EV posts 92.4% employment rate in January 2021, PSA says

TACLOBAN CITY – The Philippine Statistics Authority (PSA) reported that the region’s employment rate in January of this year has reached 92.4 percent which is 3.0 percent lower compare to last year’s record of same period.

However, the figure is relatively higher compare to the 87.6 percent level in April, 2020, the start of the quarantine period due to the coronavirus disease(COVID-19)pandemic, Wilma Perante, PSA regional director, said in a statement.

“The region recorded the 7th highest employment rate among the 17 regions in the country and was slightly higher than the 91.3 percent national estimate in January 2021,” she said.

Perante reported that out of the estimated 3.1 million population in Eastern Visayas, 15 years old and over in January 2021, about 1.9 million of them were economically active or in the labor force.

She added that this number translates to a Labor Force Participation Rate (LFPR) of 59.8 percent.

The latest LPFR was 3.6 percentage points higher than the 56.2 percent LFPR in October 2020 and 0.3 percentage point higher than the 59.5 percent LFPR in January 2020.

Perante added that about 144,000 persons in the labor force were unemployed in January 2021.

This translates to an unemployment rate of 7.6 percent, lower than the 14.3 percent unemployment rate reported in April 2020.

Perante also reported that the underemployed persons or those employed persons in the region who express the desire to have additional hours of work in their present job or to have a new job with longer working hours was estimated at 372,000.

“This translates to an underemployment rate of 21.2 percent, same as the figure reported since April 2020 but higher than the 16.4 percent recorded in January 2020. Eastern Visayas ranked 5th among regions in the country with a high underemployment rate,” she said.

PCA contains coco pest in Southern Leyte

TACLOBAN CITY – The coconut scale insect (CSI) infestation in Anahawan, Southern Leyte is now manageable after the bug attacked the town’s 5,000 nut-bearing trees since last year, the Philippine Coconut Authority (PCA) reported on Thursday(April 8).

The application of biological control measures has stopped the pest from further spreading outside Mainit village in Anahawan town, PCA Eastern Visayas regional manager Joel Pilapil.

stopped the pest from further spreading outside Mainit village in Anahawan town, PCA Eastern Visayas regional manager Joel Pilapil.

“The impact of the integrated pest management protocol and the reduction of CSI population brought down the pest population at a level that biological control can sustain. We have not reached the point where we have to inject chemicals to the trunk to stop the infestation,” Pilapil said in a phone interview.

The bug population has been reduced through regular harvesting of matured nuts, leaf pruning, spraying of organic chemicals, mass rearing and field releases of biological control agents, and fertilization to hasten recovery of infested trees and eventually increase yield, among others.

Infested areas in Mainit are declared to be under quarantine to prevent the further spread of the prolific pest.

The official believes that the pest reached Southern Leyte through the transport of whole nuts and planting materials from affected areas in the country.

The Department of Public Works and Highways (DPWH) inaugurated a evacuation center located in Barangay San Miguel, Hernani, Eastern Samar last March 25. The facility, built on the amount of P36.58 million, is expected to provide safe haven among villagers during disasters, particularly typhoons.

P36-M evacuation center in Hernani, Eastern Samar now completed

BORONGAN CITY- The Department of Public Works and Highways - Regional Office VIII (DPWH-RO8) inaugurated and turned-over the newly-constructed evacuation center to the local government of Hernani at the Sitio Pina-su-an, Brgy. San Miguel on March 25, 2021.

The facility is a one-storey reinforced concrete with steel structure having a total floor area of 418.00 sq.m. amounting to P36,589,895.80.

The ceremony was attended by Mayor Amado L. Candido, Rep.Maria Fe R. Abunda, Vice Governor Maricar Sison-Gotelesan, DPWH R8 Project Engineer Leonilo Jumagdao, and municipal coordinator of Eastern Samar Provincial Office Jose Omayao.

“Ig-sugad hit iyo panimalay, panimalay na gin aataman dire ginpapa-bay-an. Pagdatong hit panahon gidadako-e n na bulig ha iyo ka urog na labi na kita naton an panahon han Yolanda hin makaluluoy hit iyo munisipyo [Treat this as your home, a home that you cared because time comes this will be a great help to you just like what happened to your municipality during the Typhoon Yolanda],” Rep.Abunda added.

Town Mayor Candido expressed his gratitude to DPWH and to Rep. Abunda for the project and said that it will help the residence of his municipality to have a safe and disaster resilient place where they can take refuge in times of calamities.

“Dako talaga pagkabulig hine didi hit taga-Hernani kay siring ko pa dako ine na tsansa hit amon himungto kay aton babasihan agsob kami bisitahin hine na mga kalamidad lalo na hit bagyo, storm surge, ngan iba pa sugad hit linog sanglit ine na pasilidad gidako-e akon pasasalamat hit DPWH and kan Cong Fe, ngan iba na opsisyal hit aton probinsya, ngan aton bungto hit Hernani. [This will greatly help our municipality especially we are prone to calamities like typhoons, storm surge and earthquake. We are thankful to DPWH and Cong Fe and other provincial officials for this project.],” he said.

Aside from the facility here, Engr. Jumagdao disclosed that DPWH has three ongoing construction of evacuation centers in the province located in Borongan City, and in the towns of Salcedo and Sulat which will also be turned-over to the respective local government units once completed.

Engr. Jumagdao added that Eastern Samar municipalities should have evacuation centers because of the geographical location of the province facing the Pacific and often visited by typhoons every year.

He disclosed that DPWH can implement projects only like evacuation centers to those municipalities who can give minimum requirements to back-up for the budget proposal.

“At least you have these following requirements: (1) titled lot with an area of at least 3,000 square meters which owned by the local government unit (LGU); (2) The area should be approved by the evaluation of the Mines and Geosciences Bureau (MGB) and Department of Environment and Natural

Northern Samar provincial gov't continues to improve delivery of healthcare, nutrition services

CATARMAN, Northern Samar – In a special session held this afternoon, April 7, 2021 at the Provincial Capitol, members of the Sangguniang Panlalawigan passed an ordinance for the repair and improvement of the Biri District Hospital and the G. B. Tan Memorial Hospital in Laoang, and a resolution granting the performance-based in-

centives of Barangay Nutrition Scholars (BNS).

The amount of P7.6 million was reverted from the continuing appropriations, under hospital infrastructure and equipment.

On the other hand, members of the Sangguniang Panlalawigan who were present also unanimously approved to pass a resolution granting the performance-based incen-

tives of barangay nutrition scholars (BNS) retroactive to calendar year 2020.

Earlier this year, the Provincial Health Board has approved a similar resolution in recognition of the outstanding performance of the BNS in reducing malnutrition prevalence rate in their respective barangays.

Based on the resolution, a BNS may receive P350 to P700 per month depending on their performance.

With temporary presiding officer board member Joma Vicario, this special session of the Sangguniang Panlalawigan was attended by temporary majority leader Neil Hernandez, board members Golda

Ballesta, Chin Dela Rosa, Gina Ong-Silvano, Mary Ann Avalon, ABC president Liza Esidera and PSKF President Elcid Abalon.

The special session was called for by Governor Edwin Ongchuan who has consistently acknowledged the importance of improving the healthcare services especially as the COVID-19 pandemic continues.

This thrust towards nutrition is also in line with the objectives of the First 1000 Days of Life Program (F1KD), one of the flagship programs of the provincial government this 2021, in partnership with UNICEF-KOICA and the Zuellig Family Foundation. (NSPIO)

Goma to run as congressman while wife Lucy to seek as mayor of Ormoc City

TACLOBAN CITY- Ormoc City Mayor Richard Gomez has announced of his plan to run for Congress in next year's elections, coinciding of his 55th birthday celebration last Wednesday (April 7).

The post the actor-turned politician planning to seek is currently occupied by his wife, Rep. Lucy Torres Gomez who is now on her final term.

"Lucy is now on her last term already, will it be ok if we just swap positions? Our congresswoman will run for mayor...", the actor-turned politician said this with his wife among those present during his announcement with the city and barangays officials in attendance in a gathering held at Ormoc

superdome.

Aside from his birthday celebration, the occasion also served as the launching of the city's vaccination plan.

With this declaration, this shut down earlier speculation of Rep. Torres Gomez running for senator in next year's elections though she figured highly in some pre-election surveys.

The couple are considered to be political allies of President Rodrigo Duterte who both ran under the banner of the PDP-Laban during the 2019 elections.

Mayor Gomez, who is only on his second term in office, said that his wife would make a good mayor of Ormoc as he thanked her for all her works and

projects she brought to Ormoc and the rest of the congressional district which covers the towns of Kananga, Albuera, Palompon, Merida, Isabel, and Matag-ob.

Torres Gomez is actually serving on her fourth term as office.

She first ran as a congresswoman in 2010, substituting her husband who was disqualified for lack of residency.

In March 19, 2013, the Supreme Court ousted her from her post though she won on her reelection bid during the May 13, 2013 elections.

She won on her subsequent reelection bids. (LIZBETH ANN A. ABEL-LA)

A stern warning

In the face of China's stubborn and defiant stand to not remove its 200-ship presence at the Whitsun Reef, which is well within the Philippines' 200-mile exclusive economic zone, the United States finally issued a warning that China ought to take heed.

The State Department spokesman Ned Price told reporters that China's armed attack against our armed forces, public vessels, or aircraft in the Pacific and in the South China Sea could trigger their obligations under the US-Philippines Mutual Defense Treaty. They, according to him, share the concerns of their Philippine ally regarding this massing of PRC maritime militia in that part of the contested waters.

The government maintains that those vessels unlawfully entered our exclusive economic zone. But despite weeks of appeals from the Philippine authorities, China, which claims al-

most the entire resource-rich West Philippine Sea, refused to leave. This refusal has prompted the United States to issue the above warning, to the advantage of the Philippines which China merely belittles and bullies.

Fears had initially circulated when the Biden regime came to power, knowing that President Biden had been known to be rather friendly with China and so, he could have left the Philippines alone should an armed conflict erupt. But luckily, too, the newly elected US president has just vowed a robust defense of its Asian allies against Chinese assertiveness.

At least now, we are not alone in trying to drive the Chinese vessels away off the country's territories in the West Philippine Sea—we have the unwavering support of the US which, as we know, is the only obstacle that gives China second thoughts in their intention to grab this entire maritime territory.

Pandemic scammers

In the midst of the ongoing pandemic when people, more than ever, are obsessed with money-making to meet their basic needs, scammers of various types have also multiplied in number, scattered in almost all areas of human under-

taking.

And their victims? Ow, not just the simple-minded fellows as you might think; even the wisest folks are not spared. Their cunning is such that you can never tell you are already falling into their traps. Before you

know it, you have already been tricked by their guile.

What more, their modus varies in degree. Perhaps depending on the caliber of their targets. The most sophisticated are meant for the wise, and the rather mediocre are for the stupid. Funny but at times, even the brilliant ones and the educated sometimes end up entangled with their subtle schemes.

Just like the elderly woman who was swindled by a professing young lover into giving away her lifetime savings. Thinking that she had finally found her true love, she ended up drained of her hard-earned cash, which she entrusted to the young man out of her

exceeding love for him.

And she is not alone in this predicament—there had been plenty of them. Many of those episodes had even been dramatized and preserved as video footage, uploaded on Youtube and other online, social media platforms. And the victims are either men or women: the men being scammed by ladies, and the ladies, by some men.

I've had my share of such scams, repeatedly over the years, in fact. It's this tendency of mine to easily trust people that serves as my weak spot. I seldom doubt that a person I deal with for something will fool me, based on my see *Pandemic* /page 10 ...

Coronavirus & Coronavirus Variant
- Did'ja Know -

THAT Tacloban City Mayor Alfred S. Romualdez called a seemingly sudden press conference last Monday, April 5th?

THAT he started the conference with the information about the sudden increase in the number of patients in Metro Manila's Sixteen (16) cities and nearby provinces, due mainly to the upsurge of the 'new disease' -- Coronavirus Variant?

THAT almost all hospitals in Metro Manila are in "full capacity alert," and that practically all private hospitals there no longer accept new patients?

THAT Metro Manila radio stations, television stations as well as newspapers have confirmed the above-mentioned acute hospital room & bed shortages?

THAT Tacloban City's active City Mayor Romualdez has informed the city constituents, as well as the public, that as compared to the "original version" of the Coronavirus disease, which caused worldwide medical havoc starting early last year ...

... THIS SO-CALLED "NEW VERSION" -- THE CORONAVIRUS VARIANT IS A MUCH DEADLIER & CONSIDERED BY DOCTORS AS A "TRAITOR DISEASE..."

... BECAUSE EVEN ASYMPTOMATIC CARRIERS OF THE CORONAVIRUS VARIANT (WHO ARE ALREADY INFECTED, BUT DO NOT HAVE SYMPTOMS; AND ARE NOT AWARE OF THE DISEASE IN THEIR OWN BODIES) CAN EASILY INFECT THEIR FAMILIES,

HOUSE MATES, NEIGHBORS AND OTHER FELLOW HUMANS WITH THIS DREADED CORONAVIRUS VARIANT...

... AND HAS CAUSED THOUSANDS OF DEATHS WITHIN A FEW WEEKS IN METRO MANILA AREA AND NEARBY PROVINCES?

THAT this Columnist's fellow media sources confirmed the mounting number of Metro Manila residents with 'only mild symptoms' but who have suddenly died in their homes; and even in the so-called "Wait-Listed Patients' Tents" within hospital compounds?

THAT now, there is an increasing number of Metro Manila residents who are moving back to the provinces, and along with them, they are also bringing & spreading the disease?

THAT our fellow 'probinsyanos' are wary that those arriving from the National Capital Region (NCR), even though already subjected to mandatory testing when they departed from Metro Manila, many of them are turning out positive for the deadly coronavirus upon arrival in the provinces?

THAT Metro Manila residents who return to the provinces worry of relatively poor facilities & accommodations in said provinces, that many of these returnees secretly maneuver to move back to their hometowns without reporting to their respective authorities?

THAT as a result, returnees who are asymptomatic and therefore unaware that they have the virus, but who secretly

arrive in their hometowns without informing health authorities, end up infecting their provincial relatives, friends and neighbors?

THAT there are some cities in the provinces that are now already experiencing the level of contagion similar to Metro Manila; and this is mainly due to travelers from the National Capital Region (NCR) & nearby areas who have brought the coronavirus to the provinces?

THAT this "like-a-wild-fire" spread of the dreaded Coronavirus Variant disease in several areas, initially in Metro Manila's 16 cities and nearby provinces, is pointed to as the main reason for this seemingly sudden press conference in Tacloban?

THAT Mayor Alfred advised his constituents and the general public to be more vigilant and offer more prayers so this deadly Coronavirus Variant

The Easter spirit

MANY things can be said about what the Easter spirit is. In fact, I don't think we can ever exhaust them. The implications we can derive from the consideration of what the Easter spirit is would be endless. But what we already can say about it should already be enough to make us so understand it as to live it adequately. So what is the Easter spirit?

The Easter spirit is about God's tremendous love for us. It's a love that knows no bounds. It's rather us who can give it limits since we are capable of rejecting it. But on his part, he loves us all the way, no matter what. He is bent on doing that, no matter what it would cost.

The Easter spirit is about God sending the son to become man to save us. It's

Ballyhooed urban gardening, a brilliant idea

Decades back a precursor to the current buzzword Urban Gardening was introduced by the First Lady and Minister of Human Settlement Madame Imelda R. Marcos. Raised in the province of Leyte, then First Lady is not alien to doing gardening work. Her's was a bright idea because it helped urbanites, especially in Metro Manila, eat their vegetable harvests from limited backyard and/or vacant lots turned productive. Sadly, the *Green Revolution* project got abandoned just as the First

Lady's family became unpopular and banished from the country!

Comes now the much ballyhooed *Urban Gardening* project introduced and now being popularized in the National Capital Region, specifically in Las Pinas in 2013 by the Villars (Sen. Cynthia and Rep. Camille), aimed to promote it as an alternative source of livelihood "...especially for those affected by the pandemic. Not only do they have extra income, but they also help ensure food security as they have an im-

mediate solution to possible food shortages due to crisis". According to Rep. Villar, "produce from urban gardens make their way to local communities.

Urban farming, while being practiced by priests (using recycled bottles, plastic cups and planted to common veggies and the like hanged against walls of buildings, in their respective congregations, as well as by other private groups/individuals, I am for introducing the project to cities and towns feeling the crunch of shortage and/or expensive vegetables from nearby provinces.

House Bill 8385 co-authored by Rep. Villar, also called the "Integrated Urban Agriculture Act", proposes that idle lands, buildings and open spaces will be converted into urban gardens. Incidentally, during the 3rd International S & T Symposium hosted by the Eastern Visayas State University, in Tacloban, one of my fellow speaker, an American practicing scientist, talked about a revolutionized urban gardening in multi-storied buildings in the USA, planted to high-end vegetables. The technology appears simple which could be adopted in the NCR and other big cities of the Philippines.

I am hundred percent supportive of HB 8385 if only to see Filipinos more nutrient conscious by enhancing protein intake from vegetables, instead!

ORDER

This is a verified Petition for the Correction of the Entries in the Certificate of Live Birth of the petitioner, Maricel R. Claus. Petitioner alleges that she was born out of wedlock to Reynaldo Salas and Liezl Rosales Salas but she was

duly recognized and acknowledged by her father. That her father Reynaldo Salas has been continuously using the surname “Claus” of his illegitimate father since childhood. In her birth certificate, her surname was entered as “Claus”, the surname used by her father while petitioner’s mother also erred in affixing her own name and signature in petitioner’s live birth and wrote ‘Liezl Claus’. That sometime in the year 1999, petitioner’s father discovered that his birth was not registered in the Local Civil Registrar. Upon advice, petitioner’s father cannot use the surname “Claus” as he is an illegitimate son and was not acknowledged by his father, and so Reynaldo entered his surname as “Salas”, his mother’s surname. By reason of such late registration, petitioner’s parents started to use the surname “Salas”. That on July 8, 1999, petitioner’s parents Reynaldo Salas and Liezl Rosales Salas got married and petitioner was legitimated by reason of such marriage. That after said marriage of petitioner’s parents, her surname remains “CLAUS” in all of her pertinent records to her prejudice because of the confusion and discrepancy from her records in the Local Civil Registrar. Petitioner prays that after hearing, an Order be issued directing the Civil Registrar of the Office of the Local Civil Registry of Tacloban City to make corrections and cancellations in her Certificate of Live Birth.

Finding the petition sufficient in form and substance, the same is hereby given due course and set for initial hearing on **April 20, 2021 at 1:30 o’clock in the afternoon** at the session hall of this Court, RTC Branch 45, Tacloban City, wherein on said date, time and place, any person or persons may appear and show cause if any they have, why this petition may not be granted.

The herein respondents, are directed within fifteen

(15) days from notice of the petition, file their opposition thereto, furnishing copy thereof to petitioner’s counsel, who is given (5) days from notice within which to reply, if desired.

Also, any person having or claiming any interest under the entry whose correction is sought may, within fifteen (15) days from the last day of publication, file his/her opposition thereto, also furnishing copy thereof to petitioner’s counsel, who is given (5) days from notice within which to reply, if desired.

Let a copy of this Order together with the petition posted in at least three (3) conspicuous places - in the City Hall of Tacloban City; the Office of the Local Civil Registrar, Tacloban City; and at the Bulletin Board of this Court.

Likewise, let a copy of this Order be published in a newspaper of general circulation in Region 8 once a week for three (3) consecutive weeks - all at Petitioner’s expense.

Furnish copy of this Order to the Office of the Solicitor General, the Office of the Local Civil Registrar of Tacloban City; the City Prosecutor’s Office; the private respondents, the petitioner and her counsel to apprise them of this setting.

SO ORDERED.

GIVEN in Chambers, this 15th day of February 2021 at Balyuan Grounds, Magsaysay Blvd., Tacloban City.

ICPSS training to help distant villages become conflict-resilient, says Army officer

BORONGAN CITY- Some 19 elements of the 78th Infantry Battalion attended a 21-day Integrated Community Public Safety System (ICPSS) Trainers Training at the 801st Brigade in Brgy. Fatima, Hinabangan, Samar.

The closing ceremonies took place on April 3, 2021, according to Deputy Brigade Commander Lt. Col. Lenart Lelina in an interview.

After having their 2nd phase which is immersion, the students of the 78th IB were deployed in the respective barangays in the brigade area of responsibility, he said.

“Now they are officially part of the Integrated Community Public Safety System (ICPSS) Trainers team,” the army officer added.

The training objective is to equip the soldiers with the knowledge and skills on how to help the

LGUs establish an integrated community public safety (defense) system, especially in the recently cleared barangays and municipalities, Lelina said.

“It’s a Trainers’ Training, so the 19 students are expected to cascade what they learned to all the Retooled Community Service Program (RCSP) teams that are still immersed in the barangays.”

“We need to capacitate the recently cleared communities to become conflict resilient,” Lelina admitted that the system still needs fine-tuning.

“The system is not perfect and still needs more bright ideas and innovations.” The army officer highlighted the role and responsibility of the local government units.

“The role of the LGU is very important especially on the proper formulation and implementation of Peace and Order and Public Safety (POPS) Plan in coor-

dination with the security forces. “

“The Peace and Order Council (POCs) should allocate funds to different projects, programs, and activities related to security and safety of the community.”

He added, “If our communities are secure and peaceful, there is no more stopping our LGUs and NGAs, including CSOs from bringing the needed services to the distant villages.”

“Infra projects will not be hampered anymore because the people themselves will be the ones to secure the implementers and heavy equipment.”

This training and more activities are currently implemented in support of Pres. Duterte’s Executive Order Number 70 or the Whole-of-Nation approach to end the local communist armed conflict.

of being a victor and conqueror, oozing in peace, serenity, confidence and security, despite whatever. Because no matter how wounded and broken we are, we have the assurance that God will mend us always with his mercy and restore us to the dignity he wants to give us.

The Easter spirit, of course, would also make our sense of responsibility over our life keener. We would more sharply realize that we have to do our best to conform ourselves to God’s will and ways, taking up all the spiritual,

supernatural as well as the human means to that ideal. If we have the Easter spirit, we would know how to always live in the presence of God, driven always with love that can conquer all things. It would give us an apostolic zeal that would provide us with a burning desire for the salvation of all souls. The Easter spirit is the slayer of complacency, lukewarmness and the other weaknesses we have. It, for sure, will protect us from all sorts of temptations.

There are still many things we can say about the Easter spirit. But for now, let us see if we have these marks of the Easter spirit in our life!

In deference to health protocols, only block leaders from the said housing site, in Brgy. 99 Diit, received the occupancy permits and certificate of awards. the city mayor. Vice Mayor Jerry Yaokasin and, the chief executive’s son, Raymund Romualdez also graced the activity. Before the turnover, a mass was officiated by Palo Archbishop John Du to give grace to the beneficiaries who will receive ownership certificates of units in the housing resettlement project. Since the project started in 2016, a total of 566 completed housing units have been awarded, of which 263 were initially turned over way back in 2019. To note, unlike other housing projects for Yolanda victims here, the PFV is located seven kilometers away from the city’s business district and very accessible through public transportation. of cases like Tagapul-an,” Sabalberino said.

“That is why, we are reminding our local chief executives to please follow the prioritization criteria. That our frontliners will be prioritized because they are the ones who are most at risk,” she added.

Sabalberino said that more than 22,000 health workers and frontliners have so far received their first doses of vaccines using the Sinovac and AstraZeneca brands.

“We have completed 100 percent for our medical workers assigned at

hospitals and rural health units in the region,” she said.

But the DOH official said that they have extended their priority list by including those manning the checkpoints and assigned at the barangay response teams reason that their priority list has now increase to over 82,000 from the previous 27,000 individuals who were mostly medical workers.

Sabalberino said that she could not say yet as to how many doses of vaccines Eastern Visayas will receive next time, saying this depends on the number of vaccines received by the national government.

Dr. Shiena Ann Legaspi, the lone doctor of the group, said that she is just happy to respond to the call of the national government for them to help their counterparts at the NCR during this time of pandemic.

“While I am a little bit nervous I am still happy to serve during this time of pandemic,” Legaspi, who is from Cordillera Region but assigned at the rural health unit in Basey, Samar for two years now, said.

Sabalberino said that these health workers will be assigned at the Lung Center of the Philippines in Quezon City for a minimum of two weeks to a maximum of two months, depending the COVID-19 situation at their assigned hospital which is among the health facilities which are now in full capacity due to the high number of COVID-19 patients there.

Gov. Petilla gives freehand to LGUs in the province on swabbing requirement for returning residents

TACLOBAN CITY - The provincial government of Leyte will not require returning residents to submit a negative RT-PCR (reverse transcription polymerase chain reaction) result.

However, the municipalities, to include Baybay City, which are under its jurisdiction are free to require such requirement, Governor Leopoldo Dominico Petilla said.

“It depends to the mayors. There are mayors who requires that,” he said, referring to RT-PCR negative swab result for returning residents.

“Remember that... swabbing may be required

72 hours before they arrive but what if they get infected a day before they are swabbed then it defeat the purpose,” Petilla added.

In the absence of RT-PCR test, Petilla said that the returning residents have to follow a provincial ordinance that requires them to personally report to their respective rural health units, city or municipal health offices, or to barangay officials so they could be assess if they have the symptoms of the coronavirus disease (COVID-19).

Petilla said that if they manifest any symptoms, they will be subjected to swabbing and isolation. If the test is positive, they will be quarantined immediately, otherwise, they will be allowed to go home but still be monitored.

Aside from detection through swabbing, isolation is another way of preventing the spread of

COVID-19, he added.

Meanwhile, Gov. Petilla said that he already created a different task force to implement the coordination with local government down to barangay level on the vaccination

plan of the province.

Petilla said that this is in preparation in case the majority of the vaccine arrives and vaccination to the greater number of populace commence. (ROEL T. AMAZONA)

Meanwhile, in Palapag town, also this province, fisherman Juan Balanquit, 44, was shot by his drinking buddy.

The suspect, Romeo Ulchundra,55, who was also under the influence of liquor, shot the victim reportedly due to personal grudge.

The operation of the food center will be on a dai-ly basis.

During the launching held last March 30, board member Albert Lucero who chairs the agriculture com-mittee at the Sangguniang Panlalawigan said that the launching of the program is an indication that the pro-vincial government under Gov. Exec asks Visayas to send medical workers to NCR areas which are experiencing surge of COVID-19 cases

Visayas Undersecretary Anthony Gerard Gonzales

TACLOBAN CITY- Presidential Adviser to the Visayas Undersecretary Anthony Gerard Gonzales is urging governors in the Vi-sayas to send medical per-sonnel to the National Cap-ital Region (NCR) to help the government address the surge of coronavirus disease (COVID-19) that is now af-fecting medical staff of ma-jor hospitals in the nation's capital.

Gonzales said that help-ing the NCR address its present situation is neces-sary as it affects the econo-my of the entire country.

Sending medical per-sonnel would greatly help in addressing the current problem which does not only affect cities in Metro Manila but in its neigh-boring provinces as well, he added.

"We are also calling on the different provinc-es, yung mga governors na magpadala rin sila. I'm sure there are many nurs-es who do not have job at this time, maganda naman yung package at meron namang incentives ang ibibigay ang OPAV at Proj-

ect Balik Buhay na P5,000 each every month for three months plus other benefit na ibibigay ng government," Gonzales said.

His office is also calling for registered nurses to vol-unteer for the deployment at NCR. Those who will vol-unteer, aside from receiv-ing P5,000 cash incentives every month, they will also be provide with transpor-tation, accommodation, and financial package that amount to around P33,000.

On Wednesday (April 7), 16 medical health work-ers from the region, com-posed of 15 nurses and one doctor, travelled to NCR where they are to be as-signed at the Lung Center of the Philippines in Que-

zon City.

They are expected to stay there for at least two months, depending on the situation at NCR.

DOH8 Acting Region-al Director Exuperia Sa-balberino, DOH-8 acting regional director, said that they may still send another batch of health workers if there is a need.

In an interview with Southern Leyte Governor Damian Mercado, he said that the province is will-ing to send health workers since they have list of ap-plicants who are looking for job at the hospital run by the provincial govern-ment.

Leyte Governor Leo-poldo Dominico Petilla, on his part, said that he already received such re-quest from Gonzales but he still needs to have a meeting with the provin-cial health office to deter-mine their response be-cause Covid-19 is not the only health problem that the province is attending.

Metro Manila along with its neighboring prov-inces of Rizal, Laguna, Bulacan, Cavite are placed by the Inter-Agency Task Force under what they call NCR Plus bubble which are experiencing a spike of COVID-19 cases.
