## Amid COVID-19 threat

# Gov. Petilla proposes protocol for the return of face-to-face classes

ROEL T. AMAZONA

TACLOBAN CITY - Leyte Governor Carlos Jericho Petilla suggested that a protocol must be crafted relative to the resumption of face-to-face classes which are to start next Monday, August 22.

Petilla made this proposal during a recent meeting with education officials of the province.

The governor said that they will sit down with officials of the Leyte schools division headed by superintendent Manuel Albaño to craft the protocol which they aim to release before

the opening of classes.

"We have to agree on the protocols," Petilla said.

Citing as protocol examples is the wearing of face masks, what to be done if a student tested positive of coronavirus disease (COVID-19), and if they will allow children to eat in schools or will just

go home to eat.

"We'd like to make sure that we will not go to that extent wherein majority of our students will get sick," Petilla added.

Leyte has 1,358 public and private schools which are now ready for

see Gov. Petilla / page 7 ...

ANTI-DENGUE CAMPAIGN. With the resumption of face-to-face classes next Monday (August 22), the city government of Tacloban through its health office is conducting fogging operations to all public schools in the city to ensure coming-back students and teachers will not get dengue fever.

# Sexagenarian found dead in a drainage canal in Southern Leyte town

ORMOC CITY- A sexagenarian woman was found dead in a drainage canal last Friday (August 12) in Barangay Ilihan, Macrohon, Southern Leyte, the local police said.

Town police chief, Major Rolando Paloma, identified as Pacita Latosa, 64, widow, a resident of said village.

Case investigator Police Master Sergeant Rechi Selencio, in a telephone interview, said that their station received a report from Ranil Miole, a councilor of Ilihan, informing that there was a cadaver of a woman in the drainage canal beside the road of their barangay.

He said that they immediately responded to the incident together with the rescue team from the Macrohon's fire office and upon arrival in the area found the victim in a drainage canal.

Selencio disclosed in the interview that the victim was last seen cleaning the surrounding of their house about 2 pm.

It was theorized that the victim threw the grasses she gathered during

**A 64-year old woman was found dead in a drainage canal in Macrohon, Southern Leyte last August 12. Probers ruled out any foul play on her death.**

*(Photo Courtesy)*

cleaning the backyard of her house but accidentally fell to the ravine about 15 feet and landed in the drainage canal unnoticed by her neighbors.

The police investigator said that a passing driver

of a dump truck noticed the body of the victim in the drainage and reported the matter to the barangay, where the barangay called the attention of the police station at about 4 pm.

# Waitress yield suspected shabu during buy-bust in Maasin City

ORMOC CITY- A waitress was arrested by the City Drug Enforcement Team (CDET) in Maasin City during a buy-bust operation.

Maasin CDET Chief Police Capt. Chloe Sergio Jun Lapastora, identified the suspect as Lilibeth Gu-

zon, 38, married, a waitress at Travelers KTV, and a resident of Brgy. Mantahan, Maasin City, Southern Leyte.

Recovered from the possession of the suspect during the sting operation in Brgy. Tagnipa at about 10 pm was a sachet contain-

ing a white crystalline substance suspected to be shabu acquired by an operative for consideration of P1,000.

During the conduct of a body search in front of barangay officials and a representative from the Department of Justice, the operatives recovered from the possession of the suspect a transparent plastic sachet that also contained three more sachets containing the same white crystalline substances suspected to be shabu with an estimated value of P3,000.

No statement was issued by the suspect when interviewed by media at the detention cell of the Maasin City Police Station.

Charges of Violations of RA 9165, the Comprehensive Law against Illegal Drugs of 2002, were filed

**Senators Christopher Lawrence 'Bong' Go and Robinhood 'Robin' Padilla attended the 22nd founding anniversary of Maasin's cityhood last August 11. They were joined by local officials led by Governor Damian Mercado and Maasin City Mayor Naccional Mercado. (Photo Courtesy)**

# Attended by Sens. Go and Padilla, public utility drivers of Maasin City get cash assistance from the government

TACLOBAN CITY- About 1,201 tricycle drivers from Maasin City received P3,000 cash assistance from Department of Social Welfare and Development (DSWD) under its assistance to individuals in crisis situation (AICS) program.

The ceremonial turnover of the cash assis-

tance, held last August 11 and attended by 300 beneficiaries, was attended by Senators Christopher Lawrence 'Bong' Go and Robinhood 'Robin' Padilla together with local officials led by Governor Damian Mercado and Maasin City Mayor Naccional Mercado.

The visit of the two solons coincided with the founding anniversary of Maasin as a city.

Go, in his speech, said that people of Maasin should not thank them for the cash assistance given to them.

"Instead, we should thank you because we came from the province

but you have given us the privilege to serve you," he said.

Go, noting that cases of coronavirus disease (COVID-19) are now rising, also asked the public to get a booster shot against the virus for them to get protected from the virus.

Padilla, who spent his Christmas and New Year in Southern Leyte during the aftermath of 'Odette,' also expressed his gratitude that he was able to go back to the province and thanked them for making him Number 1 in the recent senatorial race.

# Fish vendor arrested for peddling illegal drugs

ORMOC CITY- A fish dealer was arrested by the Station Drug Enforcement Team of the local police station for selling a suspected illegal drug during a buy-bust operation at about 9:52 am on Saturday (Aug. 13).

Police Major Jason Balbarona of the Bato police station identified the arrested suspect as Ricky Bonote, 27, married, fish peddler, and a resident of Barangay Inguihan where the sting operation took place.

The local police tagged

the suspect as a Street Level Drug personality of their town.

Recovered from the possession of the suspect was one sachet containing a white crystalline substance suspected to be shabu procured by an operative in the amount of P1,000.

During body search, the operatives recovered from the pocket of the suspect two more sachets containing white crystalline substance suspected to be shabu with an estimated value

of P3,000.

Charges of violation of RA 9165, the Comprehensive Law against Illegal Drugs of 2002 were immediately readied by the local police against the suspect who is now detained at the lock-up cell of the Bato Municipal Police Station.

## 4 Leyte towns form tourism circuit to attract more guests; gets support from DOT

TACLOBAN CITY – Four towns in Leyte province had formed an alliance to create a tourism circuit promoting their tourism sites to attract a wider market.

Headed by the municipality of Palompon, the circuit's other members include Matag-ob, Isabel, and Merida, all from the fourth district of Leyte province.

This plan was presented by mayors of the four towns to Tourism Regional Director Karina Rosa Tiopes and members of the Eastern Visayas Tourism Association.

"We are very happy that there are tourism sites that are relatively market-ready," Tiopes said.

She added that they will still assess some of the sites that were presented to them to know if these are already tourists ready including the tourism frontliners which are the people or the community.

"The success of your sites depends how you manage the place, the discipline of the community, and how you provide services," Tiopes added.

Local officials from the four towns and the Department of Tourism (DOT) agreed that assessments are need to be done to determine the series of trainings needed by frontliners and stakeholders to have a seamless tourism in the area.

Of the four, Palompon is popular among tourists for its Kalanggaman Island, considered as the premier tourist destination not only in Leyte but for the entire Eastern Visayas.

They also have the Tabuk Marine Park Fish and Bird Sanctuary, the Terrestrial Eco-adventure Park, the Masaba ecological park, and the Sky Garden and eco-village.

In Matag-ob town, destinations are the Bondari see 4 Leyte /page 8 ...

## 34 former NPA members receive assistance from the government; Army exec hope offers will result for more rebel surrenderees

CATARMAN, Northern Samar-About 34 former members of the New People's Army (NPA) who previously surrendered to the 43rd Infantry Battalion received financial support under the Assistance to Individuals in Crisis Situation (AICS) of the Department of Social Welfare Development (DSWD) amounting to a total of P260,000 last August 12, 2022.

Each former rebel received cash assistance of P5,000 while those who surrendered with a firearm received an additional P5,000 as firearms remuneration.

The AICS is part of the DSWD's protective services for individuals considered as poor, marginalized, and vulnerable or disadvantaged.

Also, it complements the Enhanced Comprehensive Local Integration

Program (E-CLIP) under Executive Order 70 that provides immediate transition assistance to rebels who return to the folds of the law.

Lieutenant Colonel Manuel Degay Jr., the commanding officer of the 43rd IB which is based in Lope de Vega, is hopeful that the several programs being offered by the government will result for more rebels to surrender and live a normal life.

"To our brothers and sisters who are still fighting a lost cause, this is the best time to go down from hiding and embrace a normal life with your families and loved ones aided by our array of government programs. It's time to give back to your families and to the formerly affected communities in the countryside who were also victims of the hate campaign and other propaganda perpetrated by the CPP-NPA-NDF," Degay said. (EUGENE M. ENANO)

# Fire hits public school in a Leyte town

ORMOC CITY-The local Bureau of Fire Protection is conducting a thorough investigation over the fire that gutted a national high school in Hindang, Leyte last Sunday (August 14).

The fire gutted the school library, computer laboratory, and the school clinic of Hindang National High School which were mostly made of light materials.

The local police who responded to the area said that the fire started at the school library at about 8:30 am, says Police Corporal Aladin Molina.

He said that because the building was made of light materials, the fire easily spread to the room beside the library. He added that because of the magnitude of the fire, the local fire bureau has asked for assistance neighboring municipalities to assist them in putting off the fire.

Cpl. Molina disclosed that fire trucks from the

Municipalities Matalom, Hilongos, Inopacan and Baybay City arrived in the area to put off the fire. He said that the fire was controlled about 9:45 and declared as fire out 10:55 am.

It was learned that the Hindang National High School has 21 classrooms but only one classroom was damaged.

The school properties inside the school that were damaged by the conflagration were the E-classroom with computers, laptops, photocopying machines, air conditioning units, among others; the Science Laboratory with equipment, apparatuses, and furnitures; library with books, furnitures, and mono blocks; and the canteen with stored armchairs, the school stage; and a classroom.

No injury was reported because of the fire but the damage is still being estimated with faulty electrical wiring considered as a possible source of the fire. (ROBERT DEJON)

A two-hour fire consumed several structures of Hindang National High School on Sunday (August 14) morning with faulty electrical wiring seen as the possible cause of the conflagration.

(Photo Courtesy)

## Schools now ready for face-to-face classes DepEd announces of over 889,000 enrolled students

TACLOBAN CITY – The Department of Education (DepEd) reported that 889,144 students across the region have so far enrolled for this school year.

The number of enrollment, however, is expected to increase as enrollment is still ongoing for the resumption of classes which are to start next Monday (August 22).

Last school term, there were 1.30 million students enrolled in the region covering all levels or from Kindergarten up to Grade 12.

DepEd Regional Director Evelyn Fetalvero said that one possible reason why there are still students who are not yet enrolled is due to the usual mentality of some parents who would enroll their children on the last week or days of enrollment.

Fetalvero said that they

are hoping to reach the 100% enrolment before the start of classes next Monday.

The education official asked their stakeholders to assist them in encouraging the parents to have their children to be enrolled.

Of the initial enrollment data, 437,054 are enrolled in the elementary; 300,686 are in junior high school; and 149,383 are in senior high school. About 2,021 are in non-graded.

The region has a total of 4,182 public schools that are now ready for the resumption of face-to-face classes after two years of modular and blended learning implemented due to the coronavirus disease (COVID-19) pandemic.

Since the COVID-19 still exists, a protocol was issued in relation to the start of face-to-face classes.

Based on Department Order 34 Series of 2022, students will still need to wear face masks when attending their class, physical distancing should be observed, and classroom doors and windows must always be open for ventilation.

Teachers, non-teaching staff, and students are prohibited to face one another when eating. Students who

will exhibit symptoms of COVID-19 shall be immediately exempted from attending in-person classes and shall shift to a distance learning modality.

The school should also have an infection control and containment strategy and should not be held liable if there are personnel or students who will test positive for COVID-19. (ROEL T. AMAZONA)

# Rehiring the old?

**R**eactions are varied regarding the reported plan of the Department of Education (DepEd) to tap senior citizens, probably retired teachers, who are willing to offer their services as volunteer teachers.

This development comes in the face of the upcoming school year wherein face-to-face classes will be resumed. In this return to the actual classroom sessions with the students, there must be, as usual, shortages of teachers and classrooms, and so more mentors are needed to man these classes that had increased in number due to the addition of senior high school.

Faced with this teacher shortage, DepEd is seemingly compelled to look for ways in order to address the problem. But then again, it is being greeted with criticism, particularly on social media. One firm argument questions this move since the senior citizens, as we all know, are no longer physically active and may be unable to tackle the demands of stress-

ful teaching and its accompanying tasks.

Another argument, moreover, questions the DepEd why the senior citizens have to be tapped when, practically, there are thousands of jobless teacher applicants who are waiting and begging to be hired. Why rehire the old mentors when they are supposed to be enjoying a stress-free life now? Why not hire the younger, dynamic, and energetic young people equipped with the necessary skills and qualifications?

Other questions have also been raised, and they are likewise valid. Surely, the department has justifying reasons for considering the retirees as volunteer mentors, some of which being their unquestioned teaching abilities and knowledge, and perhaps the lack of budget for salaries. Still, these are problems that can be resolved through other means. Explore more options; better yet, hire the teacher applicants who are desperately looking for jobs.

Tales**

DOMS PAGLIAWAN

## Contest judge

I wrote this piece while preparing my siday to present in a program that was prepared by a group of young people whose advocacy is quite unique. It's actually a poetry reading contest, and my piece is just a

special number, not an entry. In fact, my poem is not related to their theme but is just an example of what a poem could be, in a way.

Having given this introduction, I could discuss here what that poem is, or

talk about the kind of advocacy that they have. Maybe, I'll just opt for the latter.

This poetry reading contest to which I was invited as a judge is what they call "spoken word poetry". It's a kind of poetry that is better read aloud than read silently. The name itself explains it. It differs from the traditional, standard poetry in that, it's a little bit prosy, with a narrator/speaker in it, doing some kind of monologue. The presentation is somewhat akin to declamation, with the reader using his voice, facial expression, or even actions to present it. Sometimes, it may sound sermonic, moralistic, and didactic.

And so, I'll be going there as a contest judge after the group called "Istilo Poetry" sent me an invitation to do so weeks ago. But, as I said, they also allowed me to read my sample poetry for the young members to listen to or learn from.

There have been spoken word poetry reading competitions held in various places, but as I said, this one is peculiar, the reason being that the theme is not quite dwelt on nowadays. It's actually anti-communism, or against the CPP-NPA-NDF. These young people had taken a stand which is against the

see Contest /page 8 ...

## Commentary

FR. ROY CIMAGALA

### On human sexuality

IN the gospel, Christ was once asked about marriage and divorce. And it was there that he had to clarify certain misunderstandings the people of that time had about these matters. And he also brought in the issue about celibacy. (cfr. Mt 19,3-12)

Human sexuality is a very delicate topic that has to be handled very, very well. It is so delicate that even a little misunderstanding of it can cause tremendous damage in the spiritual life of a person. It is where the disconnect between man's body and soul, and ultimately between God and man, can be the sharpest. It can lead us blind, deaf and insensitive to the spiritual and supernatural dimension of our life.

That is why, back in 1995, the Vatican issued a document that to me holds special and urgent relevance today. It's entitled, The Truth and Meaning of Human Sexuality, and precisely talks about a topic that should be made mainstream.

It needs to be brought out more in the open. Given the many issues in this area that have managed to generate a lot of confusion and complications, the document offers a basic and comprehensive primer especially to parents who are the first teachers and formators of their children.

What we have in society only reflects and is a result of what we have in the families. If the families do not do well or even fail in the education of their children in human sexuality, we cannot expect a society that will have a healthy attitude toward this very important aspect of human life.

The naked truth is that problems in this area have multiplied not only in

number but also in kind. Wherever we go, even if we would just take a cursory look around, we can immediately see that there are things that are not quite right or, shall we say, that at least raise eyebrows, provoke questions and concern, etc.

Pornography is now so easily accessible that even little innocent children

can already get exposed to them. Teen-age pregnancy is on the rise, together with casual sex and hook-ups, STD, abortion, contraception, and illegitimate children. This is not to mention the rise of problems related to the confusion in sexual identity.

There is a need to stress the original beauty and truth of human sexuality, its great positive and constructive power and contribution to our lives. And so, we have to highlight its origin in our human nature as designed by our Creator himself. We therefore cannot help but view human sexuality always within the framework of our Christian faith.

From there, we have to stress why our human sexuality is to be lived always in the context of truth and

love, that is, in chastity, and not just in the context of our feelings and passions, and other worldly trends and some ideologies detached or even hostile to the faith.

Since we cannot avoid having some conflicting discussions in this topic, we have to have a clear idea of the distinction between good tolerance and bad tolerance, between healthy open-mindedness and the unhealthy one.

More importantly, we have to find ways to make this concern of teaching the truth and meaning of human sexuality an ongoing affair. Some structures have to be put up to continually help parents effectively discharge their duty of being teachers to their children, especially in the area of human sexuality.

## Automatic for the People

CLEMELLE MONTALLANA

### Hunger as a Relevant Agenda

*Freedom is meaningless if people cannot put food in their stomachs, if they can have no shelter, if illiteracy and disease continue to dog them.*  
-Nelson Mandela

As the smoke settles and we have a brand new administration in our midst we must take Hunger as one of the most urgent and most pressing agenda at hand.

Current estimates are that nearly 690 million people are hungry, or 8.9 percent of the world population – up by 10 million people in one year and by nearly 60 million in five years. The majority of the world's undernourished – 381 million – are still found in Asia. This is an excerpt from United Nations Website <https://www.un.org/sustainabledevelopment/hunger/>. This is not a made up opinion, this is a world picture.

In our country, the Philippine Statistics Au-

thority <https://psa.gov.ph/poverty-press-releases/nid/165535>, poverty – press release said;

The First Semester 2021 poverty incidence among population, or the proportion of poor Filipinos whose per capita income is not sufficient to meet their basic food and non-food needs, was estimated at 23.7 percent. This translates to 26.14 million Filipinos who lived below the poverty threshold estimated at PhP 12,082, on the average, for a family of five per month in the first semester of 2021. On the other hand, subsistence incidence among Filipinos, or the proportion of Filipinos whose income is not enough to meet even the basic food needs, was registered at 9.9 percent or

about 10.94 million Filipinos in the first semester of 2021. On the average, the monthly food threshold for a family of five for the same period was estimated at PhP 8,393.

Analyzing further, the PhP. 12, 082 poverty threshold is something that puts most Filipinos in an impoverished situation, whose capacity to provide food in the table is hampered by that reality. In effect hundreds of thousands of Government Employees with Net Take Home Pay below this amount is also considered poor because debt servicing or payment hampers them in buying food for the table and paying their debts. In effect, a family of minimum wage of PhP.325/day cannot meet the threshold however which way you compute, it cannot even break the 10k level.

Over all, from the return of on-site schooling where parents will be shelling out for food, transportation and pocket allowance it will mean a harder way of life for many of us. The on-site classes, on-site reporting to work will create an increased economic activity but will pack a wallop to the already struggling minimum wage earners. It will mean food provisions will be scarce amid

see Hunger /page 8 ...

## High-Powered Objective

(S & T Enhanced Nations Have Edge)

DR. PACIENTE CORDERO, JR.

### Secretary Diokno supports status quo of rice tariffication law

Secretary Benjamin Diokno, Finance Department, is poised to recommend the status quo of the Rice Tarification Law (RTL). He (Diokno) believes that "That's a really good law, it had a major contribution to our desire to control inflation, I think it's not smart to go back to hold system."

Rice used to be regarded as a major driver of inflation upticks prior to the RTL, which opened the floodgates for the importation of cheap rice. Indeed, there are detractors (farmers) calling for the reassessment, suspension and repeal of the law. President Ferdinand Romualdez Marcos, Jr. is receptive to the farmers plight by asking the DA's stand on the issue and has in fact called for a review of the law.

The pro-RTL group contends that "The country's economic managers said the RTL Pinoy gave way to the Rice Competitiveness Enhancement Fund (RCEF) which has an annual appropriation of P10-billion to

fund programs for farm mechanization, seed development, propagation and promotion, credit assistance and extension services. In 2021, the country raised P18.9 billion from RTL collection. To date, the government has already collected P8.35 billion as of May 2022.

**MY COMMENT:**

I understand that RTL has had advantages out weighing the negatives and support its retention, but should be studied further for its defects as mandated by PFRMJR. Further (Marcos) said "Give me a short memo on whether we should or we should not ratify (the Law), the pros and cons."

Rice is the Filipinos prized commodity that activities related to it need to be meticulously studied, be under the microscope!

# Construction of an alternative road for Tacloban-Ormoc-Biliran routes now underway

TACLOBAN CITY- The construction of an alternative road for motorists utilizing the Palo-Carigara-Ormoc road section project is now ongoing and is projected to benefit both the residents along this area and the motorists.

After completing the rehabilitation and improvement work on the Barugo-San Miguel Road project allotted for CY-2021, the Leyte Second District Engineering Office of the Department of Public Works and Highways is now implementing another P47.68 million road improvement for the same road section outset at Barangay Calingcaguing to Sta. Rosa's Road network, both in Barugo town.

District Engineer Leo Edward Oppura is optimistic that the project implementation of the Barugo-San Miguel Road project will be on track considering that this road network serves as an alternative road for motorists utilizing the Palo-Carigara-Ormoc road section.

Oppura said that the road section is considered as an alternative route to and from Tacloban, Or-

moc, and Biliran Province. He informed that the road had been used when Hiagsam Bridge along Palo-Carigara-Ormoc Road (Jaro road section) was destroyed in December 2013 by severe flooding brought on by Typhoon 'Seniang'.

A total of 6.033-lane kilometer will be re-constructed in intermittent sections to promote better, safe, and faster transporta-

tion of goods and motorists.

Target completion is scheduled on September 22, 2022 with 83.40% reported work accomplishment.

Barugo-San Miguel Road is among the list under Department Order No. 42 series of 2022 "Declaring Various Roads in Region VIII to National Road," of the DPWH.

## Contest...

...from Page 4

insurgency in the country. Their poems are condemning the NPA atrocities, extortion, and human rights abuses, most especially the recruitment of the youths by leftist organizations.

Again, this is hardly heard of, knowing that people particularly the youths are normally afraid of the threats and terroristic activities of the CPP-NPA. They would rather just keep silent than be vocal against these lawless groups. But perhaps they have been fed up. The 53-plus years of NPA atrocities in the country must have already exhausted their patience such that they no longer want to just keep quiet. They want to voice out their disgust through their poetic craft.

They want to take part in putting an end to this senseless effort to destroy our democratic form of government.

At the moment, I have no idea what the contents of their poems have to say, specifically. Like the other judges, I'll just listen attentively, and of course, browse the written copies that will be given to us at the venue. I'll be a fair judge—just following the criteria that they had set for the contest. I wish this contest is broadcasted live so that people everywhere could hear what they want to say through their poetry. Their voices deserve to be heard since, as young people, they comprise the future leaders and educators and writers and artists of our land. I don't have that chance for listening enjoyment—I'll be a judge.

## EXTRAJUDICIAL SETTLEMENT OF ESTATE WITH ABSOLUTE SALE

## ERRATUM

In Extrajudicial Settlement with Waiver of Rights of the late JOSE GUALBERTO LACANDAZO the Notary Public should be: **ATTY ROMEO G. MAGDALAGA, JR.** not Atty. Romeo G. Magdalozo, Jr. in our July 19, 26 & August 2, 2022 issues.

We regret the errors. ED

# Businessman in Calbayog City shot dead by still unknown gunman

ORMOC CITY-A land broker, who is also known in the buy and sell business, died on the spot after he was shot dead by an unidentified person he was talking to inside the compound of his house in Calbayog City.

Calbayog city police director, Lt. Col Ericson Del Rosario, identified the victim as Paquito Debuton, alias "Kits", 52, mar-

ried, self-employed, and a resident of Purok 3, Brgy. Malopalo, Tinambacan, Calbayog City.

Initial investigation conducted by responding police disclosed that while the victim was resting at his hammock at their house at about 8 am, the suspect allegedly was standing outside of the gate of his residence when he called the

attention of the victim.

The victim allowed the suspect to get near to him. However, during their short conversation the suspect drew an unidentified short firearm and shot the victim in his head.

The suspect immediately fled on board a motorcycle and drove away towards an unknown direction.

The local police are conducting a thorough investigation over the motive of the killing and the identity of the suspect.

(ROBERT DEJON)

## Over 135...

...from Page 1

Around 61 Tacloban- ons finished the food processing skills training, and 26 beneficiaries completed the 15-day free hair-cutting and cosmetology courses.

Bartending and reflexology courses each had 10 and 11 graduates, while baking had 15 and dress-making, 12.

The CLEP graduates which completed the training last January to June received certificates of completion and starter kits from the local government to aid them in their livelihood venture.

The successful trainees came from Barangays 84, 110, 66, 42-A, and 49.

On behalf of the local Chief Executive, Hiraya president Raymund Romualdez, in a short talk, inspired the recipients to persevere as they provide for the needs of their families.

Meantime, acting CLEP Coordinator Ruena Mate encouraged the recipients to fully utilize the skills they learned during the training in their respective livelihood ventures.

Another batch of more than 300 CLEP trainees from the northern barangays are set to graduate this August 18.

## Gov. Petilla...

...from Page 1

the implementation of the in-person classes.

In their on-going enrollment quick count, about 250, 973 students from Kindergarten to Grade 12 had already enrolled in various public schools in the province.

Albaño said that while all public schools in the province are now ready to implement the in-person

classes, only 65 of the 85 private schools had signify their readiness for the face-to-face classes while 20 are still not offering such mode of classes.

He also disclosed that at least three private schools in Abuyog and Albueva verbally informed them that they will temporarily stop their operations, but they have not yet received the formal letter from the school management.

## Hunger...

...from Page 5

the diminished capacity to find additional income.

The continued threat of the Pandemic and the War in Ukraine shows what United Nations had predicted all along :The world is not on track to achieve Zero Hunger by 2030. If recent trends continue, the number of people affected by hunger would surpass 840 million by 2030. And it goes without saying that having Asia as the most hungry continent Philippines is there at the center.

Bono, the Band U2 's primus inter pares vocalist had said it correctly:

## Outgoing...

...from Page 1

able to achieve numerous gains in the campaign against criminality, illegal drugs, and insurgency which resulted to recognition of the police force in the region.

"On the last six months on my tour of duty as your regional director, I found that we are able to accomplish so many things because of our unity of command and team work that has cooperation, collaboration, and coordination," he said.

The gains of Police Regional Office 8 he said were

*if we want to eliminate hunger everybody must be involved.* The present crop of Presidential aspirants must and should put these reality as the cornerstone of a campaign that would be a cornerstone of government programs if ever elected. We don't want palliatives and motherhood statements and rhetoric's. We want course of actions, operational steps and less of the vague promises of the moon and the stars just to get the love and the vote, because as the saying goes *when hunger knocks at the door, love flies at the first open window.*

due to his trust to all police personnel, especially his command staff that they will perform well according to the thrust of the higher command.

"I believe that each and every one of you can do your job better (or) excellently. That is why I was convincing you to let your light shine because it is you that I would like to shine," Banac said.

Banac is now assigned as the acting director of the directorate for plans at the national headquarters of the PNP in Camp Crame.

He is replaced by PB-Gen Rommel Francisco Marbil, who was the former

## Proposed coastal by-pass road in Maasin City will benefit entire Southern Leyte, says Mayor Mercado

TACLOBAN CITY – The national government-funded project Maasin City coastal by-pass road will greatly help not only the residents of the city but other residents of the province as well, thus said Mayor Nacional Mercado.

“This will address the congestion problem in our highways once completed,” he said.

“The city has two main highways and we need to address congestion issues to have a better flow of traffic,” he added.

The Department of Public Works and Highway (DPWH) is imple-

menting a multi-year infrastructure project in the capital city of Southern Leyte, a 5.79 kilometer-long coastal bypass road.

The project also includes the construction of a 1.1 kilometer bridge.

About P1.5 billion was estimated to be funded for said project.

The planning phase for the construction of the coastal bypass road started with a feasibility study in 2018.

The Maasin City Coastal Bypass Road Project will be a 5.79 km road connecting Barangay Lib-og to Barangay Mambajao, and bypassing the city road by

traversing the coastal areas of villages of Abgao, Tun-ga-Tunga, and Combado.

“Hopefully in the coming years this will be a priority to ensure faster completion of the coastal bypass road and help us economically and decon-gest our road,” Mayor Mercado added.

## Only 20% of national ID delivered in Eastern Visayas: PSA

TACLOBAN CITY – Only 20 percent of the over 3.3 million residents in Eastern Visayas who registered for the Philippine Identification System (PhilSys) have received their printed identification (ID) cards, the Philippine Statistics Authority (PSA) reported last week.

The delay in the delivery of ID cards can be attributed to the limited production of physical ID cards in Manila, according to PSA Eastern Visayas Regional Director Wilma Perante.

Of the 3,387,864 residents who completed the PhilSys registration process, only 669,149 or 20 percent of them received their printed ID cards.

“The delays are being taking care of by our central office. We just make sure that we immediately deliver to intended recipients all cards received by the region,” Perante added.

The region has 4,032,967 projected population aged five years and older. Those who completed the two-step registration process cover 84 percent of the region's target population.

President Ferdinand Marcos Jr. has ordered the faster distribution of the national IDs under the PhilSys to enable Filipinos to use it by 2023.

**WAITING FOR THE CARD.** A resident of Eastern Samar province enlists in the Philippine Identification System (PhilSys) in this undated photo. Only 20 percent of the over 3.3 million residents in Eastern Visayas who have registered for the Philippine Identification System (PhilSys) have received their printed identification (ID) cards, the Philippine Statistics Authority (PSA) reported on Wednesday (Aug. 10, 2022).

Recently, the PSA said they would release three types of physical national identification cards – in print, downloadable, and mobile formats.

The PSA is eyeing the delivery of 30 million physical cards nationwide and the establishment of 20 million digital national IDs this year.

It also plans to pilot test the printable version of the digital cards by October and will launch the mobile version by the end of the year.

Signed into law by then-president Rodrigo Duterte in August 2018, Republic Act 11055, or the

PhilSys Act, aims to establish a single national ID for all Filipinos and resident aliens.

The national ID will be a valid proof of identity that shall be a means of simplifying public and private transactions, enrolment in

schools, and the opening of bank accounts.

It will also boost efficiency, especially in dealing with government services where people will only need to present the PhilID during transactions. (PNA)

### EXTRAJUDICIAL SETTLEMENT

NOTICE is hereby given that heirs of the late VICKY A. MAGNO extrajudicially settled and adjudicated over 2 bank deposits at Bank of the Philippine Islands (BPI) Tacloban City particularly described as; 1) Account No. 009153-0290-56; Nature of Account: Peso Savings (Passbook); Balance: Php74,300.93; 2) Account No. 915 911 7291; Nature of Account: Savings Account (ATM); Balance: Php19,241.63. LSDE: August 2, 9 & 16, 2022

## Community-based monitoring rollout covers 90 areas in E. Visayas

TACLOBAN CITY – At least 90 towns and cities in Eastern Visayas will implement the community-based monitoring system in the first two months of its rollout, the Philippine Statistics Authority (PSA) has said.

This was disclosed by PSA Regional Director Wilma Perante who said that these local government units (LGUs) began data gathering on August 8 and wind it up on October 6.

A total of 22 LGUs in Samar, 18 in Leyte, 17 in Northern Samar, 15 in Southern Leyte, 11 in Eastern Samar, and seven in Biliran will be monitored.

“The conduct of CBMS in 60 LGUs (is) funded by PSA since these towns belong to the fourth- and fifth-income classes. The rest are funded by LGUs. There will be 74 LGUs that will commence (their) CBMS operation in August, while the other 16 LGUs will start their operation in October,” Perante added.

The region has 136 towns and seven cities in six provinces.

CBMS refers to an organized technology-based system of collecting, processing, and validating necessary disaggregated data that may be used for planning, program implementation, and impact

monitoring at the local level while empowering communities to participate in the process.

The system, mandated under Republic Act 11315, involves the generation of data at the local level, which serves as the basis for targeting households in the planning, budgeting, and implementation of government programs geared towards poverty alleviation and economic development.

“The CBMS entails a census of households using accelerated poverty profiling systems in the data. Data generated from CBMS will serve as the compendium of localized facts, figures, and maps on the different dimensions of poverty,” Perante added.

These dimensions include health, nutrition, water, sanitation, shelter, education, income, employment, security, and participation.

Department of the Interior and Local Government 8 Director Arnaldo Escobar said with the nationwide rollout of the CBMS, the national government would be able to equip LGUs with the proper system and tools to help them assess, plan, and implement development programs for their

localities.

“Since LGUs have bigger tax allotments because of the Mandanas-Garcia ruling, we hope they will be able to allocate funds to carry-out CBMS activities. It will really help LGU design programs and projects for targeted beneficiaries in their areas,” Escobar told reporters.

All enumerators have been trained by PSA and all data collected will be subject to validation by the PSA to ensure that they conform to standards.

Perante asked the public to support the 2022 CBMS rollout by providing truthful information. All information gathered will be held strictly confidential and data will be released in statistical summaries only. (PNA)

## U.S. donates P 1.6 million in disaster relief, medical supplies to Palawan

Manila-On August 12, the U.S. Embassy Civil Affairs Team (CAT) donated disaster relief tents and medical supplies, valued at P1.6 million (\$30,000), to support local humanitarian assistance and disaster relief preparedness in Palawan.

Members of the Philippine Coast Guard and U.S. sailors from the hospital ship USNS Mercy (T-AH 19) aided with the delivery of the tents and supplies, which were turned over to the Palawan provincial government during a ceremony in Puerto Princesa City attended by Palawan Governor Dennis Socrates and U.S. Embassy Acting Public Affairs Officer Nina Lewis.

The USNS Mercy has been docked in the Philippines since July 27 to participate in Pacific Partnership 2022, the largest annual multilateral humanitarian assistance and disaster

preparedness exercise conducted in the Indo-Pacific.

“The supplies we received will surely be of great help to our continued disaster readiness efforts. We are beyond grateful for this donation,” said Governor Socrates.

“The local government of Palawan, the Philippine Coast Guard, and the Armed Forces of the Philippines have been reliable partners in ensuring that our activities and projects are well-coordinated and executed to their full potential, and that members of the U.S. Embassy CAT are properly welcomed and taken care of throughout our stay in the province,” said U.S. Army Capt. Arthur Kim. “We continue to be impressed by the professionalism, dedication, and hospitality of our Filipino partners and value any opportunity to work with them here in

Palawan.”

The U.S. Embassy CAT has a longstanding collaboration with the Palawan local government, military, and coast guard on several initiatives including educational outreach activities, first responder training, medical and dental programs, and support in the local COVID-19 response.

“We must continue to be adaptive and diligent in ensuring that the Philippines and U.S. partnership remains steadfast and unwavering in the face of global political, economic, and health-related challenges,” Capt. Kim added.

U.S. Army CATs are a part of U.S. efforts to build shared capabilities with partner nations around the world. The U.S. government constantly works to help communities in the Philippines prepare for and be more resilient to natural disasters. (PR)
