well as the learners in practicing proper waste segregation.

Nanay Arlene, a mother of four and a resident of Barangay Minuhang, Barugo, Leyte, is not spared from the impacts of the crisis.

The earnings from her small sari-sari store could not suffice to her family's everyday needs. So, they thought of making hanging plastic flow-ers out from the plastic bottles and wrappers to make decorative materials.

Their neighbors noticed how good and beautiful their works are, and eventually made some orders from them. It became a success that more demands came in.

Right now, they are producing and supplying different schools and offices from their handmade products. A clear indication of their success is that, their used to be sari-sa-

ri store is more productive nowadays.

It started sometime January 2020 until today and has a great impact in school proper waste disposal as it lessened the garbage in school premises.

Learning about this, I consulted the parents of my incoming Grade 5 learners about this project through Nanay Arlene and asked her to encourage pupils of Minuhang Elementary School to take part in their success. In this way, pupils will make use of their time in gathering and making these outputs instead of playing and doing nothing at home since classes have not started yet.

I asked them to gather plastic bottles and wrappers to be used as raw materials, and in return the pupils are to receive school supplies and snacks as incentive. This habit lessened the parents in giving money to their children for snacks and day to day needs.

The pupils are taught how to make the handmade products and manage to lessen the garbage in their surroundings.

The results of this collaboration brought about a lot of change to their lives and to the environment. The children are now driven to be conscientious about their surroundings by becoming agents of cleanliness through recycling. At a young age, they are now conscious and responsible while learning and caring at the same time.

This story taught us about hope, about family, about caring, about sharing, and about the will to survive. As the saying goes, "Only those who adapt, survive." This story taught us that crisis does not bring us down, but brings out the best in us.

(Note: The author is a teacher III of Minuhang Elementary School, Barugo I District, Barugo, Leyte)

## Foot pedal wash in school

BY: LIMWELL MONTINCENA

In order to instill health awareness, all schools of Alangalang I District were required to install foot pedal-operated wash (POW) by the District Supervisor as mandated by the Leyte Division Office starting May 2020 until the opening of classes on August 24, 2020.

Vivian D. Seco, the District Supervisor required the 17 schools under her to provide such kind the soonest possible time.

The provision of the foot pedal-operated wash in school was being supported by Division Memorandum No. 22, series of 2020 stating the improvement of water system facilities and construction and repair of

hand washing facilities.

The memorandum is in compliance to DepEd Order No. 10, series of 2016- Policy Guidelines for the comprehensive WASH in School (WinS) program.

The POW is in consonance to proper hygiene in effect to the rise of the corona virus.

Each school of the District has to submit pictures for the district report consolidation and for the inspection the Division Health Team.

## Hernani town in E. Samar distributes relief goods for 2,500 family beneficiaries affected by COVID-19

**BORONGAN CITY-** The local government unit of Hernani in Eastern Samar distributed relief goods to 2,500 families affected by COVID-19.

This is the third wave of relief distribution, said Mayor Amado Candido, with the first wave held on April 3.

"We distributed one sack of rice to 2,674 families on the first and second wave," Candido said.

"Our distribution is done through forming a single line, where beneficiaries follow the health protocols," he added.

Jam Gida, the staff of Office of the Mayor, said that the relief goods contained 5 cans of corned beef, 4 cans meatloaf,

12 sachets milk, 4 sachets powder detergent, 4 sachets toothpaste, and 12 sachets of coffee.

Irish G. Norcio, a family beneficiary said, she thanked the LGU for the concern.

As LGU Hernani learned that there is a COVID-19 positive case in Llorente and Gen. MacArthur, it convened immediately the Municipal Inter-agency Task Force (MITF) of COVID-19 to plan and execute some measures to protect the people from being infected.

Hernani is located between the two bigger municipalities which are trading partners of Hernani.

Aside from the minimum health protocol, the

MITF implemented a curfew.

The barangay officials and the PNP will monitor the residents if they follow the health protocols, and the LGU plans to have a quarantine code system to fast track contact tracing in the municipality in case there is a COVID-19 positive.

Other prohibited acts are using karaoke and patronizing beer houses. The LGU also held an orientation of barangay officials to become members of the Municipal Contact Tracing Team.

The mayor appealed to the residents to be safe, observe health protocols, and stay home.

## In Northern Samar

## Mondragon mayor says farm-to-market road projects to benefit farmers from four villages of the town

**MONDRAGON,** Northern Samar- Mayor Mario 'Jojo' Madera of this town said that road projects that his administration initiated are now being enjoyed by public.

Constructing major road and bridge projects are among the priorities of Madera who is now serving on his last term as mayor of the town.

Among these projects is the four-kilometer farm-to-market road project that traverses the villages of Eco, Flormina, and Santa Catalina.

Farmers from these villages now find it easy and comfortable in selling their produce to the market.

Mayor Madera said that the farm-to-market road was funded through the assistance of the provincial

government which provided P38 million and the Department of Agriculture regional office which allocated P40 million. He added that another farm-to-market road is nearing completion that will directly benefits the farmers and residents of the villages of De Maria, Hinabangan and Caicsan amounting to P50 million.

Another ongoing project that is funded by Rep. Paul Daza (1st district) and by the provincial government and the Department of Interior and Local Government is ongoing, the town mayor said.

Meanwhile, Mayor Madera said that with the help of Councilor Myla Marquita, a hanging bridge will also be constructed in Brgy. Hinabangan.

(PETER PAREDES)

Mondragon Mayor Mario 'Jojo' Madera said that as farm-to-market road projects are among his priorities as he is to end his third and last term as mayor. Photo shows him with Councilor Myla Marquita (PETER D. PAREDES)

## PSA braces for 2020 census amid pandemic

**TACLOBAN CITY -** The Philippine Statistics Authority (PSA) 8 (Eastern Visayas) will deploy about 6,162 enumerators and supervisors to conduct the 2020 Census of Population and Housing (CPH) under the "new normal" situation.

Mae Almonte, chief of PSA-8's statistical operations and coordination division, said despite

restrictions, they have been preparing to carry out the 25-day survey starting September 1.

"These enumerators and supervisors will be supplied with personal protective materials, like face masks, face shields, hand sanitizers, tissue papers, liquid soap, and uniform. They are mandated to strictly observe physical distancing and follow other health protocols during

interviews," Almonte said in a phone interview on Friday.

The census will cover population count, demographic and socioeconomic characteristics, types of houses and household, and barangay data.

The PSA aims to cover the region's 4,390 villages in seven cities and 136 towns.

The upcoming CPH, the 15th to be conducted in the country, was supposed to start last May 4 but was moved four months later due to the pandemic that has restricted the people's movement.

The 2020 population census will be a nationwide government undertaking that involves the collection, compilation, evaluation, analysis, publication, and dissemination of data

incidents that make peace and order a major challenge. On the other hand COVID is another major disaster that presents everybody a great test.

"Due to this unique situation, DILG 8 has a great opportunity to make the center thrive and serve the entire country. I envision the center to serve not just the Philippines but even other ASEAN countries as they face the same challenges, but do not have a knowledge center dedicated to these topics. Region 8 can set the example for other regions. Congratulations to RD Rimando for initiating this!" she said. (PR)

## Resource...

an attempt to harmonize what the agency does, and to galvanize the Department as a catalyst for LGUs.

The LGRRC which began as a small idea is now sprouting all over the country. She challenged DILG Region 8 to cultivate the knowledge management center with a special focus on peace and resilience as a platform.

This is due to the region's being vulnerable to both natural hazards and a communist insurgency. She said Samar is still experiencing many
