The Samar Business District will create jobs, generate income

Gov. Tan envisions P4 billion business district

JOEY A. GABIETA

CATBALOGAN CITY- An ambitious and multi-billion peso economic district is being envisioned to be established in the city and is aimed to create thousands of employment and provide economic activities.

The Samar Business District (SBD), covering 70 hectares encompassing six barangays of this city, is being pushed by the provincial government in close coordination with the city government.

Governor Reynolds Michael Tan, who is behind this project, says that the proposed SBD is projected to cost P4 billion and is expected to be completed in four year's time.

"With the (establishment) of the Samar Business District, we envision that Catbalogan City and the rest of the province will become the center of trade and commerce on Samar Island," he said.

The 70 hectare of land to be used for the establishment of the SBD will involve reclaimed lots from the sea

as Catbalogan is lacking of needed space, Tan said.

And this early, the Samar governor dismissed

any possible destruction of marine resources saying they are guaranteeing that see Gov. Tan/page 16 ...

Women inmates at the Tacloban city jail receive jabs

TACLOBAN CITY-At least 42 women inmates in a jail facility here were administered with vaccine against coronavirus disease (COVID-19) on Thursday (August 12).

The vaccination among women inmates was part of the mobile vaccination

roll-out of the city government under Mayor Alfred Romualdez to ensure that more qualified residents of the city would receive the jabs.

Dr. Joedina Gumagay, chief of hospital of the Tacloban City Hospital who led in the vaccination at

the Tacloban City Jail, said that inmates should be given priority in the vaccination drive to ensure that COVID-19 would not spread inside the facility.

"God forbid, if one of them will get the infection, it will be easy and fast for COVID-19 to spread that is

why, we have to prioritize them in the vaccination," she said.

Mayor Romualdez, joined by his son, Raymund, witnessed the vaccination inside the jail facility. The said vaccination is considered to be a first in see Women/page 16 ...

DOH reports 100 percent vaccination of region's health workers

TACLOBAN CITY- All health workers here in the region have been inoculated as the Department of Health (DOH)-lead vaccination campaign continues targeting other groups.

Dr. Marc Steven Capungcol, head of the epidemiology and surveillance unit of the Department of Health (DOH-8), said that all 82,047 identified health workers across the region have already been vaccinated.

He said that among the priority groups, health workers in the region were the first to achieve a 100 percent vaccination.

Health workers are considered under the A1 category.

Capungcol describes as 'good news' on the complete vaccination of health workers in the region, especially now that several variants of coronavirus

disease (COVID-19) have been detected by the DOH.

"We will ensure that we will strengthen further our vaccination roll-out now that there are presence of several variants of concerns here in the region," he said in an online press conference on Wednesday (August 11).

Meantime, Capungcol said that out of the 447,306 senior citizens identified, 106,644 of them have so far received the jabs while those with comorbidities, 83,365 out of 292, 606 have been inoculated.

He also said that of those who have received the vaccines against COVID-19,

only 3,714 of them reported to have developed some adverse effects which includes fever, headache, increase of blood pressure, and swelling at the injection site.

Capungcol disclosed that based on the 214 samples that they have sent to Philippine Genome Center for sequencing, variants of concern and under investigation were detected among these samples.

The samples detected were three Alpha cases; seven Beta cases and seven variant under investigation. The DOH has earlier confirmed on the presence of 10 Delta variants in the region.

Capungcol admitted

that the presence of these variants contributed to the spike of COVID-19 cases in the region.

He, however, said that the loosening up of some protocols like border controls and the continued violation by some people on protocols like mass gatherings contributed to the increase of COVID-19 in the region.

On Friday (August 13), the DOH reported of 147 new cases, pushing the region's total COVID-19 cases to 38,059.

Its recoveries were logged at 36,444 with 1,184 active cases.

Tacloban city gov't starts rollout of Moderna vaccine

TACLOBAN CITY- The city government here has conducted on Wednesday (August 11) the pilot implementation of the first batch of Moderna vaccine in the region.

The vaccination process, both held at the two Robinsons shopping mall branches, was able to provide jabs to 2,700 individuals who belong to the priority groups involving health workers, seniors, and those with comorbidities.

Those who belong to A4 or belonging to economic sectors were also provided with the Moderna vaccine.

Personnel from the Department of Health (DOH) in the region were present during the roll-out to assist the vaccination teams from the City Health Office for the inoculation and proper handling of the vials.

Based on the DOH records, more than 48,500 residents of the city have received the first dose of

which 32,046 of them done with the second dose.

Meantime, the DOH urges the public to have themselves vaccinated regardless of the brand.

It said that while the vaccines would not guarantee that one could not get the dreaded infection, the effects would not be severe.

They reiterated that the vaccines are safe and that vaccines work and it is the most effective way to end the pandemic.

DAR has new PARO Leyte and Biliran provinces

Leadership turnover for DAR Leyte and Biliran provinces

DAR Leyte and Biliran provinces has a new Provincial Agrarian Reform Program Officer II (PARPO II) in the person of Josefina Corazon Turla.

PARPO II Turla took over the post of PARPOII from Renato G. Badilla who will assume the post of Assistant Regional Director for Operations (ARDO) for DAR Regional Office 08.

This is in compliance to Department Special Order No. 283, Series of 2021, issued by the Secretary of the Department of Agrarian Reform.

PARPO II Turla is currently serving as PARPO I of DAR Leyte and Biliran provinces, prior to her designation as PARPO II.

Known for her inclusive, and motherly leadership style, she previously served

Josefina Corazon Turla

as the chief agrarian reform program officer (Carpo) for land tenure services (LTS), a division-level supervisory post.

She was also a municipal agrarian reform officer (Maro) for several years where she earned awards and recognition for being among the consistent performers in the office.

PARPO II Turla rose from the ranks and is a career official with over 30 years of service in the department. (PR)

Palo town credits its smooth vaccination roll-out to its quick vaccination system

PALO, Leyte- The QVac (quick vaccination) system that is being implemented by this town is a big help in making sure of a smooth implementation of the vaccination against coronavirus disease (COVID-19).

The QVac is an automated system that serves as a database and QR code generator to all vaccine recipients and would-be recipients from this town making it more comprehensive to track down vaccination data.

The system also features an automated manner of informing the schedule of vaccinees through text messaging, aside from posting

the schedule at the official social media account of the municipal government.

Palo Mayor Frances Ann Petilla said that although the system is not yet 100 percent perfect, this has helped her town implement the vaccination program orderly and with no complaints from residents.

The town has also around 80 people who are members of the local vaccination team.

"We continue to keep trying to make this perfect as we can, and we can't achieve this without the help and cooperation of

Rebel surrenders to police authorities in Eastern Samar

TACLOBAN CITY- An alleged member of the New People's Army (NPA) has surrendered to police authorities on Tuesday (August 10).

The rebel, identified only as 'Ka Raven,' 40, was said to be part of the pier-3/front 3 sub-regional committee Arctic of the Eastern Visayas Regional Party Committee.

The former rebel surrendered before Police Lt. Col. Joy Leanza, officer-in-charge of the 1st Eastern Samar Provincial Mobile Force Company which is headquartered in Dolores town, Eastern Samar.

Ka Raven, said to be a resident of the said town, also surrendered one unit of 9mm sub-machine gun rifle and ten live ammunitions.

He is now under the custody of 1st ESPMFC

and is now facilitating for his application for him to avail the Enhanced Comprehensive Livelihood Integration Program (ECLIP) benefits accorded to former rebels.

Police B/Gen. Rommel Bernardo Cabagnot, the regional police director, welcomed the decision of the former rebel to surrender and return to the folds of the law.

"(His) return to the fold of the government is the outcome of our relentless campaigns in addressing social issues that lured him in joining the armed struggle, so we must persist and continue what we have started," he said.

Cabagnot, who just assumed his post last August 4, has directed his police personnel in the region to also help address the problem on insurgency.

BFP-8, LGU Balangkayan break grounds for P7.1 million fire station

BORONGAN CITY- The Bureau of Fire Protection (BFP) - Regional Office 8, and the Local Government Unit of Balangkayan, Eastern Samar on Monday, August 9, held a groundbreaking ceremony for the construction of the Balangkayan Municipal Fire Station building.

The groundbreaking was led by S/Supt. Rodulfo Denaga, BFP-8 regional director and Mayor Allan Contado of Balangkayan.

According to Jimmy C. Pasague, BFP acting provincial fire director, the lot was donated by LGU-Balangkayan while the construction of the Municipal Fire Station building is funded by the BFP Central Office with a budget amounting to P7.1 million.

"The said building is part of the modernization program of BFP," Pasague said.

Pasague added that the new fire station building will be a two-storey building with enough space for their fire trucks and a comfortable area for the

firefighters and other personnel.

The acting Provincial Fire Director said that as of now there are four BFP Municipal Fire Station (MFS) buildings that are under construction. These are located in Balangkayan, San Policarpo, Dolores, and Gen. MacArthur.

In San Policarpo and Gen. MacArthur, Phase 1 construction were already done and they are waiting for additional funding for the Phase 2 construction.

In Dolores town, the construction of the MFS is already 50% complete with funding from the Office of Congresswoman Ma. Fe R. Abunda through the General Appropriations Act (GAA).

Pasague further said that in Eastern Samar, there are five municipalities that are waiting for funding such as Arteche, Sulat, Hernani, Lawa-an, and Salcedo.

The municipalities of Maydolong, San-Julian, Mercedes, and Llorente, have no MFS yet while the towns of Maslog, Jipapad, see 5,000 cops /page 16 ...

Leyte Governor Leopoldo Dominico "Mic" L. Petilla led in the cutting of the ribbon during the inauguration and blessing of a 2-storey barangay hall in Brgy. Union, Mahaplag on July 30, 2021. The building is worth P1.8 million funded by the provincial government of Leyte. Joining him were Mahaplag Mayor Daisy Lleve, board members Florante Cayunda and Emmanuel Gacis, Vice Mayor Myrna Solis and Imelda Sievert, OIC provincial agriculturist. (GINA P. GEREZ)

With cases of COVID-19 cases still continues Gov. Petilla, Mayor Romualdez welcome coming of tourists but stressed they must follow all the mandatory protocols

TACLOBAN CITY - Tourists are welcome to visit the region for as long as they will strictly follow all health protocols.

Thus said by Tacloban City Mayor Alfred Romualdez and Leyte Governor Leopoldo Dominico Petilla who both appeared at the recently-held 7th Regional Travel Fair hosted by the Department of Tourism and organized by the Tourism Promotion Board.

Romualdez said that the region is blessed with beautiful natural attractions and destinations where tourists can do various activities such as surfing, caving, and island hopping, then swimming in beautiful beaches or even boating.

But Romualdez said that while he is open to welcoming tourists again, they must strictly follow all the mandatory health protocols as coronavirus disease (COVID-19) continues.

"You can visit our region. We are not that strict but you have to follow the

health protocols like wearing of face masks, and face shields if you are in close proximity with other when in public place," the city mayor said.

"If you will follow these protocols, then you can enjoy all the beautiful sights that our region offers. Most of these are open spaces and provide healthy and delicious foods," Romualdez added.

Travelers who wanted to visit Tacloban only needs to present their vaccination card instead of a negative RT-PCR test if they are fully vaccinated, an acceptance letter and the Tacloban QR code.

But for those who are yet fully vaccinated must present a negative RT-PCR test along with other important documents such as valid identification card.

Gov. Petilla, for his part, said that although tourism is one of the worst affected by COVID-19, the region's tourism industry appears to be thriving, showing resili-

ency by fighting the effects of the pandemic.

"I think our tourism in Region-8 is not totally down, in fact we can still see resiliency. For tourists who wanted to come, they are very much welcome," the governor said.

He added the province has relax some protocols to allow tourism-related facilities like hotels to reopen and restart their operation.

"The sooner we defeat COVID-19, the better for our tourism sector because our tourism sector is one if not the worst hit industry by the pandemic. That is why, here in the province of Leyte we try to relax some of our protocols to allow businesses like hotels to resume operations," Petilla said.

"We try to loosen the

protocols, and look for new ways to lessen the spread and to prevent hospitalization and death of those who will get infected with COVID-19," he added.

Tourism Regional Director Karina Rosa Tiope, cities and provinces that are open to domestic tourists or tourists who comes from other regions of the country are the cities of Tacloban, Maasin, and Catbalogan, and the provinces of Southern Leyte, Samar, Eastern Samar and Northern Samar.

The provinces of Biliran and Leyte, and the cities of Baybay, Borongan, and Calbayog are open for local tourists.

Hard to imagine

Once again, COVID-19 infections in the Philippines are increasing in this seemingly endless pandemic, with an average of 8,850 new infections being reported per day. As of this writing, there have already been 1.66 million infections and more than 29,000 deaths in the Philippines alone.

In case we are wondering just how many 29,000 is, someone suggested we imagine two full Mall of Asia Arenas. That accordingly is how many Filipinos have succumbed to COVID-19 already, which is a huge crowd and a big number of people, indeed.

The rising number of COVID-19 cases, particularly due to the Delta variant in the past month alone, had prompted the government to impose lockdowns again, with the strictest enhanced community quarantine (ECQ) being imposed in Metro Manila, Laguna, Bataan, Iloilo City, and Cagayan de Oro. These are done supposedly to

stop the spread of the coronavirus.

But many people think it is vaccinations, and not another round of lockdowns, that are needed to fight the deadly virus. The COVID-19 Delta variant that is more easily transmissible, having the inherent capacity to infect more vulnerable people at a faster rate, appears to be causing more severe symptoms, especially among those who are not fully vaccinated

Some reports also allege that the Delta variant may have the potential to 'escape' from the current COVID-19 vaccines, and this can significantly contribute to the virulence of the Delta variant and, perhaps, even the Lambda and Kappa variants.

Given all this, we can only imagine what, really, the Delta variant and the prolonged lockdown that it had caused can do to the Philippine economy? How does this affect healthcare and the community?

up to them for help, but even this is difficult for youngsters to fathom since gadgets to them can be learned from instinct. They cannot understand why the former find it hard to acquire manipulative skills.

Accustomed to face-to-face, actual teaching

practice, for instance, older teachers find online requirements and activities really stressful. They ask for help from the younger folks at home, but the latter are also busy and have no patience to teach. This becomes a recurring cause of conflict between them.

It's true that computerization had made work far easier for people. Imagine the tedious, manual computation of grades in a class record which could take hours and days. Yet this was made easier by computer programs like excel and others. The time-consuming computations had become a matter of clicks and enters, and are done in seconds.

Lucky for those teach-

ers who know how to use this application, but for those who don't, they would rather that they stick to the old manner of manual computations. Because with excel, they feel like banging their heads to a rock. Enters and clicks do not help them at all but just ruin their work, instead. And what they destroy, they cannot repair.

Take a look at an old teacher who is made to attend an online webinar. She cannot even enter into the meet though she is provided with a link. And once she gets in, she gets lost inside because of the varying commands and functions there. She

Worried for 2022

I have been to 2022 and what I saw made me cry.

The hospitals had continued their use of cars as emergency rooms and more alarmingly there is what we call as Ambulant Doctors, they roam around houses and look at the patients because they can no longer be admitted in hospitals they have to be intubated at home.

The newspapers still report the 20 thousand daily additional cases for the country with the Department of Health saying that the figure is incomplete because there are some laboratories who was not able to submit results. The

state of public health is in disarray, we have the very same leader of that agency but this time when he talks on TV, he must remove his oxygen mask, apparently, he also has the virus.

He would also give the microphone to the next in rank, the lady is in pitiful state she too was very thin and yet she was still packing some wallop in her word, repeating the very same assuring statements, yet looking at the vicinity where I stand, I cannot believe the words, I was trying to find positive arguments the way things are handled, looking for them in my mind

but I found none. I have heard these words before.

Something deep inside shouts *some things not right!*

Switching channels, I saw a news broadcast; Congress was deliberating on the floor of the Congress Plenary Hall, the agenda was the sale of some Island territories or barter of sorts for vaccines. The Spokesperson is saying that our people need the vaccines, the islands must go. Then the very same guy continued to remind us Hugas Kamay (handwashing), Stay at Home, Get the Vaccine.

The things that we have seen, the fears that we have felt was the very same scenario playing and happening repeatedly. Then I looked at my phone it was December 24, 2022.

And I feel so sad, and I cried.

I was still crying when I wake up. My neighbors are shouting Laban Carlo Laban! And it dawned to me that our Boy Carlo Paalam was defeated by Great Britain's Gamal Yafan. Thus, my tears quietly continued.

expanding plastic pollution crisis. He (Bell) adds that "The only solution to the plastic waste piling up in our communities and oceans is to limit plastic production to essential uses and eliminate the use of toxic chemicals in plastics."

Bell's report was corroborated by Shige Takada's findings that "plastic's toxic chemicals have been found across the world's oceans, coastlines and in the isolated polar region." Thus, fish and seabirds swallow plastic waste contaminated by these toxic UV stabilisers, and it builds up in the food chain." International scientists suggest that governments (the Philippines included), must manage existing stockpiles of plastic waste in an environmentally sound manner and encourage industry to develop an environmentally sound, sustainable system for any plastic produce in the future."

Christian suffering and death

IT'S very interesting to note that after Christ was rightly identified by Peter to be the son of the living God, and after Christ made Peter the rock on which the invincible Church would be founded, Christ proceeded to talk about his impending passion and death on the cross. (cfr. Mt 16,13-23)

That, of course, astounded the disciples so much that Peter went to the extent of saying, "God forbid, Lord! No such thing shall ever happen to you."

For which, Peter received a sharp rebuke from Christ who also went to the extent of saying, "Get behind me, Satan! You are an obstacle to me. You are thinking not as God does, but as human beings do."

This gospel episode, of course, tells us that if we truly follow Christ, then like him, we should not only expect suffering and death but also welcome them. That's because in the first place we cannot avoid suffering and death in this life, no matter how much we try. But more

importantly, if we have the same attitude Christ had toward his suffering and death, we know that our own would have a positive and redemptive value.

This is what Christian suffering and death is all about. It is a consequence of all our sins but is now converted into a means of our salvation, that is, if we suffer and die with Christ.

We need to understand well this basic truth of our faith so that we can avoid suffering unduly or suffering more than we ought. In other words, this truth of our faith enables us to suffer and die properly.

We all need to be reminded that all our suffering has a positive and favorable aspect. It's not all entirely bad and negative, though in itself it will always be bad. But if viewed and lived through our Christian faith, that is, with Christ, there is something in it that can give us a greater good.

Government action needed against plastic pollution woes

'It took a recent foreign report for three (3) Philippine Environmental Health groups to urge the Philippine government to take immediate action against plastic pollution caused by "waste management schemes such as incineration by limiting the production of plastic."

The three Philippine environmental groups namely: EcoWaste Coalition (EWC), Interfacing Development Interventions for Sustainability (IDIS), AND Mother Earth Foundation (MEF), issued a joint statement emphasizing the need to limit "the manufacture of plastic to essential uses and eliminating toxic chemicals in plastic production to halt the swelling

problem of plastic waste in the environment, including the world's oceans."

The aforementioned foreign report entitled "Plastic Waste Management Hazards Waste-to-Energy, Chemical Recycling and Plastic Fuels" by Japan-based International Pellet Watch (IPW) and Sweden-based International Pollutants Elimination Network (IPEN). The same report "showed that chemical recycling plastic-to-fuel and incineration to manage plastic waste is generating highly hazardous waste and toxic emissions." Lee Bell, author of the report, mentioned that "No current management method for plastic waste is capable of alleviating the world's

My media sources in Metro Manila declared that "the Winning Strategy" now of the Pacman camp are (or were) as follows --

1. The boxing bout should be in August or early September -- at least a few weeks before Pacman's filing of his (pang-presidente) Certificate of Candidacy on the first week of October, because the boxing bout (hoping that he wins) would mean an additional 2-3 million votes for his candidacy.

Eastern Samar DEO completes P46.5-M improvement of Dolores fish port

The Department of Public Works and Highways Eastern Samar District Engineering Office (ESDEO) has completed the P46.5-million improvement of Dolores Port in Barangay 1, Dolores, Eastern Samar in partnership with the Department of Transportation (DOTr).

According to District Engineer Ma. Margarita C. Junia, the project includes the construction of flood control with a length of 101.44-meters, construction of PCCP with 116.50-meters length and 5-meters wide.

The flood control structure is also beneficial as it will protect the lives and properties of the residents living near the ocean especially during storm surge.

“The improvement in Dolores fish port will also provide better access to the nearby island destinations to locals and tourists. And will provide fast transportation or delivery of goods, services and marine products from the islands to the market,” DE Junia added.

In addition, the construction of the said project was started on October 7, 2019 and completed on May 15, 2021.

Palo town launches search for meritorious service award

TACLOBAN CITY-The local government unit (LGU) of Palo in Leyte is now accepting nominations to the first Meritorious Service Award (MSA) as one of the highlights in this year’s Palo Quintennial Celebration of Christianity.

“It is high time that we give honor and recognition to individuals, alive or posthumous, who have contributed much to the rich arts, culture, education, and history of Palo,” said Mayor Frances Ann Petilla during the lunching program held last August 5, 2021.

“These impeccable and meritorious persons deserve a legacy for making Palo what it was, it is, and what it will be,” the mayor added.

Anchored on the history, culture and arts and spirituality of the people of Palo as it turns 500 years in its evangelization, the LGU aims to “recognize groups and individuals who may be alive or dead for their meritorious contributions to Palo in the last 500 years.”

MAYOR FRANCES ANN PETILLA

Other meritorious service awards are the young achiever award, OFW model family award, and other possible awards to be identified by the search committee headed by Petilla, together with Vice Mayor Ronnan Christian Reposar, Councilor Imelda Parado, and Palo Archdiocese Vicar General Msgr. Gilbert Urbina.

“The recipients must be a permanent resident of Palo or have lived or worked in Palo for five years or more. For the posthumous award, the recipient must have worked or recognized for 20 years of more on the field/sector identified,” the LGU said in a statement.

“All recipients must be of good moral character,” it added.

Individuals, family or groups may be/not be resident/s of Palo, but they have meritorious and sustainable contributions within five years or more services rendered for the welfare of Palo and its people. The awards may be in individual or group/family category.

The search committee shall assess each nomination using the following criteria namely achievements/awards (30 percent), meritorious service (20 percent), community involvement (30 percent), and impact (20 percent).

The MSA was proposed by Parado with academician Reynaldo Garnace as a consultant.

Other members of the committees comprised the locals and notable personalities of Palo.

For MSA nomination forms and inquiries, contact the Palo Action and Linkage Office at 0935-620-9610/ 0930-583-5555 or email palolgu@gmail.com.

Sa wala damha,nautro ang sa una
Dakong nabag-ohan sa pamaagi sa pag-eskwela
Kung sa una sayo kaayo ka, maghikay mag-andam padong eskwela
Mas nisamot karon kay tibuok adlaw kang nag atiman nga murag yaya ug maestra pa

Dunay higayon nga kadilion gayud ka
Pero wala gayud kay mahimo maong musunod nalang ka
Kaysa mahabilin imong mga bata kun dika magpaeskwela.

Kung lunes muadto ka sa tunghaan aron pagkuha sa modules ngadto kang maam
Pahimos og pangutana sa tanan
Kay layo raba nig balik kun nay di masabtan

Nig uli sa balay,mga bata nagmulay
Mandar dala Singhag hudyat magpun dukay
Aron sa pag anser sa modules hinay hinay

Si nanay naghikay samtang sila nag anseray
Tawag si manghud,nangutana unsay sunod
Tawag si kamaguwangan sakto bang gianseran,
Tawag si tunga tunga, nga wala siya magpatuha tuha
Kay wala mahibawo sa gipagama maong nihunong ug nihigda

Paglili ni nanay, mura siyag natugkag sungay
Pakakita sa anak nga nagpauraray
Nagbitbit dayon og kighay
Walay lain nalitok si nanay
Kundi ikaw nga batang inatay

Duna pod koy nabatian
Hisgot kini sa ginikanan
Mga magtutudlo kuno bulahan
Kay walay estudyanting giatubang

Tubag pod sa magtutudlo
Ginikanan ayaw pagmulog
Nga kamo naggiya og nagtudlo
Sa mga buluhaton sa anak ikaw namumo
Unsaon taman maestra way mahimo
Misunod lamang IATF nga mando

Ginikanan Ayaw lamang ikahiubos
Nga ing ani nga sitwasyon nag-antos
Kay maestra usab wala man mangatulog
Sa laptop og printer nag atubang og napiraw,
aron modules nga baga maandam og mahuman

Samtang ako naglakat sa dalan
Ako nakurat sa akong nadunggan
Dukdukon daw ang alimpuhan
Kay di musabot bulok man
Pati mga kamot apil katigbasan
Di musuwat sa iyang anseran

Sininggitay na walay kahumanan

Mihunong kog akong gipahinumduman
Hinay hinay ra o mahal kong ginikanan
Basin sa TULFO ang kahantungan

Maestra sa una maglikay
Pagdisiplina sa kabataan ipahan-ay
Kay lagi isog ang nanay
Kiha dayon kung di magkasinabtanay

Karon inyo ng nasayran
Ang trabaho sa magtutudlo sulod sa eskwelahan
Dili pana igo ang tanan
Kay daghay bata nga lain lain og batasan sa maestra masugatan

Ginikanan ayaw ipadayon ang yangungo
Kay mga maestra usab nag ampo
Nga mabalik na kita sa normal na tagpo
Aron kalidad nga edukasyon mapupo

Ato na lamang buhaton
Tim-os nga pagtinabangay lig-unon
Aron kitang tanan magmalampuson
Para sa kabataan nga kaugmaon

Northern Samar Rep. Paul Daza received S/supt. Rodolfo Denaga, the regional director of the Bureau of Fire Protection who paid him a courtesy visit at his congressional office in Catarman town last August 9. During their meeting, several issues and concerns were discussed aimed at strengthening the bureau's continuing program particularly during and in the aftermath of fire incidents and as well during emergencies. Also present during the visit were Supt. Joselito Sabandal, deputy regional director for operations, S/Insp. Erwin Limbauan, chief logistics division and S/Insp. Herme Bolosino, BFP provincial chief. DPWH Eastern Samar generates over 19K Jobs during Duterte's administration

The Department of Public Works and Highways – Eastern Samar District Engineering Office generated a total of 19,628 jobs from 2016 to 2021.

By which 2,080 of it were hired as Admin Staff, 695 were Engineers and 16,853 were construction workers from the 695 regular infrastructure projects of CY 2016 – 2021.

In 2020, when the economy was hit so hard because of the challenges brought by the COVID-19 pandemic, ESDEO still managed to produce 3,915 jobs; 405 of it were Admin Staff, 135 were Engineers and 3,375 were construction workers from the 135 infrastructure projects.

And as of July 2021, to which the economy is still in the midst of the pandemic, a total of 2,363 jobs

were generated wherein ESDEO hired 241 Admin Staff, 82 Engineers and 2,040 construction workers from the 82 infrastructure projects.

Despite the challenges brought by the pandemic, DPWH strives to cope and help the economy through producing jobs from the infrastructure projects in the District Offices.

DPWH Secretary Mark Villar said in the launching of the DPWH “Bigay Trabaho” Program on August 9, 2021 that the department coordinated with the Department’s contractors and conceptualized to provide local employment amid numerous layoffs due to COVID-19 pandemic.

Secretary Villar then said that the Build, Build, Build Program will still require millions of local manpower nationwide despite

the current challenges of the pandemic.

Similarly, ESDEO District Engineer Ma. Margarita C. Junia supports the agency’s vision and also encourages the ESDEO project contractors in providing local employment to the Estehanons to help them thrive during these challenging times.

A construction worker in the Maypangdan Flood Control Project in Borongan City, Rommel Limpango, said in an interview

Northern Samar receives excellence award in DRRM

CATARMAN, North-ern Samar- The Province of Northern Samar was recognized for its excellence in Disaster Risk Reduction and Management during the culminating activity of the National Disaster Resilience Month with the theme: “Tamang Pamamahala’t Kahandaan, Kaalaman at Pagtutulungan sa Sakuna at Pandemya’y Kalasag ng Bayan” last August 9, 2021, through a virtual awarding.

Upon assessment and validation by the Regional Disaster Risk Reduction and Management Council, the province was found to

be Beyond Compliant. This means that the Provincial DRRM office of Northern Samar and its council has exceeded the standards for the establishment and functionality of the Local DRRM council and Local DRRM office as prescribed under Sections 11 and 12 of Republic Act 10121.

Meanwhile, the municipalities of Catarman and San Roque, Northern Samar were also recognized as Fully Compliant LGUs during the said event. The two municipalities received the award for generally adhering to the standard for the establishment and

functionality of the Local DRRM council and Local DRRM office.

The province of Northern Samar was among the 3 recipients of the said award in Eastern Visayas - with the Province of Southern Leyte and the City of Ormoc.

The excellence award serves as a fruit and a proof of the Provincial Government’s resiliency efforts towards realization of the vision of Governor Edwin Ongchuan for a “Marig-on, Mainuswagon, ngan Malipayon nga Nortehanon”. (NORTHERN SAMAR PROVINCIAL INFORMATION OFFICE)

Our pains and suffering are always the result of sin, ours and those of the others. They are the necessary consequence of our separation, whether temporary or permanent, from God from whom all good things come. (cfr. Ps 16,2; James 1,17) We may not be the direct cause of our own suffering, but in this world, we cannot escape the effects of sin, and so we must be ready for them just the same.

We have to remind ourselves that we are not meant to suffer. Our original as well as our ideal definitive state in heaven excludes suffering. Our first parents, Adam and Eve, were in the state of original justice, where everything was in

order and in harmony. No pain and suffering touched them, until they fell into sin.

And as the Book of Revelation would put it, in our definitive state of life in heaven “He (God) will wipe every tear from their eyes. There will be no more death or mourning or crying or pain, for the old order of things has passed away.” (21,4)

In this life, we have to expect and be prepared for

the unavoidable pain and suffering. And this means that whether we are guilty or not of our pains and suffering, all we have to do is to go immediately to Christ who shows us how to handle our pains and suffering and who is ready to forgive us if ever we are guilty of suffering.

We should have this Christian attitude toward all our suffering and death in this world!

UNBEATEN SPENCE IN VEGAS !”

6. Welterweight champ Errol Spence, Jr., the 31y/o World Boxing Council (WBC) & International Boxing Federation (IBF) champ with 27wins with No loss, withdrew from their August 21st boxing bout with the 43y/o Pacman who owns a record of 62-7-2 (win-loss-draw) because of a “retinal damage on his left eye.”

7. The following headline superseded the above Item #5 “SPENCE OUT, PACQUIAO TO FACE UGAS to substitute for Spence.

8. World Boxing Association (WBA) Champion 35y/o YORDENIS UGAS from Cuba with a record 26-4 (win-loss), suddenly replaced Spence against Pacquiao, with Pacman’s camp insisting on keeping the date as mentioned in Item #1 above.

9. Well, as expected (with he political climate now in the air, and as confirmed by our media

sources in Metro Manila, detractors & critics of Senator Pacquiao, unfairly asks “With Pacman’s millions of dollars in U.S. banks, “magkano ang pagpa-withdraw cay Spence at magkano naman ang puersadong replacement boxer na si ill-prepared Ugas sa August 21 boxing bout?

(Yep, that’s how dirty is our politics here !)

10 Err, couldn’t the boxing bout be postponed until after the may elections (para walang duda)?

11 Nope, the Pacman - Ugas bout has to follow Item #1 above, as insisted by the Pacman camp.

12 So irregardless of where you’re seated in the political fence, let’s just hope and pray that our “pambansang kamao” wins on August 21st because the May elections next year is definitely another story..

Abangan ang Boxing Bout sa August 22 (kinabukasan dito sa Pilipinas) !

Samar Gov. Tan favors a Duterte-Duterte tandem for next year's polls

CATBALOGAN CITY- He will go for a Duterte-Duterte tandem for next year's presidential elections.

Thus said Samar Governor Reynolds Michael Tan who said that the father and daughter tandem could be acceptable to the Filipino people considering of their respective achievements.

"Personally, I will go for a Duterte-Duterte because it cannot be denied that the President has made a lot of achievements like on his campaign against drugs, insurgency and even on road clearing," Tan, who belongs to the ruling PDP-Laban, said.

And as to Mayor Sara Duterte, she too has made Davao City progressive, the governor added.

The younger Duterte

has, however, yet to formally declare whether she will run for President while Pres. Duterte said that he is open to running for Vice President.

Asked if the Philippines is ready for a Duterte-Duterte tandem, Gov.Tan said that while it still "remains to be seen," he believes that with their achievements, they can get the nod of the majority of the Filipino voters.

But Gov.Tan said that while he has made his personal choice, whatever will be the decision of the PDP-Laban of which he is affiliated, he will respect it, Tan said.

Tan belongs to the biggest political family in Samar whose sister, Sharee Ann Tan, is an incumbent

congressional district representing Samar's second district.

His late mother, Mila, both served as a congresswoman and governor.

As to next year's elections, Tan said that he is surely considering of seeking for his own full term.

Tan assumed the post of governor from his mother who died on November,2019.

He also said that his elder sister, Sharee Ann, will seek for another term as Samar's congressional representative representing the second district.

Former vice governor Stephen James Tan, his elder brother, will also run though he declined to say what position.

Education thrives amid pandemic

BY: MELFE GRACE A. SANCHEZ

The Department of Education (DepEd) personnel need all our support, understanding, and encouragement as they religiously performed their job of educating our children amid the threats of coronavirus disease (COVID-19).

Teachers and school leaders have utilized multiple learning delivery modalities to keep the teaching-learning experience alive, following the call of DepEd Secretary Leonor Magtolis Briones to all stakeholders to "act together and learn from the past."

"We should innovate from the one year of dealing with the impact of pandemic. We cannot continue doing things the way we did. Let's get ready and let's do what we need to do. Do not be afraid," came the encouraging words of Secretary Briones during the National Brigada Eskwela kick-off ceremony for school year 2021-2022.

"Let us go on with what we have, what we can do, and what we are able to achieve. Let us focus on our work in the Department of Education," the education secretary added.

Aptly said, DepEd personnel themselves have learned a lot from the changes in today's educational landscape brought by the pandemic. Through the Basic Education - Learning Continuity Plan (BE-LCP), our DepEd personnel are now more confident and committed in the performance of their duties and responsibilities despite the health crisis.

DepEd has provided another form of quality teaching-learning experience, with the use of self-learning modules, radio, television, and the internet.

To ensure convenience and "unhindered communication," the department has also distributed connectivity load to its personnel aside from ongoing computer provision. The department also gives regular In-service Training (INSET) on various topics to equip the teachers in the new normal classes.

The department hoped that the current health crisis will also "further transform" the country's education system as it responds to this drastic change. With the help of all stakeholders, DepEd will surely surpass these challenges and continue to thrive for the sake of our future.

DOH reports of Alpha, Beta, Delta, P.3 variants in the region

TACLOBAN CITY-Variants of coronavirus disease (COVID-19) ranging from Alpha, Beta, Delta to variant under investigation P.3 have been detected across the region, the Department of Health (DOH-8) announced Thursday (August 12).

And the DOH said investigation is still ongoing as to how these variants could have entered the region considering patients detected to have the variants have no history of travel outside the region.

“All cases are considered to have been transmitted locally due to absence of any travel history outside the region amongst the individuals with the detected cases,” Dr. Marc Steven Capungcol, head of the surveillance and epidemiology unit, said during a virtual press conference last Wednesday (August 11).

The cases include three of the Alpha variant

or B.1.1.7 first identified in the UK, seven cases of the Beta variant or B.1.351 first identified in South Africa, one more case of the Delta variant or the B.1.6.1.7 lineage first identified in India, and seven cases of variant under investigation P.3 first detected in the Philippines.

Capungcol said that all these cases are still from the same set of 214 samples sent to the Philippine Genome Center for sequencing between June and July.

The three Alpha variant cases are from the cities of Ormoc, and Tacloban, and Eastern Samar while the seven Beta variant cases are from Samar (3), Eastern Samar (2), Northern Samar (1), and Biliran (1).

With the initial 10 reported cases of the Delta variant in the region, the agency’s Surveillance and Epidemiology Unit received another case detection of the said variant of concern in Borongan City bringing the total Delta

variant cases in the region to 11.

Meanwhile, the seven confirmed cases for the variant under investigation (P.3) are from Samar (2), Eastern Samar (2), Tacloban (1), and Ormoc (2).

The DOH stressed the importance of active case monitoring, surveillance, and contact tracing up to the third generation of all confirmed cases to control and contain any possible further transmission.

“This is imperative as the hospital utilization rate of the hospitals in the region is affected by the salient surge of COVID-19 cases,” Capungcol said.

“Currently, the hospital utilization rate of Ormoc is at a high risk level, moderate risk for Tacloban, and Samar, and the rest are still at a low risk level,” he added.

The regional health department called on the public and local leaders to observe the intensified implementation of the prevention, detection,

isolation, treatment, reintegration strategies across all settings, stricter border control, and proper adherence to the minimum public health standards.

Capungcol maintained that “whole genome sequencing, or the comprehensive method used to determine other variants of concern, is conducted to guide the overall response strategies of the government and to determine if variants are causing spike in cases, and thus should not be used as point-of-care strategies.”

“Regardless of the presence of a variant of concern, the management and interventions for these cases remain the same,” Capungcol said.

As this developed, the regional health stressed the importance of vaccinating priority groups A2 (senior citizens) and A3 (persons with underlying conditions) since they are at high risk for severe Covid-19 cases and death.

“Vaccines are effective

in reducing morbidity and mortality due to Covid-19, which will be very instrumental in the institution’s primary goal of saving lives,” it said.

As of Friday, Eastern Visayas logged 147 new COVID-19 cases, bringing the region’s total number of cases at 38,059 with total recoveries at 36,444 266, total deaths at 431 and total active cases at 1,184.

Tinambacan Elementary School- A multi-awardee school

BY: HERMILO P. DIOSO

Tinambacan Elementary School is a small school situated in a far-flung barangay of Jaro, Leyte. It belongs to Jaro II District. It has seven very passionate, dedicated and competent teachers from Kindergarten to Grade VI with their very workaholic, brilliant and innovative principal Mr. Edgar Cativo.

This school is the pride of Leyte Division because of being a multi-awardee school. Besides, the beauty of the school is like a paradise which can capture the love of the people who will enter the school.

This school was a consistent winner of Brigada Eskwela in small school category in the division, region and national level. Likewise, this was also a winner in Gawad KALASAG and Eco-Friendly School. It won two National Awards in Brigada Eskwela.

In SY 2017-2018

Tinambacan ES received its first national award in Palawan. And the second national award was in SY 2018-2019, which was held in Dipolog City in Zamboanga Del Norte.

I was able to witness the said awarding ceremony because my wife Dr. Joy I. Dioso was the District Head of Jaro II District that time. We both accompanied their principal Sir Edgar Cativo, with teachers Julie Ann Canaber and Lady

Diana Oliquino, with our Division SGOD-Chief Dr. Rhodelia Orbino and Ma'am Melcanie Maureal.

Attending such prestigious National Awarding Ceremony was a great honor and very awesome experience which inspired me to make my school like Tinambacan ES someday.

Economic vision, resiliency soar high on Charter Day rites

DANA O FOREST PARK, Maasin City- Gov. Damian Mercado of Southern Leyte shared his vision of an economic zone in the next five years, saying he intended this development to benefit the young.

Speaking at a ceremony marking the 21st anniversary of the city held Tuesday in a sprawling oval in this

forested area, the governor directly addressed the Sangguniang Kabataan youth leaders about his desire for them to be economically productive while living here in the city and province, not in other places.

“My plan, my dream, is that you should no longer venture to other places, to other countries, in order

to find jobs. Your expertise should have been used here in our place, not in other locations,” Gov. Mercado emphasized, talking in the dialect.

To make that happen, the governor said he will exert efforts at establishing an economic zone by expanding the city’s land area and enticing locators to come

and put their investments, a move that will spell work as more opportunities for employment become available.

In the year 2000 on August 10, Mercado was mayor then when the people approved in a plebiscite a law which transformed the town into a city, and since then a reclamation project provided space for busi-

nesses to flourish.

A similar venture is about to take shape with the initial construction of a causeway preparatory for another reclamation project off barangays Combad and Lib-og the moment documents are in order, Mercado said in an interview with local media right see Economic/page 16 ...

Agencies, LGUs need to align transition plans for devolution

TACLOBAN CITY – The Department of Budget and Management (DBM) has called on national government agencies and local government units (LGUs) in Eastern Visayas to strengthen its coordination to prepare for the Supreme Court ruling that will give more functions to local governments starting 2022.

DBM Eastern Visayas regional director Imelda Laceras said during a virtual orientation on Thursday (August 12) that all departments and agencies of the national government should continue reviewing their respective priorities, strategic plans, and functions to reflect the progressive operationalization of the full devolution of basic services and facilities.

Laceras said several national government agencies (NGAs) already have transition plans that include identifying devolved functions and services, service delivery standards, capacity development strategies for LGUs, a framework for monitoring and performance assessment of LGUs, and organizational effectiveness proposal.

“Some LGUs are now starting their transition plans. They have been asked to prepare their transition plans in close coordination with NGAs. Their plans will serve as guides on the monitoring and performance assessment of LGUs by the NGAs concerned, DBM, and DILG (Department of the Interior and Local Government),” Laceras told participants.

Executive Order No. 138 and its Implementing Rules and Regulations mandate all provinces, cities, municipalities, and villages to prepare their devolution transition plans in close coordination with the concerned NGAs to guide them towards the full assumption of devolved functions and services that come with more financial resources.

“This is working progress in the next three years. Let us not lose sight to continue with devolution despite birth pains during the first year of implementation. Through coordination, we can improve, refine and modify the transition,” Laceras added.

The Supreme Court Mandanas-Garcia ruling resulted from the petition made by Batangas Governor Hermilando Mandanas and former Bataan governor Enrique Garcia Jr. before the Supreme Court on local government shares on internal revenue allotment (IRA).

According to the petitioners, LGU shares should include all national taxes.

The Supreme Court affirmed that local government units are entitled to a “just share” on all national taxes collected and not only from the Bureau of Internal Revenue (BIR).

At present, the local government’s IRA share comes from 40 percent of national internal revenue taxes collected by the BIR.

With the Mandanas-Garcia ruling implementation in 2022, it is projected that LGUs will have a 27.61 percent increase in the overall IRA shares.

With the increased budget share, the LGUs are expected to be responsible for the funding and delivery of the activities which have been devolved to them under Republic Act 7160, the Local Government Code of 1991, and other subsequent laws.

Among the functions assigned to local governments based on the Local Government Code are agriculture programs, local infrastructure, environmental services, revenue mobilization, health services, maintenance of peace and order, employment facilitation, transportation, tourism, and housing.

RDC report shows over 29K ‘Yolanda’ housing units now occupied

TACLOBAN CITY – The Regional Development Council (RDC) in Eastern Visayas on Wednesday (August 11) reported that some 29,422 housing units for victims of Super Typhoon Yolanda are already occupied while 11,266 are ready for occupancy out of the 64,696 target units.

“The remaining 1,279 units still lack electricity and water supply and are not yet ready to be occupied,” the RDC regional project monitoring committee stated in a report posted on the website of the National Economic Development Authority in Eastern Visayas.

After more than seven years, challenges remain in the completion of the post-Yolanda housing projects, according to the region’s highest policy-making body.

“These include delays due to unfavorable weather conditions, lack of manpower and resources deployed on-site, additional works to suit actual field conditions, delayed issuances of permits and licenses from the local governments and other agencies, among many others,” the RDC added.

The council also reported that the Local Water Utilities Administration (LWUA) recorded a 96 percent completion on the Tacloban North

Water Supply Project. The system is designed to bring a stable water supply to 21 resettlement sites.

For other resettlement sites in the region, the LWUA reported that 13 projects were completed, 20 are ongoing, 56 are in the pre-construction stage, while two were suspended.

“This was due to a dispute on the ownership of the spring source. Per LWUA, the concerned water districts are negotiating for a new site of their spring water source,” the council added, referring to the suspended water project.

Meanwhile, the National Electrification Administration (NEA) has

completed 57 of the 155 electrification projects for the original Yolanda housing project.

Some 42 sites are for identification of the developer, 44 sites have tapping points energized, and 12 are for bidding or construction.

The NEA is in close coordination with the Inter-Agency Task Force (IATF)-Yolanda Project Monitoring Office and the NHA (National Housing Authority) to secure the list of awarded beneficiaries for the NHA housing projects, according to the RDC committee.

“The NHA, LWUA and NEA assured the RDC that they are acting to address the issues they are facing in the completion of the housing units, in coordination with IATF-Yolanda and other concerned entities,” the RDC reported.

“Yolanda,” said to be the strongest typhoon in world history, struck the central Philippines on Nov. 8, 2013 and wreaked havoc on 175 cities and towns in 14 provinces in six regions. The disaster killed more than 6,000 people.

The total damage cost and losses in affected areas reached P101.79 billion, of which P48.79 billion were recorded in Eastern Visayas.

Palo residents,” Mayor Petilla said.

The municipality is targeting more than 50,000 residents to be vaccinated from its over 70,000 population.

But since the town started its vaccination rollout, over 8,000 residents have so far received the vaccines.

This is not because few people wanted to be vaccinated but because of the minimal supply of vaccines that were allocated to them, Petilla said.

The town mayor hopes that in the coming days, Palo will receive more vaccines so it could accomplish its target number of population who will be inoculated.

Aside from Sinovac and AstraZeneca vaccines that was allocated to the municipality, the town recently receive allocation for Pfizer for pilot implementation and Moderna vaccines share from the provincial government.
